Criminal Appeals Handbook provides practical assistance to legal representatives of clients who are seeking to challenge convictions or sentences in the Court of Appeal and beyond. This book will also be of interest to those convicted and their families by assisting them to understand the process, their rights and their options. The process of appealing to the criminal court is an area of law where the practitioner and the layman are in need of practical guidance. The changes that the criminal profession is experiencing are likely to result in an increased need for guidance in this area, especially for solicitor advocates who, unlike chambers-based counsel, have not experienced the Court of Appeal as part of their training. In order to be of maximum practical assistance, the book takes each topic in the order in which it arises in the appeal process. It begins with how to obtain advice including funding for advice and assistance legal aid, potential grounds of appeal, lodging, etc. and will follow the

process through to the conclusion of the case in the Court of Appeal. There is then a short section on Appeal to the Supreme Court followed by reference to the Criminal Case Review Commission, then finally international remedies (ECtHR and UNHRC). Criminal Appeals Handbook covers the following topics: Appeals against conviction; Appeals against sentence; Referrals to the CCRC; Pardons; Applications to the ECtHR; Application to the UN Human Rights Committee. Each chapter is divided into small subsections. The sections concerned with the law begin by stating the law, with the authority and a short explanation and conclude by citing the other relevant case law in the area. Chapters concerned with procedural aspects of the process conclude with a checklist of relevant matters. Guidance on funding each aspect of the appeal process is also included. This book brings together and restates the law that has been set out elsewhere in various cases, textbooks, guidelines and practice directions, in a practical, comprehensive and user-friendly style. Designed for distribution in conjunction with a program on Federal criminal practice and procedure.

The system of jury trial has survived, intact, for 750 years. In the light of contemporary opposition to jury trial for serious offences, this book explains the nature and scope today of jury trial, with its minor exceptions. It chronicles the origins and development of jury trial in the Anglo-Saxon world, seeking to explain and explore the principles that lie at the heart of the mode of criminal trial. It observes the distinction between the professional judge and the amateur juror or lay participant, and the value of such a mixed tribunal. Part of the book is devoted to the leading European jurisdictions, underlining their abandonment of trial by jury and its replacement with the mixed tribunal in pursuance of a political will to inject a lay element into the trial process. Democracy is not an essential element in the criminal trial. The book takes a look at the appellate system in crime, from the Criminal Appeals Act 1907 to the present day, and urges the reform of the appellate court, finding the trial decision unsatisfactory as well as unsafe. Other important issues are touched upon – judicial ethics and court-craft; perverse jury verdicts (the nullification of jury verdicts); the speciality of fraud offences, and the selection of models for various crimes, as well as suggested reforms of the waiver of a jury trial or the ability of the defendant to choose the mode of trial. The section ends with a discussion of the restricted exceptions to jury trial, where the experience of 30 years of judge-alone trials in Northern Ireland – the Diplock Courts – is discussed. Finally, the book proffers its proposal for a major change in direction – involvement of the defendant in the choice of mode of trial, and the intervention (where necessary) of the expert, not merely as a witness but as an assessor to the judiciary or as a supplemental decision-maker.

This is the first book of its kind in the Commonwealth Caribbean on Criminal Procedure. Furthermore it is written by someone who has over twenty years experience in the field: as a prosecutor for over a dozen years, as a magistrate, as a criminologist, a criminal justice consultant and finally as a law school lecturer. This book fills a lacuna in Commonwealth Caribbean jurisprudence in that there is currently

no local or regional text on criminal practice and procedure. For too long students and practitioners have had to waste time to wade through English and other text in areas that are not even relevant in order to determine their application to these jurisdictions. The book provides a useful reference to clarify what the state of the statutory law is in the Caribbean when compared to similar areas in English law and to discuss the relevant statute and common law in specific areas. It is a text useful not only for law school students but criminal justice professionals such as lawyers and police officers as well.; The content of the book includes both the statute law and common law on criminal practice and procedure in most of the relevant jurisdictions, which include Trinidad Tobago, Guyana, Barbados, Jamaica and Grenada among others. Where the law is the same or similar in some jurisdictions this is emphasised in the text so as to avoid unnecessary repetition in discussion. Attempts will be made to identify specific differences in the laws of different jurisdictions despite their being many commonalities. Recent developments in these areas are also discussed and the impact of the statutory changes in some countries is assessed
