**Key Cases** has been specifically written for students studying law. It is an essential revision tool to be used alone or with the partner **Key Facts** book in order to ensure a thorough knowledge of core cases for any given law topic. Understanding essential and leading cases fully is a vital part of the study of law - the format, style and explanations of **Key Cases** will ensure you have this understanding. The series is written and edited by an expert team of authors whose experience means they know exactly what is required in a revision aid. They include lecturers and barristers, who have brought their expertise and knowledge to the series to make it user-friendly and accessible. **Key features include:** essential and leading cases explained; user-friendly layout and style; cases broken down into key components by use of clear symbol system; pocket-sized and easily portable; highly-regarded authors and editors.

Law students often find criminal law to be one of the most interesting, but also one of the most difficult courses. Even the fundamental elements of criminal liability can be hard to learn and even harder to apply on exams. The study of criminal law demands that students juggle a mix of common law principles, modern judicial decisions, statutory text, the Model Penal Code, and philosophies of justice to address the enduring dilemmas that comprise criminal law. In **Criminal Law: Model Problems and Outstanding Answers**, Kathryn Christopher and Russell Christopher deftly guide students in applying criminal law. Their interesting and accessible fact patterns explore important principles surrounding homicide and rape, attempt and conspiracy, accomplice liability and defenses, and devote special attention to difficult doctrines like impossible attempt and felony murder. This book includes clear introductions to the major topics in criminal law, provides hypotheticals that students can expect to see on exams, and offers model answers to those hypotheticals. It then gives students the opportunity to evaluate their own work with a comprehensive self-analysis section. This book prepares students by challenging them to use the law they learn in class while also explaining the best way to express sophisticated answers on their exams. **Model Problems and Outstanding Answers** is an innovative new series by Oxford University Press. Featuring topical introductions and clear fact patterns, each book contains exercises designed to help students develop methods to craft organized, relevant, and thoughtful responses to exam-style questions. These exercises show the student how to think like a lawyer. By guiding students to the most appropriate ways to apply their knowledge to new facts, the series offers meaningful and significant preparation for law school exams and bar-exam essays.

Written by a former federal prosecutor and public defender, **Criminal Law and Procedure: A Courtroom Approach** introduces students to the essentials of criminal law and procedure by illuminating the legal issues justice professionals face before, during, and after a criminal trial. Through the examination of statutes, edited case excerpts, and recent constitutional interpretation of black letter law, the text bridges the gap between learning criminal procedure and applying criminal law.

Drawing from author Stephanie A. Jirard's vast experience in both the courtroom and the classroom, **Criminal Law and Procedure** gets students to think critically about real-world issues and practice applying the law in a just and meaningful way. Accessible and engaging, this text presents criminal law and procedure as an exciting opportunity to have a direct, positive impact on our communities and the criminal justice system. **Key Features:** "Making the Courtroom Connection" boxes help students apply the legal concepts they learn to real-life issues facing law enforcement, the court system, and correctional institutions today. Edited case excerpts connect criminal law and procedure with current case material on relevant topics so students can see the impact of judicial decision making. "Applying the Law to the Facts" boxes engage students' critical thinking skills and enhance their logical problem-solving abilities by providing opportunities to apply the rule of law to different scenarios. "Springboard for Discussion" prompts spark conversations and invite students to contrast the moral, ethical, and legal implications of criminal law and procedure in a larger context. Problem-solving exercises at the end of each chapter provide students with opportunities to test themselves on the material before a formal assessment. Active Learning Exercises in the Instructor's Manual enable professors to offer additional opportunities for experiential learning. Give your students the SAGE edge! SAGE edge offers a robust online environment featuring an impressive array of free tools and resources for review, study, and further exploration, keeping both instructors and students on the cutting edge of teaching and learning. This accessible text enables criminology and criminal justice students to understand and critically evaluate criminal law in the context of criminal justice and wider social issues. The book explains criminal law comprehensively, covering both general principles and specific types of criminal offences. It examines criminal law in its social context, as well as considering how it is used by the criminal justice processes and agencies which enforce it in practice. Covering all the different theoretical approaches that the student of criminology and criminal justice will need to understand, the book provides learning tools such as: -chapter objectives - making the structure of the book easy to follow for students -questions for discussion and student exercises - helping students to think critically about the ideas and concepts in each chapter, and to undertake further independent and reflective study -'definition boxes' explaining key concepts - helping students who are not familiar with specialist criminal law terminology to understand what the key basic concepts in criminal law really mean in practice -a companion Website which incorporates a range of resources for lecturers and students.
