"The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life.

Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

This classic series of duets for like instruments is recognizable to nearly everyone who has ever studied an instrument. The wealth of material supplements musical development and provides a rich experience for growing musicians. Duet playing is often a student's first form of ensemble experience - technique, tone quality, intonation and balance are introduced as students do one of the things they enjoy most - making music with a friend. And duet playing leads easily and naturally to competent performance in larger ensembles. (Vol. 1 - Easy to Medium, Vol. 2 - Medium to Advanced)

Up Against The Wall: Art, Activism, and the AIDS Poster offers nearly 200 examples of visually arresting and socially meaningful posters, taken from more than 8,000 held in the collection in the University of Rochester's River Campus Libraries' Department of Rare Books, Special Collections, and Preservation. The collection, one of the largest of its kind in the world, was donated to the University of Rochester by Dr. Edward Atwater. The book accompanies an exhibition of AIDS education posters displayed at the Memorial Art Gallery of the University of Rochester, Rochester, NY.The posters, spanning the years from 1982 to the present, show how social, religious, civic, and public health agencies have addressed the controversial, often contested terrain of the HIV/AIDS pandemic within the public realm. Organizations and creators tailored their messages to audiences, both broad and very specific, and used a wide array of strategies, employing humor, emotion, scare tactics, simple scientific explanations, sexual imagery, and many other methods to communicate powerfully and effectively.
