To seize the Moon from foreign powers--and keep his men alive--Sergeant Ethan Stark must choose which orders to obey--and which to ignore. Written by a retired naval officer with experience in surface warfare, intelligence, and special operations.

A young fleet officer and a Marine must stand together to defend their neighbors and their colony in this return to the powerful and action-packed Genesis Fleet saga from New York Times bestselling author Jack Campbell. The recently colonized world of Glenlyon has

learned that they're stronger when they stand with other star systems than they are on their own. But after helping their neighbor Kosatka against an invasion, Glenlyon has become a target. The aggressive star systems plan to neutralize Glenlyon before striking again. An attack is launched against Glenlyon's orbital facility with forces too powerful for fleet officer Rob Geary to counter using their sole remaining destroyer, Saber. Mele Darcy's Marines must repel repeated assaults while their hacker tries to get into the enemy systems to give Saber a fighting chance. To survive, Glenlyon needs more firepower, and the only source for that is their neighbor

Kosatka or other star systems that have so far remained neutral. But Kosatka is still battling the remnants of the invasion forces on its own world, and if it sends its only remaining warship to help will be left undefended against another invasion. While Carmen Ochoa fights for the freedom of Kosatka, Lochan Nakamura must survive assassins as he tries to convince other worlds to join a seemingly hopeless struggle. As star systems founded by people seeking freedom and autonomy, will Kosatka, Glenlyon and others be able to overcome deep suspicions of surrendering any authority to others? Will the free star systems stand together in a new Alliance, or

A young fleet officer and a Marine stand together to defend their colony in the continuation of the powerful and action-packed Genesis Fleet saga from New York Times bestselling author Jack Campbell. In the three years since former fleet officer Rob Geary and former Marine Mele Darcy led improvised forces to repel attacks on the newly settled world of Glenlyon, tensions have only gotten worse. When one of Glenlyon's warships is blown apart

trying to break the blockade that has isolated the world from the rest of human-colonized space, only the destroyer Saber remains to defend it from another attack. Geary's decision to take Saber to the nearby star Kosatka to safeguard a diplomatic mission is a risky interpretation of his orders, to say the least. Kosatka has been fighting a growing threat from so-called rebels--who are actually soldiers from aggressive colonies. When a "peacekeeping force" carrying thousands of enemy soldiers arrives in Kosatka's star system, the people of that world, including Lochan Nakamura and former "Red" Carmen Ochoa, face an apparently hopeless battle to retain their freedom. It's said that the best defense is a good offense. But even if a bold and risky move succeeds, Geary and Darcy may not survive it...

HE'LL HAVE TO LEAD IT. United States military forces on the moon have overthrown the ranking officers and placed Sergeant Ethan Stark in command. Now, in addition to fighting a merciless enemy on the moon's surface, Stark must contend with the U.S. government's reaction to his mutiny. The Moon's American civilian colony has offered to assist the military with food and supplies on one condition: that Stark's troops back the Colony's plea for independence. In order to survive, civilian and soldier must learn to trust one another, as one man's cause becomes a crusade...

After finally achieving what had eluded even his grandfather Genghis Khan - the conquest of China - and inheriting the world's largest navy, Khubilai Khan set his sights on Japan. He commanded an immense armada, the largest fleet the world had ever seen and his success seemed assured. The Japanese were vastly outnumbered and facing certain death, but they prayed to their gods for survival and the very next day Khan's entire armada were destroyed by a 'divine wind', the kamikaze. The legend of the kamikaze has endured for centuries, and was revived as a Japanese national legend during the Second World War, culminating in the suicide bombers they sent to attack the Allies, but the truth has remained a mystery. Only now, after decades of painstaking research and underwater excavation can leading marine archaeologist James Delgado reveal the

but transformative treaty that laid the foundation for the international system we live under today. In 1928, the leaders of the world assembled in Paris to outlaw war. Within the year, the treaty signed that day, known as the Peace Pact, had been ratified by nearly every state in the world. War, for the first time in history, had become illegal. But within a decade of its signing, each state that had gathered in Paris to renounce war was at war.

And in the century that followed, the Peace Pact was dismissed as an act of folly and an unmistakable failure. This book argues that the Peace Pact ushered in a sustained march toward peace that lasts to this day. A "thought-provoking and comprehensively researched book" (The Wall Street Journal), The Internationalists tells the story of the Peace Pact through a fascinating and diverse array of lawyers, politicians, and intellectuals. It reveals the centuries-long

It details the brutal world of conflict the Peace Pact helped extinguish, and the subsequent era where tariffs and sanctions take the place of tanks and gunships.
