

Confessions Of A Male Nurse The Confessions Series

In the 1910s and 1920s, when circus was the most popular form of entertainment in North America, Mabel Stark made her name in a man’s world as the greatest female tiger trainer in history, the centre-ring finale act for the Ringling Brothers Barnum & Bailey Circus. Brazen, sexually eccentric, Stark survived a dozen severe maulings — and five husbands. Now, at age 80 and about to lose her job, she decides that there is one last thing she needs to do: Mabel Stark wants to confess.

The Heinemann Plays series offers contemporary drama and classic plays in durable classroom editions. Many have large casts and an equal mix of boy and girl parts. This play is a dramatization of Daniel Keyes’s story about a retarded adult who desperately wants to be able to work. Revised edition of the best-selling memoir that has been read by over a million people worldwide with translations in 29 languages. After too many years of unfulfilling work, Bronnie Ware began searching for a job with heart. Despite having no formal qualifications or previous experience working in palliative care. During the time she spent tending to those who were dying, Bronnie’s life was transformed. Later, she wrote an internet blog post, outlining the most common regrets that the people she had cared for had expressed. The post gained so much momentum that it reached over a million readers worldwide in its first year. At the request of many, Bronnie subsequently wrote a book, The Top Five Regrets of the Dying, to share her story. Bronnie has had a colourful and diverse life. By applying the lessons of those nearing their death to her own life, she devoted her life to helping everyone, if we make the right choices, to die with peace of mind. In this revised edition of the best-selling memoir that has been read by over a million people worldwide, with translations in 29 languages, Bronnie expresses how significant these regrets are and how we can avoid them and have the time. The Top Five Regrets of the Dying gives hope for a better world. It is a courageous, life-changing book that will leave you feeling more compassionate and inspired to live the life you are truly here to live.

Now available as an ebook for the first time ever in America, the bestselling coming-of-age classic novel by John Irving—the 40th anniversary edition with a new introduction by the author. “He is more than popular. He is a Populist, determined to keep alive the Dickensian tradition of teaching moral lessons.”—The New York Times The opening sentence of John Irving’s breakout novel The World According to Garp signals the start of sexual violence, which becomes increasingly political. “Garp’s mother, Jenny Fields, was arrested in Boston in 1942 for wounding an unmarried nurse; she becomes a single mom and a feminist leader, beloved but polarizing. Her son, Garp, is less beloved, but no less polarizing. From the tragicomic tone of its first sentence to its mordantly funny last line—“we are all terminal cases”—The World According to Garp is a comedy of sexual hatred—of intolerance of sexual minorities and differences—runs the gamut of “lunacy and sorrow.” Winner of the National Book Award, Garp is a comedy with forebodings of doom. In more than thirty languages, in more than forty countries—with more than ten million copies sold.

A New Nurse Faces Death, Life, and Everything in Between

The sixth book in the bestselling Confessions series. What is life like for a female Undercover Cop? Ash Cameron gives readers a behind-the-scenes look at life in the Police. Funny, moving and irreverent, you’ll never look at a bobby the same way again...

This book is designed to guide you toward making the empowering personal choices that lead to greater fulfillment within any aspect of life. By living more consciously, you may begin to tap into your greatest potential for creating more love, joy, peace, and abundance. Organized within the seven steps of the "Empower Model," this book offers you the practical wisdom and tools to live More Consciously and Empowered! To live "consciously," is to live in present moment awareness, while aligning with higher principles. To be "empowered" means to live within the strength that supports us in choosing to honor ourselves and others in all situations. This is possible for all people, yet it takes more than wishful thinking, and it cannot be provided by anyone else. What is required is an incremental shift from within; the on-going practice of personal and spiritual growth and healing. This will take great courage, honesty, accountability, and the intention of living your life to its greatest potential. ARE YOU READY to live your highest purpose and potential? The nurse is central to healthcare and has always been the most prominent figure in times of vulnerability throughout the life cycle. The Soul of the Nurse uncovers the complexity of the nurse by tracing her origins as far back as Neolithic times. The author explains how, over time, the nurse image has been split into one-dimensional disguises ranging from angelic heroine to sex object. Without moralizing or dividing the good from the bad, this book investigates the dynamic energy of the nurse archetype and uncovers what has been lost through splits, repressions, and distortions. Mythology, folklore, archeology, and popular culture are explored, while considering history and archetypal psychology, revealing new insights into the vast capacities of the nurse. Through personal and collective stories, The Soul of the Nurse reveals why the nurse captivates the imagination and is the most trusted professional in society.

USA TODAY BESTSELLER The Vanderpump Rules breakout star and provocateur brings her signature sharp wit to the page with this collection of humorous and brutally honest essays exploring her rocky road to fame, sobriety, and beyond. What does “Give them Lala” mean? It means giving the truest, most honest version of yourself to the world. It means being authentic, bold, adventurous, and having an unapologetic approach to life. Hollywood is where Lauren Bunningham, aspiring actress from Utah, fully embraced her alter-ego Lala Kent, entrepreneur, entertainer, and film and television star. Some say she ’s rude; Lala says she claps back. Some say she ’s spontaneous; Lala says “eat up the drama.” Some say she ’s too bold; Lala knows she ’s reality TV gold. Truth is, without giving them Lala, Lauren could never have become the woman she is today. In her debut collection of essays, Lala shares how you, too, can embrace the best version of yourself and never feel guilty for deserving more. As she leads us on her bumpy journey from suburban boredom to Hollywood glamour, she ’ll explain how women can—and should—feel just as free as men when it comes to sex, how sobriety saved her life and relationship, and how we should treasure every day we have with those we love.

“Among all the recent books on medicine, Critical Care stands alone.” —Pauline Chen, author of Final Exam “A must read for anyone who wants to understand healthcare. Extraordinary.” —Elizabeth Cohen, MPH, CNN Senior Medical Correspondent

Critical Care is the powerful and absorbing memoir of Theresa Brown—a regular contributor to the New York Times blog “Well”—about her experiences during the first year on the job as an oncology nurse; in the process, Brown sheds brilliant light on issues of mortality and meaning in our lives.

Curious about the world of obstetrics and gynecology? Want to know why a future doctor would want to specialize in gynecology? Or perhaps you'd just like a peek behind the curtain, so to speak -- and to hear some OBGYN secrets. If you're intrigued by any of these topics, or just want to know about women's health from an OBGYN who tells it like it is, this book is for you. "Confessions of a Male Gynecologist" reveals not only what your gynecologist is thinking when your feet are in the stirrups, but provides women with some frank advice. Dr. Bellanger provides readers with an education, gets on his high horse, and shares some unbelievable (and in many cases), "laugh-out-loud" stories. Here's what readers have to say ... ".... full of insights you had no idea you wanted to know." "... informational, educational, and at times downright hysterical" "... answers all the questions you've ever had about your gynecologist" "... an entertaining experience." "... an insightful look into the complexity and realities of not only women's health, but the state of our health care system today."

Male Practice

For millions of people worldwide, nurses are the difference between life and death, self-sufficiency and dependency, hope and despair. But a lack of understanding of what nurses really do -- one perpetuated by popular media's portrayal of nurses as simplistic archetypes -- has devalued the profession and contributed to a global shortage that constitutes a public health crisis. Today, the thin ranks of the nursing workforce contribute to countless preventable deaths. This fully updated and expanded edition of Saving Lives highlights the essential roles nurses play in contemporary health care and how this role is marginalized by contemporary culture. Through engaging prose and examples drawn from television, advertising, and news coverage, the authors detail the media's role in reinforcing stereotypes that fuel the nursing shortage and devalue a highly educated sector of the contemporary workforce. Perhaps most important, the authors provide a wealth of ideas to help reinvigorate the nursing field and correct this imbalance. As American health care undergoes its greatest overhaul in decades, the practical role of nurses -- that as autonomous, highly skilled practitioners -- has never been more important. Accordingly, Saving Lives addresses both the sources of, and prescription for, misperceptions surrounding contemporary nursing.

This collection of true narratives reflects the dynamism and diversity of nurses, who provide the first vital line of patient care. Here, nurses remember their first “sticks,” first births, and first deaths, and reflect on what gets them though long, demanding shifts, and keeps them in the profession. The stories reveal many voices from nurses at different stages of their careers: One nurse-in-training longs to be trusted with more “important” procedures, while another questions her ability to care for nursing home residents. An efficient young emergency room nurse finds his life and career irrevocably changed by a car accident. A nurse practitioner wonders whether she has violated professional boundaries in her care for a homeless man with AIDS, and a home care case manager is the sole attendee at a funeral for one of her patients. What connects these stories is the passion and strength of the writers, who struggle against burnout and bureaucracy to serve their patients with skill, empathy, and strength.

Nola wants to be a nurse practitioner just like her mom. She has learned how to care for people of all ages and now visits her friends to heal their sick baby dolls. Along the way, she learns more about her culturally diverse world. Nola the Nurse was born from the desire of Dr.

Scharmaine L. Baker, NP who had been searching for children’s books that were both culturally sensitive and featured African-American nurses. She had found none, so she decided to create her own and Nola the Nurse was born. Nola the Nurse, She's On The Go, is the first in a series of beautifully illustrated bedtime stories, perfect for young children. Your child will delight in the colorful pictures and will also learn important cultural lessons.

Driving a cab for more than 30 years Gene Salomon has collected a remarkable selection of stories. He shares the very best in this unforgettable memoir.

From the people who brought you the bestselling Confessions of a GP. From the author of the brilliant Confessions of a Male Nurse.

From acclaimed author and registered nurse Amanda Skenandore, The Alienist meets The Light of Luna Park in a fascinating historical novel based on the little-known story of America's first nursing school, as a young female grifter in 1880s New York evades the police by conning her way into Bellevue Hospital's training school for nurses... In the slums of 1880s New York, Una Kelly has grown up to be a rough-and-tumble grifter, able to filch a pocketbook in five seconds flat. But when another con-woman pins her for a murder she didn't commit, Una is forced to flee. Running from the police, Una lies her way into an unlikely refuge: the nursing school at Bellevue Hospital. Based on Florence Nightingale's nursing principles, Bellevue is the first school of its kind in the country. Where once nurses were assumed to be ignorant and unskilled, Bellevue prizes discipline, intellect, and moral character, and only young women of good breeding need apply. At first, Una balks at her prim classmates and the doctors' endless commands. Yet life on the streets has prepared her for the horrors of injury and disease found on the wards, and she slowly gains friendship and self-respect. Just as she finds her footing, Una's suspicions about a patient's death put her at risk of exposure, and will force her to choose between her instinct for self-preservation, and exposing her identity in order to save others. Amanda Skenandore brings her medical expertise to a page-turning story that explores the evolution of modern nursing--including the grisly realities of nineteenth-century medicine--as seen through the eyes of an intriguing and dynamic heroine.

A bit about the author This book follows my progression from a theatre porter to student nurse to becoming a professional nurse. In line with confidentiality, I have changed the names of people, except for two of my very good friends who have given permission to use their real names. I never wanted to be a Nurse. I always wanted to work in a laboratory which I did from leaving school. Nursing came out of the blue, after taking a temporary job as a theatre porter. To this day I have never looked back. Nursing has changed a lot over the years, you cannot have as much fun as you used to. The person who introduced me to nursing I am no longer with, after twenty years we parted company as friends, and I thank her for that introduction to nursing. I am now happily married to an amazing person, who is very supportive and has my sense of humour. I have certainly met my match there. She too has also encouraged me to write this book. These are merely a sample of the things that happened to me whilst I was training and practicing as a Nurse. I have changed people’s names to keep them anonymous. I can confirm that everything you read in this book is factual and have genuinely happened.

The 2017 National Book Critics Circle (NBCC) Finalist, International Bestseller, and a Kirkus Best Nonfiction Book of 2017! “Marsh has retired, which means he’s taking a thorough inventory of his life. His reflections and recollections make Admissions an even more introspective memoir than his first, if such a thing is possible.” —The New York Times “Consistently entertaining...Honesty is abundantly apparent here—a quality as rare and commendable in elite surgeons as one suspects it is in memoirists.” —The Guardian “Disarmingly frank storytelling...his reflections on death and dying equal those in Atul Gawande’s excellent Being Mortal.” —The Economist Henry Marsh has spent a lifetime operating on the surgical frontline. There have been exhilarating highs and devastating lows, but his love for the practice of neurosurgery has never wavered. Following the publication of his celebrated New York Times bestseller Do No Harm, Marsh retired from his full-time job in England to work pro bono in Ukraine and Nepal. In Admissions he describes the difficulties of working in these troubled, impoverished countries and the further insights it has given him into the practice of medicine. Marsh also faces up to the burden of responsibility that can come with trying to reduce human suffering. Unearthing memories of his early days as a medical student, and the experiences that shaped him as a young surgeon, he explores the difficulties of a profession that deals in probabilities rather than certainties, and where the overwhelming urge to prolong life can come at a tragic cost for patients and those who love them. Reflecting on what forty years of handling the human brain has taught him, Marsh finds a different purpose in life as he approaches the end of his professional career and a fresh understanding of what matters to us all in the end.

From Colleen Hoover, the #1 New York Times bestselling author of It Ends With Us, a heart-wrenching love story that proves attraction at first sight can be messy. When Tate Collins meets airline pilot Miles Archer, she doesn't think it's love at first sight. They wouldn't even go so far as to consider themselves friends. The only thing Tate and Miles have in common is an undeniable mutual attraction. Once their desires are out in the open, they realize they have the perfect set-up. He doesn't want love, she doesn't have time for love, so that just leaves the sex. Their arrangement could be surprisingly seamless, as long as Tate can stick to the only two rules Miles has for her. Never ask about the past. Don't expect a future. They think they can handle it, but realize almost immediately they can't handle it at all. Hearts get infiltrated. Promises get broken. Rules get shattered. Love gets ugly.

A New York Times bestseller. "A funny, intimate, and often jaw-dropping account of life behind the scenes."—People Nurses is the compelling story of the year in the life of four nurses, and the drama, unsung heroism, and unique sisterhood of nursing—one of the world's most important and one of the world's most dangerous, filled with violence, trauma, and PTSD. In following four nurses, Alexandra Robbins creates sympathetic characters while diving deep into their world of controlled chaos. It's a world of hazing—"nurses eat their young." Sex—not exactly like you think—abuse—disproportionately a problem among the best and the brightest, and a constant temptation. And bullying—by peers, by patients, by hospital bureaucrats, and especially by doctors, an epidemic described as lurking in the "shadowy, dark corners of our profession." The result is a powerful and honest look at the nursing care system.

How Doctors Manipulate Women

The World According to Garp

Today, the debate about our health care system is raging, but it often seems too complex or politically-driven for people to navigate. There has perhaps never been a better time to share with the American public a book that explains the state of our health care in an honest, comprehensive, and relatable way. Dying of Health Care, authored by a primary care physician with nearly 40 years of experience practicing in the U.S. and U.K., provides an easy-to-understand examination of the American health care system's major problems and potential solutions. Dr. Hanna explores the all-important question facing us today: why are Americans paying much more per person for health care than those in other developed nations, but getting much less in terms of quality? Approaching this painful paradox through a clinician's eyes, Dr. Hanna first makes a careful diagnosis and then prescribes an appropriate treatment to heal our ailing system. He shares real-life examples of patients and provides insights into the minds of doctors, including how their decisions influence the costs and outcomes of treatments. Ultimately, Dr. Hanna exposes how the system harms us - even sometimes kills us - both physically and financially, and he offers innovative solutions that can work to create the quality, affordable system we deserve.
