

Correct My Spanish Paper

This volume brings together cutting-edge research on modern Spanish women as writers, activists, and embodiments of cultural change, and simultaneously honors Maryellen Bieder's invaluable scholarly contribution to the field. The essays are innovative in their consideration of lesser-known women writers, focus on women as political activists, and use of post-colonialism, queer theory, and spatial theory to examine the period from the Enlightenment until World War II. The contributors study women as agents and representations of social change in a variety of genres, including short stories, novels, plays, personal letters, and journalistic pieces. Canonical authors such as Emilia Pardo Bazán, Leopoldo Alas "Clarín," and Carmen de Burgos are considered alongside lesser known writers and activists such as María Rosa Gálvez, Sofía Tartilán, and Caterina Albert i Paradís. The critical analyses are situated within their specific socio-historical context, and shed new light on nineteenth- and early twentieth-century Spanish literature, history, and culture. Published by Bucknell University Press. Distributed worldwide by Rutgers University Press.

Spanish Papers and Other Miscellanies

This text is a compilation of articles on different aspects of Spanish grammar in the areas of current theoretical syntax and semantics. Topics covered include: the syntax and semantics of clitics and clitic doubling; the structure of noun phrases, with special attention to adjectives; the position of subjects; tense and causation. The approaches fall within generative grammar, broadly understood, with some contributions cast in the perspective of the minimalist program. Thus, the book attempts to offer a balanced picture of state of the art research in these areas. Luis Silva-Villar is Assistant Professor of Hispanic Linguistics at Mesa State College, USA.

This study of a northern Spanish community shows how the residents of Santa María del Monte have acted together at critical times to ensure the survival of their traditional forms of social organization. The survival of these forms has allowed the villagers, in turn, to weather demographic, political, and economic crises over the centuries. Originally published in 1991. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Cornell Working Papers in Linguistics

THEY BELIEVE SECRETS GIVE THEM POWER*World War II—Hitler is obsessed with gathering ancient knowledge and artifacts from around the globe, in an effort to consolidate the wisdom and power of long-gone cultures and rule the modern world. The División Azul—the Blue Division—is a Spanish military force fighting for the Nazis against the Russians on the Eastern Front. They are skilled, cunning, and capable, acting as a scalpel on the battlefield and bringing Hitler one victory after another. But unknown to Hitler, an ancient secret order has infiltrated the ranks of the Blue Division, and are secretly working against Hitler's interests, preserving the most dangerous and powerful artifacts in a vault hidden deep in the mountains of the Sonoran Desert, in Arizona. Dan Kotler—Archaeologist and FBI Consultant—is back, along with his partner Agent Roland Denzel. Together they race to solve the riddle of the Spanish Papers and to prevent a rogue organization from using the vault of ancient treasures to succeed where Hitler's forces failed. The fate of the modern world—and that of billions of lives—is at stake. This is the eighth full-length novel in the Dan Kotler Archaeological Thrillers, and it is a sequel to the exclusive short story The Jani Sigil, available on the author's website.*

(Published in cloth as Santa Maria del Monte)

Hoping to rediscover his deeper purpose, Rijumati, an English Buddhist teacher and businessman, embarked on a journey into the unknown: a round-the-world trip by land and sea that became a kind of pilgrimage. Months - and many crises - later he returned with new reverence for ordinary people and places, a sense of veneration for nature's wonders and a profound gratitude for being human. Part travel diary and part record of a spiritual journey, these pages evoke the sacred, remote places encountered in the outer world alongside the "inner terrain" that unfolded along the way. If you have ever felt the call of the open road, longed to travel as a form of self-discovery, or just wanted to know how to stay sane whilst getting a visa stamp in Kazakhstan, then Pilgrimage to Anywhere is for you.

This collection of papers, consisting of 39 delegate contributions and three keynote articles from "New directions in telecollaborative research and practice: the second conference on telecollaboration in higher education" hosted by Trinity College Dublin in April 2016, offers a window on a rapidly evolving form of learning. Telecollaboration is used in many formats and contexts, but has as a defining feature the ability to unite learners from classrooms around the world in meaningful computer-mediated tasks and activities. This cross-disciplinary overview discusses telecollaboration in support of language and culture, teacher training, student mobility, and other disciplines and skills from a range of analytical perspectives. It will be of interest to anyone working in HE as an educator, researcher, educational designer, mobility officer, decision maker or administrator.
