International Mail Manual

Report on Activities Under the National Traffic and Motor Vehicle Safety Act of 1966

Final Report of the National Commission on Terrorist Attacks Upon the United States

The physician's guide to diagnosing and treating learning disabilities in children 1 in 10 Canadians have a learning disability, and doctors must be able to identify, diagnose, treat, and manage children who are struggling in school. The first book specifically tailored for the needs of physicians working with kids with learning disabilities, Children With School Problems: A Physician's Manual covers such important areas as child development, diagnosing learning disabilities (including data gathering, screening and assessment, and physical examinations), management (medication, behavioral management, and educational interventions), and prevention (including literacy promotion). Written by trusted experts from the Canadian Paediatric Society, Children With School Problems is filled with practical tools and resources that physicians—including paediatricians, family physicians, and paediatric learners—can use to diagnose and treat children with learning disabilities. The only book on learning disabilities in children specifically designed for physicians Written by trusted experts from the Canadian Paediatric Society Covers important issues including literacy promotion, screening for disabilities, medication options, and much more Gives physicians the tools they need to help children with learning disabilities Physicians want to know more about learning disabilities, and parents want their paediatricians and family physicians to provide more help when their kids struggle in school. Children with School Problems provides that information, making it an invaluable resource for any doctor working with kids.

Operators, Organizational, Direct Support, and General Support Maintenance Manual

Over 5,300 total pages. MARINE RECON Reconnaissance units are the commander ' s eyes and ears on the battlefield. They are task organized as a highly trained six man team capable of conducting specific missions behind enemy lines. Employed as part of the Marine Air-Ground Task Force, reconnaissance teams provide timely information to the supported commander to shape and influence the battlefield. The varying types of missions a Reconnaissance team conduct depends on how deep in the battle space they are operating. Division Reconnaissance units support the close and distant battlespace, while Force Reconnaissance units conduct deep reconnaissance in support of a landing force. Common missions include, but are not limited to: Plan, coordinate, and conduct amphibious-ground reconnaissance and surveillance to observe, identify, and report enemy activity, and collect other information of military significance. Conduct specialized surveying to include: underwater reconnaissance and/or demolitions, beach permeability and topography, routes, bridges, structures, urban/rural areas, helicopter landing zones (LZ), parachute drop zones (DZ), aircraft forward operating sites, and mechanized reconnaissance missions. When properly task organized with other forces, equipment or personnel, assist in specialized engineer, radio, and other special reconnaissance missions. Infiltrate mission areas by necessary means to include: surface, subsurface and airborne operations. Conduct Initial Terminal Guidance (ITG) for helicopters, landing craft, parachutists, air-delivery, and re-supply. Designate and engage selected targets with organic weapons and force fires to support battlespace shaping. This includes designation and terminal guidance of precision-guided munitions. Conduct post-strike reconnaissance to determine and report battle damage assessment on a specified target or area. Conduct limited scale raids and ambushes. Just a SAMPLE of the included publications: BASIC RECONNAISSANCE COURSE PREPARATION GUIDE RECONNAISSANCE (RECON) TRAINING AND READINESS (T&R) MANUAL RECONNAISSANCE REPORTS GUIDE GROUND RECONNAISSANCE OPERATIONS GROUND COMBAT OPERATIONS Supporting Arms Observer, Spotter and Controller DEEP AIR SUPPORT SCOUTING AND PATROLLING Civil Affairs Tactics, Techniques, and Procedures MAGTF Intelligence Production and Analysis Counterintelligence Close Air Support Military Operations on Urbanized Terrain (MOUT) Convoy Operations Handbook TRAINING SUPPORT PACKAGE FOR: CONVOY SURVIVABILITY Convoy
