On the English Channel Island of Guernsey, Detective Inspector Ed Moretti and his new partner, Liz Falla, investigate vicious attacks on Epicure Films. The international production company is shooting a movie based on British bad-boy author Gilbert Ensor's bestselling novel about an Italian aristocratic family at the end of the Second World War, using fortifications from the German occupation of Guernsey as locations, and the manor house belonging to the expatriate Vannonis. When vandalism escalates into murder, Moretti must resist the attractions of Ensor's glamorous American wife, Sydney, consolidate his working relationship with Falla, and establish whether the murders on Guernsey go beyond the island. Why is the Marchesa Vannoni in Guernsey? What is the

significance of the design that appears on the daggers used as murder weapons, as well as on the Vannoni family crest? And what role does the marchesas statuesque niece, Giulia, who runs the family business and is probably bisexual, really play?

Dag Pike's Cruising Under Sail

For the people in this novel, the concerns of everyday life are beginning to transmute into the extraordinary and to reveal the forces, dark and light, that truly govern their lives. So it is for Pierce Moffett, would-be historian and author, who has moved from New York to the Faraway Hills, where he seems to discover - or rediscover - a path into magic, past

and present. And so it is for Rosie Rasmussen, a single mother grappling with her mysterious uncle's legacy and her young daughter Samantha's inexplicable seizures. For Pierce's lover Rose Ryder, another path unfolds: she's drawn into a cult that promises to exorcise her demons - the same cult that Samantha's father has joined. It is the dark of the year, between Halloween and the winter solstice, and the gateway is open between the worlds of the living and the dead. A great cycle of time is ending, and Pierce and Rosie, Samantha and Rose Ryder must take sides in an age-old war that is approaching the final battle...Or is it?

This work examines patterns of everyday life in the colonial South from European contact to 1770, documenting how they evolved over time and differences across lines of geography, nationality, ethnicity, religion, race, gender, and class.

"Daemon in the Sanctuary" explores the uncanny contradiction between the phenomenological experience of home as a site of nurture and security and the empiric reality that people are far more likely to be hurt and even killed in their own homes by intimates, rather than at the hands of strangers. Moving from the syrupy tributes of t love in Plato's "Symposium" to the subject of domestic violence appears to be a giant le he author shows that embroidered romantic ideas about love prepare the initiate poor the reality of intimate connection. Poets and philosophers who lead us to believe that heaven sent can leave us craving an extreme experience. We crave an earth-shaking, lif altering intrusion on our tranquility as evidence that love is real. Thus the naive initiate easily mistake the flutter of the pulse, the quickening of the heart rate, the flush, the emotions, and the painful longing as signs of the god's gift. But these are also the sign fear! Wendy C. Hamblet, a philosopher in the phenomenological lineage, examines the tr value of phenomenological experience, through the lens of the problem of intimate viol If Husserl is right and phenomenological method provides the ground of all empirical tr then what is to be made of the fundamental contradiction between the lived experience

home as a site of nurture and security and of intimates as guardians and caretakers, an empirical fact, evident in every human society, that people are far more likely to be harmed and even killed, in their homes or in the homes of their intimates and at the hands of those charged with their care? Hamlet carefully choreographs a dance between the two opposing 'truths' to expose how the lived sense of home, colored by ideals, can tint people's expectations about intimate connection and cloud their ability to recognize the signs of intimate abuse. This book illuminates the dangers and pitfalls of unhealthy intimacy and offers a regimen for loosening the grip of a sickened love's pathological hold.

In *Learning with Information Systems* the author takes the developing world as the context and through a series of case studies develops a commonly used systems analysis methodology. He demonstrates how this methodology can evolve and adapt as new ideas become prominent. Issues of sustainability, information systems, participation in systems design and user ownership of systems are all explored. This book does not attempt to be prescriptive for all contexts nor does it focus on any particular technology. It addresses the essential questions and promises practical approaches which will ensure the avoidance of the worst forms of disaster associated with the planning of information systems in developing countries.
