This book argues that there is a new, Sinological form of orientalism at work in the world. It has shifted from a logic of 'essential difference' to one of 'sameness' or general

equivalence. "China" is now in a halting but inevitable process of becoming-the-same as the USA and the West. Orientalism is now closer to the cultural logic of capitalism, even as it shows the afterlives of colonial discourse. This shift reflects our era of increasing globalization; the migration of orientalism to area studies and the pax Americana; the liberal triumph at the "end" of history and the demonization of Maoism; an ever closer Sino-West relationship; and the overlapping of anti-communist and colonial discourses. To make the case for this re-constitution of orientalism, this work offers an inter-disciplinary analysis of the China field broadly defined. Vukovich takes on specialist work on the politics, governance, and history of the Mao and reform eras, from the Great Leap Forward to Tiananmen, 1989; the Western study of Chinese film; recent work in critical theory which turns on 'the China-reference'; and other global texts about or from China. Through extensive analysis, the production of Sinological knowledge is shown to be of a piece with Western global intellectual political culture. This work will be of great interest to scholars of Asian, postcolonial and cultural studies.

It took all of thirty seconds for two shots to bring the world of Margaret Tabaaha crashing down around her. After losing her husband in Afghanistan during the first year of Operation Enduring Freedom, her two sons were all she had left. Now they had been taken from her violently, deliberately, plunging her into a whiskey bottle and stripping away her reason for living. When Arthur Nakai receives a call from his first love, Margaret, her voice pleading for his help, it comes as he is attending a wake for one of the men he considered a brother from his days in the Marines 6th LAR Wolf Pack Battalion. Feeling a deep and responsible obligation to help her, Arthur soon finds himself involved in the multi-billion-dollar world of the oil and gas industry and coming face-to-face with an old adversary, Elias Dayton. Their paths had crossed when Arthur was a member of the Shadow Wolves, an elite tactical unit within US Customs and Border Protection. Now Dayton runs Patriot Security, a Blackwater-type firm that keeps the oil rigs, gas wells, and man camps secure from the Water Protectors, protesters pushing to stop the fracking and

poisoning of Native lands. As Arthur works through the case from his end, Navajo police chief Jake Bilagody tackles it from another angle, looking into the strained relationship between the oil company and the Navajo people, all while searching for a missing Navajo man that may have become an unwilling piece on the reservation checkerboard. But when Arthur learns the identity of the boys ' killer, he struggles to make sense of it. Because if the clues are right, he will be forced to make a decision that will haunt him for the rest of his life.

This new volume, *Health Benefits of Secondary Phytocompounds from Plant and Marine Sources*, looks at a selection of important issues and research topics on phytochemicals in plant-based therapeutics, covering bioactive compounds from both plant and marine sources. Natural products and their bioactive compounds are increasingly utilized in preventive and therapeutic medication, as pharmaceutical supplements, as well as in functional foods and nutraceuticals, all of which have potentially positive effects on health and have preventive and curative properties for various diseases and health conditions. The first section of the book, on *Bioactive Compounds from Plant Sources*, describes the concept of extraction of bioactive molecules from plant sources, both conventional and modern extraction techniques, available sources, biochemistry, structural composition, and potential biological activities. Advanced extraction techniques, such as enzyme-assisted, microwave-assisted, ultrasound-assisted, pressurized liquid extraction, and super critical extraction techniques, are described in detail.

previous works on machine tools, carriage making machinery and cooperage machinery. Factories filled with the machinery described in the previous works, from the smallest drill presses to giant planers, could not have existed without a reliable and sufficient power source. The steam engine was that source, from the start of the industrial revolution to the general availability of electric power distributed from large, central generating stations in the early 20th century. Smaller size engines, made for farms and small industries such as cheese factories, greatly reduced the manpower required and therefore the cost of the final product to the consumer. The nearly 1000 illustrations show the development of the steam engine from 1800 to 1900 in a great variety of sizes, styles, and designs. Many designs shown proved impractical and were soon discarded; other designs such as the Corliss engine were made by scores of firms for scores of years. Along with the illustrations is a brief history of the individual maker, chronicling the various engines that each made. Examines what daily life was like for ordinary people in the Soviet Union from 1917 to 1991, discussing government and law, the military, economy, class

On the English Channel Island of Guernsey, Detective Inspector Ed Moretti and his new partner, Liz Falla, investigate vicious attacks on Epicure Films. The international production company is shooting a movie based on British bad-boy author Gilbert Ensor's bestselling novel about an Italian aristocratic family at the end of the Second World War, using fortifications from the German occupation of Guernsey as locations, and the manor house belonging to the expatriate Vannonis. When vandalism escalates into murder, Moretti must resist the attractions of Ensor's glamorous American wife, Sydney, consolidate his working relationship with Falla, and establish whether the murders on Guernsey go beyond the island. Why is the Marchesa Vannoni in Guernsey? What is the significance of the design that appears on the daggers used as murder weapons, as well as on the Vannoni family crest? And what role does the marchesa's statuesque niece, Giulia, who runs the family business and is probably bisexual, really play?

"Daemon in the Sanctuary" explores the uncanny contradiction between the phenomenological experience of home as a site of nurture and security and the empirical reality that people are far more likely to be hurt and even killed in their own homes by their intimates, rather than at the hands of strangers. Moving from the syrupy tributes of the god of love in Plato's "Symposium" to the subject of domestic violence appears to be a giant leap, but the author shows that embroidered romantic ideas about love prepare the initiate poorly for the reality of intimate connection. Poets and philosophers who lead us to believe that love is heaven sent can leave us craving an extreme experience. We crave an earth-shaking,

life-altering intrusion on our tranquility as evidence that love is real. Thus the naive initiate can easily mistake the flutter of the pulse, the quickening of the heart rate, the flush, the confused emotions, and the painful longing as signs of the god's gift. But these are also the signs of fear! Wendy C. Hamblet, a philosopher in the phenomenological lineage, examines the truth value of phenomenological experience, through the lens of the problem of intimate violence. If Husserl is right and phenomenological method provides the ground of all empirical truth, then what is to be made of the fundamental contradiction between the lived experience of home as a site of nurture and security and of intimates as guardians and caretakers, and the empirical fact, evident in every human society, that people are far more likely to be harmed, and even killed, in their homes or in the homes of their intimates and at the hands of those charged with their care? Hamblet carefully choreographs a dance between the two opposing 'truths' to expose how

the lived sense of home, colored by ideals, can tint people's expectations about intimate connection and cloud their ability to recognize the signs of intimate abuse. This book illuminates the dangers and pitfalls of unhealthy intimacy and offers a regimen for loosening the grip of a sickened love's pathological hold.

The United States Civil War touched the lives of every American North and South at that time. This informative book makes extensive use of journals, newspapers, and diaries to bring together the experience of the soldier, civilian, and slave in one volume. What the soldiers ate, how they lived, and what they did for entertainment are discussed in detail. The experiences of Billy Yank and Johnny Reb are contrasted with activities on the homefront to bring this turbulent era alive for students, teachers, and Civil War buffs.
