

Dead Ice

Darkly comic and clearly tragic, these seventeen short stories of strange fiction will take you to the twisted landscapes of shadowed imagination. Dead animals purposely thrown in a neighbor's yard; a shiftless hitchhiker stalked by the "Ice Cube Killer;" two scientists who discover a new color and an even greater mystery; a writer doomed to tell stories that no one will ever read. Sometimes haunting, sometimes hopeful, these unique tales run the human soul through the ever-changing faces of death and futility. And who knows what else?

Dead Ice

The Book of the Dead is an ancient Egyptian funerary text, used from the beginning of the New Kingdom (around 1550 BCE) to around 50 BCE. This Reading & Answer Book is for the student of hieroglyphs who wishes to extend their translation skills using real ancient Egyptian texts. The pages contain the hieroglyphic text, phonetic translation, literal and full translations and should be used with the accompanying Student Work Book which contains only the hieroglyphic text and phonetic translation. Most of the text is taken from the Papyrus of Any: The papyrus of Anwy (Any) was found at Thebes and was purchased by the British Museum in 1888. It measures 78 feet by 1 foot 3 inches and is the longest papyrus of the Theban Period. It is made up of 6 individual parts. It contains a number of chapters of the Book of the Dead, mostly accompanied by illustrations. The titles of the chapters in the papyrus are written in red. In the following texts a phonetic (grey) translation of the hieroglyphs is provided to aid word identification in the Student Work Book and in the Reading & Answer Book, an English transliteration and a full literal translation is given for reading and study. This work is taken from the Papyrus of Anwy and other sources to complete the utterances of the Book of the Dead.

Following the death of his only relative, Carl moves from his native Gibraltar to Birmingham. Without his grandmother, Carl finally has to start making his own choices in life now in his mid-twenties. For someone with Asperger's, however, this does not come easy. In Birmingham, a group of friends take Carl under their wing and help him experience life as he had not experienced it before. After a few months, Carl's mental health starts to deteriorate and his friends try to help him. Will they succeed? With its 18 chapters, all written in a different style, A Dead Man's Ice Cream explores how society treats its vulnerable members and it raises the question of who we are and what we need to do to feel fulfilled. Through his own Joycean journey around Birmingham, Carl shows us the importance of considering the footprints that those we have met have left in our lives.

Since its publication in 1842, *Dead Souls* has been celebrated as a supremely realistic portrait provincial Russian life. Chichikov, combs the back country wheeling and dealing for "dead souls" (deceased serfs who still represent money to anyone sharp enough to trade in them), and we introduced to a Dickensian cast of peasants, landowners, and conniving petty officials, few of can resist the seductive illogic of Chichikov's proposition. Although the novel ends in mid-sent is usually regarded as complete in the extant form.
