Gregory O ' Hara ' s study guide has been revised and restructured to complement the eighth edition of the text. For each chapter you will find a list of key terms and multiple-choice questions. It is recommended that students first carefully read the chapter noting important points and information, then review the key terms and return to the text to clarify any unfamiliar topics. When confident of your understanding of the key terms, proceed to the questions.

Most questions are restatements of information in the chapter. Some, however, may require students to apply the chapter information to derive the correct answer. Test your understanding of the material by trying to answer the questions. Correct answers can be found in the back of the study guide. For questions you answered incorrectly, return to the text and review the appropriate information. Through this process of review and self-testing, students can increase their understanding of complexities of the criminal investigation process. This guide
