Perfect planner for students, girls, moms, teens, and teachers. Check out our Portfolio of 2019 Planners in different sizes by clicking on "Pretty Planners 2019-2020" at the top of this page.

Where is God in the universe if anywhere? Why did God make germs? Why should we be so special? Could the universe have been different? This is a book that brings home, in no uncertain fashion, the discrepancy between the universe envisaged by the ancient sages and prophets and that of modern scientific cosmology, where the possibility of divine intervention looks less and less likely. Butchins demonstrates with clarity how the scientific method may be used, despite certain drawbacks, in an attempt to verify objective truth. It describes how the effect of the Copernican Revolution in the seventeenth century has steadily undermined the basic structure of the three great monotheistic religions of our day, Judaism, Christianity, and Islam, especially with respect to their eschatological concepts. The Eastern religions, being less anthropomorphic, are less affected. The theistic argument from design is shown to be powerful enough to have caused disagreement among present-day scientists, in spite of the strictures of Professor Dawkins. In general, the book attempts to make some sense of the structure of the universe in terms of our own consciousness; it behoves the reader to consider the

Longarm fires up Hell’s Half Acre! After U.S. Deputy Marshal Custis Long blasts a killer to hell in an epic gunfight, he seeks respite in Hell’s Half Acre. Notorious beyond its size, Fort Worth’s “Acre” features bullet-riddled corpses and scores of barely dressed women, drunks, gamblers, tinhorns, outlaws, cowboys and tradesmen. What better place for a marshal to vacation? But, sooner than later, the bad guys in Hell’s Half Acre need reminding that there’s no rest for the wicked—or for the lawman known as Longarm who blows them to blazes.

Power BI is a powerful self-service (and enterprise) business intelligence (BI) tool that was first made generally available by Microsoft in July 2015. Power BI is a complete BI package that covers the end to end BI process including data acquisition (get data), data modelling (prepare/model the data) and data visualisation (analyse the data). And there is a lot of good news about this tool including the fact that the skills needed to succeed with Power BI are fully transferable to Microsoft Excel. There are 3 learning areas required to master everything Power BI Desktop has to offer.1. The M Language - used for data acquisition2. The DAX Language - used to prepare and model data3. Visualisation and analysis - used to present data in a compelling wayPower BI is probably the first commercial software product that brings all of these areas into a single software package that is completely accessible to a business user (you don't need to be an IT pro). This book focuses on number 2 above, the DAX language (Data Analysis Expressions). Super Charge Power BI Desktop is the second book written by Matt Allington and is a sister book to his first book Learn to Write DAX (first released 2015). Super Charge Power BI Desktop uses the same learning and practice exercise framework as used in Learn to Write DAX however the entire book is written using the Power BI Desktop user interface. Unfortunately simply reading a book is normally not enough for Excel users wanting to get the most out of Power BI Desktop and to learn the DAX language - most people will also need some practice. Super Charge Power BI Desktop is different to other books - it is written in such a way to clearly explain the concepts of Power BI data modelling while at the same time giving hands-on practice to deeply engage the reader to help the new knowledge and concepts stick. The book first presents the theory, then provides worked through sample exercises demonstrating each of the concepts and finally it provides the reader with practice exercises and answers to maximize learning retention.

Chip Block, the hero of Parts, is back, and still worried about falling apart based on the things he hears. This time he’s made a list of all the strange, crazy things he’s heard people say: “I lost my head.” “My nose is running.” “I sang my heart out. . . .” It’s scary

stuff, but he has a plan for making sure he doesn’t accidentally leave any of his parts behind. A hilarious sequel to the wildly popular Parts and More Parts.

The Second Edition of this bestselling B2B marketing textbook offers the same accessible clarity of insight, combined with updated and engaging examples. Each chapter contains a detailed case study to further engage the reader with the topics examined. - Featuring updated case studies and a range of new examples. - Incorporating additional coverage of B2B branding and the B2B strategic marketing process, and issues of sustainability. - Extended coverage of Key Account Management - Online lecturer support including PowerPoint slides and key web links Drawing on their substantial experience of business-to-business marketing as practitioners, researchers and educators, the authors make this exciting and challenging area accessible to advanced undergraduate and to postgraduate students of marketing, management and business studies. Praise for the Second Edition: 'I found that the first edition of Brennan, Canning and McDowell's text was excellent for raising students' awareness and understanding of the most important concepts and phenomena associated with B2B marketing. The second edition should prove even more successful by using several new case studies and short 'snapshots' to illustrate possible solutions to common B2B marketing dilemmas, such as the design and delivery of business products and services, the selection of promotional tools and alternative routes to market. The new edition also deals clearly with complex issues such as inter-firm relationships and networks, e-B2B, logistics, supply chain management and B2B branding' - Michael Saren, Professor of Marketing, University of Leicester 'This textbook makes a unique contribution to business-to-business teaching: not only does it provide up-to-date cases and issues for discussion that reach to the heart of business-to-business marketing; it also brings in the latest academic debates and makes them both relevant and accessible to the readers. A fantastic addition to any library or course' - Dr Judy Zolkiewski, Senior Lecturer in Business-to-Business Marketing, Manchester Business School 'The advantage of the approach taken by Brennan and his colleagues is that this book manages to convey both the typical North American view of B2B marketing as the optimisation of a set of marketing mix variables, and the more emergent European view of B2B Marketing as being focused on the management of relationships between companies. This updated second edition sees the addition of a number of 'snapshots' in each chapter that bring the subject alive through the description of current examples, as well as some more expansive end-of-chapter case studies. It is truly a most welcome addition to the bookshelves of those students and faculty interested in this facet of marketing' - Peter Naudé, Professor of Marketing, Manchester Business School 'The strength of this text lies in the interconnection of academic theory with real world examples. Special attention has been given to the role that relationships play within the Business-to-business environment, linking these to key concepts such as segmentation, targeting and marketing communications, which importantly encompasses the role personal selling as relationshipmmunications building and not just order taking. With good coverage of international cultural differences this is a valuable resource for both students of marketing and sales' - Andrew Whalley, Lecturer in Business-to-Business Marketing, Royal Holloway University of London 'The text provides an authoritative, up-to-date review of organisational strategy development and 'firmographic' market segmentation. It provides a comprehensive literature review and empiric examples through a range of relevant case studies. The approach to strategy formulation, ethics and corporate social responsibility are especially strong' - Stuart Challinor, Lecturer in Marketing, Newcastle University 'This revised second edition offers an excellent contemporary view of Business-to-Business Marketing. Refreshingly, the text is packed with an eclectic mix of largely European case studies that make for extremely interesting reading. It is a 'must read' for any undergraduate or postgraduate Marketing student' - Dr Jonathan Wilson, Senior Lecturer, Ashcroft International Business School, Anglia Ruskin University, Cambridge Learning with technology doesn't happen because a specific tool "revolutionizes" education. It happens when proven teaching strategies intersect with technology tools, and yet it's not uncommon for teachers to use a tool because it's "fun" or because the developer promises it will help students learn. Learning First, Technology Second offers teachers the professional learning they need to move from arbitrary uses of technology in their classrooms to thoughtful ways of adding value to student learning. This book includes: An introduction to the Triple E Framework that helps teachers engage students in time-on-task learning, enhance learning experiences beyond traditional means and extend learning opportunities to bridge classroom learning with students' everyday lives. Effective strategies for using technology to create authentic learning experiences for their students. Case studies to guide appropriate tech integration. A lesson planning template to show teachers how to effectively frame technology choices and apply them in instruction.

This Election Update edition of Bessette/Pitney's AMERICAN GOVERNMENT AND POLITICS: DELIBERATION, DEMOCRACY AND CITIZENSHIP, is complete with 2010 election information. Like its previous edition, the text has three underlying principles: Citizenship, History and Democracy.

Via two unique chapters -- Chapter 4: American Citizenship and Chapter 5: Civic Culture -- authors Joseph Bessette and John Pitney, Jr. examine the way that civic culture shapes the country and take a close look at civic responsibility. Deliberative democracy -- the concept that political systems work best when informed citizens and public officials deliberate to identify and promote the common good -- is considered throughout the text. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Released August 2018 Download Kindle eBook FREE when you buy this book for a limited time only. The Defense Acquisition Regulations System (DARS) develops and maintains acquisition rules and guidance to facilitate the acquisition workforce as they acquire the goods and services DoD requires to ensure America’s warfighters continued worldwide success. This is Volume 1 of 3. Volume 1: SUBPART 201.1 to 225.7902-5 Volume 2: SUBPART 226.1 to 252.216-7004 Volume 3: SUBPART 252.216-7005 to end Why buy a book you can download for free? We print this book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. We look over each document carefully and replace poor quality images by going back to the original source document. We proof each document to make sure it's all there - including all changes. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the latest version from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these large documents as a service so you don't have to. The books are compact, tightly-bound, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a SDVOSB. www.usgovpub.com If you like the service we provide, please leave positive review on Amazon.com.

With advancement in modern technology human life span in 21st century has significantly improved as compared to past centuries. Indeed, the manufacturing and household wastes have also boosted in the same era, presenting a hazardous condition to the various living beings. However, through smart methodologies, it can be possible to recycle/reuse of the different types of wastes as a feedstock convenient for specialized manufacturing technologies, such as 3D printing. This means that through proper facilities the waste can be used as the raw material for the printing technologies with characteristic at par with the virgin feedstock. Furthermore, producing the feedstock using waste materials will help to reduce the cost of the processing material, productivity and eco-friendliness of this manufacturing technology. This book will cover a boarder aspect of such efforts wherein various applications and state of art solutions will be discussed in a comprehensive way. This book will be much interest for academics, research and entrepreneur who are working in the field materials science, 3D printing, and manufacturing because of its coverage of state of art solution in the field of commercial, industrial and healthcare products.

***A great Napoleonic soldier's life-two volumes complete in one special edition Armand Caulaincourt was a principal figure of the Napoleonic epoch. Born in 1773, he was serving in the army of France at the age of 15. By 1801, he had been swept up by the tide of French revolution and***

**politics, had risen in rank, been reduced to common soldier, risen again to colonel and twice suffered wounds in his thirteen campaigns. Becoming an aide to Napoleon, Caulaincourt's fortunes prospered during the imperial period and led to his becoming Duke of Vicenza in 1808. He strongly advised Napoleon not to invade Russia, but was ignored. He served during the Russian Campaign as Grand Ecuyer to the emperor being present at Borodino and upon the retreat from Moscow until Napoleon left the doomed army. Caulaincourt accompanied Napoleon on his return to France, becoming Grand Marshal of the Palace following the death of Duroc. The remainder of his career was spent engaged in diplomacy for which he had a considerable talent, particularly impressing Tsar Alexander I who subsequently used his influence to save Caulaincourt from arrest and execution following the Hundred Days. This good value Leonaur edition of the life of this outstanding man, contains the complete text of both volumes as they were originally published. Leonaur editions are newly typeset and are not facsimiles; each title is available in softcover and hardback with dustjacket; our hardbacks are cloth bound and feature gold foil lettering on their spines and fabric head and tail bands.**

Each Coursebook is accompanied by access to MARKETINGONLINE (www.marketingonline.co.uk), a unique online learning resource designed specifically for CIM students which can be accessed at any time.**

**This book explores the significance of silence within and beyond pedagogical contexts. Silence is a complex and multidimensional phenomenon for everyday life: since schools mirror society, it is also significant in education. While silence can be experienced in a multitude of different ways, the author reflects on whether silence itself can bear a message: is there an aspect of dialogue in silence, or is it a language all of its own? This book examines a variety of silences essential for education, examining such topics as silence and aspects of power, silent students, and the relationship between listening and silence. Drawing on a range of empirical data, the author elucidates the significance of silence in pedagogical contexts.**

From the bestselling author of Eat That Frog!, a motivational guide to using the Psychology of Achievement to banish negative thoughts and behaviors and unlock your full potential for success. Letting go of negative thoughts is one of the most important steps to living a successful, fulfilling life, but also often the most difficult. In this practical, research-based guide, bestselling authors Brian Tracy and psychotherapist Christina Stein present their "Psychology of Achievement" program to help you identify and overcome detrimental patterns and ideas preventing you from achieving your goals or feeling happy and satisfied in your life. Whether this negativity stems from a past relationship that ended badly, a childhood trauma, a business or career failure, or general insecurity, Tracy and Stein help you recognize how conscious--and more oftentimes unconscious--negativity affects your personality, your outlook and your decisions. Along the way, they show you how to regain control of your thoughts, feelings, and actions, turn negatives into positives, and learn to accept unexpected life changes without falling back into old negative patterns. Essential reading for anyone feeling stuck, BELIEVE IT TO ACHIEVE IT offers an important roadmap to conquer negativity and embrace the power of positive thinking to live a happy, successful life.

After all, the purpose is to land a nicely paid job in a globally recognized firm. This book will help you reach that goal!Most people can learn how to code but not just anyone can code smartly. This book is going to help you to think out of the box and take on problems with a completely different perspective. The tricks mentioned will make you invaluable to any software development firm.Even if you don't have any skills this book help you step by step to achieve your goal in a few days you will be able to learn it.scroll up and buy now

Meaningful Making 2 is a second volume of projects and strategies from the Columbia University FabLearn Fellows. This diverse group of leading K-12 educators teach in Fab Labs, makerspaces, classrooms, libraries, community centers, and museums--all with the goal of making learning more meaningful for every child. A learning revolution is in the making around the world. Enthusiastic educators are using the new tools and technology of the maker movement to give children authentic learning experiences beyond textbooks and tests. The FabLearn Fellows work at the forefront of this movement in all corners of the globe. In this book, the FabLearn Fellows share all new inspirational lesson ideas, strategies, and recommended projects across a broad range of age levels. Illustrated with color photos of real student work, the Fellows take you on a tour of the future of learning, where children make sense of the world by making things that matter to them and their communities. To read this book is to rediscover learning as it could be and should be--a joyous, mindful exploration of the world, where the ultimate discovery is the potential of every child.

It ' s easy to learn parts of JavaScript, but much harder to learn it completely—or even sufficiently—whether you ' re new to the language or have used it for years. With the "You Don ' t Know JS" book series, you ' ll get a more complete understanding of JavaScript, including trickier parts of the language that many experienced JavaScript programmers simply avoid. The series ' first book, Up & Going, provides the necessary background for those of you with limited programming experience. By learning the basic building blocks of programming, as well as JavaScript ' s core mechanisms, you ' ll be prepared to dive into the other, more in-depth books in the series—and be well on your way toward true JavaScript. With this book you will: Learn the essential programming building blocks, including operators, types, variables, conditionals, loops, and functions Become familiar with JavaScript's core mechanisms such as values, function closures, this, and prototypes Get an overview of other books in the series—and learn why it ' s important to understand all parts of JavaScript
