Law students often find criminal law to be one of the most interesting, but also one of the most difficult courses. Even the fundamental elements of criminal liability can be hard to learn and even harder to apply on exams. The study of criminal law demands that students juggle a mix of common law principles, modern judicial decisions, statutory text, the Model Penal Code, and philosophies of justice to address the enduring dilemmas that comprise criminal law. In Criminal Law: Model Problems and Outstanding Answers, Kathryn Christopher and Russell Christopher deftly guide students in applying criminal law. Their interesting and accessible fact patterns explore important principles surrounding homicide and rape, attempt and conspiracy, accomplice liability and defenses, and devote special attention to difficult doctrines like impossible attempt and

felony murder. This book includes clear introductions to the major topics in criminal law, provides hypotheticals that students can expect to see on exams, and offers model answers to those hypotheticals. It then gives students the opportunity to evaluate their own work with a comprehensive self-analysis section. This book prepares students by challenging them to use the law they learn in class while also explaining the best way to express sophisticated answers on their exams. Model Problems and Outstanding Answers is an innovative new series by Oxford University Press. Featuring topical introductions and clear fact patterns, each book contains exercises designed to help students develop methods to craft organized, relevant, and thoughtful responses to exam-style questions. These exercises show the student how to think like a lawyer. By guiding students to the most appropriate ways to apply their knowledge to new facts, the series offers meaningful and significant preparation for law school exams and bar-exam essays.

And this is desired by judges! To capture this lesson: learn not only the terrible act that the law calls a crime, but also the state of mind or mens rea that D must have at the time of that terrible act. For the most part if the necessary state of

mind forms only after the act has seized to pose a threat to anyone or their property, the elements of the crime are not complete. For example, D picks up a flower pot to examine it. After he does examine it, he realizes that it is very valuable. The owner of the flower pot suddenly comes on the scene at this point and accuses D of trying to steal the flower pot. At this point the Owner is wrong.

~Why practice taking exams?~ Siegel's Essay and Multiple-Choice Questions and Answers are designed to show you how to handle law school examination questions. Siegel's have been used by thousands of law students during the past decade, and any one will tell you why -- doing practice exam questions is the key to exam success. To ace your exams, you must (1) memorize blackletter principles and rules of law for each subject, and (2) understand how those principles of law arise within a test fact pattern. One of the most common misconceptions about law school is that you must memorize each word on every page of your casebooks or outlines to do well on exams. The reality is that you can commit an entire casebook to memory and still do poorly on an exam. Reviewing hundreds of student answers has shown us that most students pretty much know the law. The ones who do best on exams understand how legal problems (issues) stem from the rules of law which they have memorized and how to communicate their analysis of these issues to the grader. Working through Siegel's essay and multiple-choice questions

and answers will give you the practice you need to achieve superior scores on your law school exams. Each essay question comes with an extensive, well-organized model answer. Every multiple-choice question comes with a detailed answer that tells you not only why the correct answer is correct, but why each of the other choices are wrong, so you can better understand why you're choosing the wrong answer. Brian Siegel is a Columbia Law School graduate and is the author of How to Succeed in Law School and numerous works pertaining to preparation for the California Bar examination. Professor Siegel has taught as a member of the adjunct faculty at Pepperdine School of Law and Whittier College School of Law, as well as for the UCLA Extension Program.

QUESTIONS and ANSWERS. Criminal law exams almost always detail a series of crimes and ask what each actor could be charged with or convicted of. The key to a high score is that the mens rea of any crime is the most important thing to know about that crime. Once your essay places this mental state proximate to the criminal act, the rest is detail and emphasis.
