Arthur Miller is regarded as one of the most important playwrights of the twentieth century, and his work continues to be widely performed and studied around the world. This updated Companion includes Miller's work since the publication of the first edition in 1997 - the plays Mr Peters' Connections, Resurrection Blues, and Finishing the Picture - and key productions of his plays since his death in 2005. The chapter on Miller and the cinema has been completely revised to include new films, and demonstrates that Miller's work remains an important source for filmmakers. In addition to detailed analyses of plays including Death of a Salesman and The Crucible, Miller's work is also placed within the context of the social and political climate of the time. The volume closes with a bibliographic essay which reviews the key studies of Miller and also contains a detailed chronology of the work of this influential dramatist.

Whereas recent research has demonstrated how disinterested social validation may skew valuation in meritocratic domains, interested promotion may be at least as important a factor. As suggested by research on reputational entrepreneurship, a producer's death shifts promotion opportunities in two respects. First, it prevents the producer (or "salesman") from engaging in promotional activity. Second, it also mobilizes others (the "sales force") to step up their promotional activity on behalf of the deceased. Analysis of the impact made by the premature death of 720 elite life scientists on the citation trajectories of their articles indicates that death results in a long-lasting, positive increase in citation rates, relative to the trajectories for equivalent articles by counterfactual, still-living scientists. This effect seems due largely to the memorialization efforts made by the sales force as compared to recognition efforts on behalf of the still-living scientists, and is strongest for articles that had received relatively little attention prior to the death, as well as those authored by stars who died at a relatively young age. The upshot is clear evidence of informational inefficiency, which derives from the challenges of absorbing the massive volume of scientific knowledge produced. Scientists' identities thus play an important role in determining scientific valuations, despite ostensible norms that enjoin the scientific community to divorce the researcher's identity from her work.

The Pulitzer Prize-winning tragedy of a salesman’s deferred American dream A Penguin Classic Since it was first performed in 1949, Arthur Miller's Pulitzer Prize-winning drama about the tragic shortcomings of an American dreamer has been recognized as a milestone of the theater. Willy Loman, the protagonist of Death of a Salesman, has spent his life following the American way, living out his belief in salesmanship as a way to reinvent himself. But somehow the riches and respect he covets have eluded him. At age 63, he searches for the moment his life took a wrong turn, the moment of betrayal that undermined his relationship with his wife and destroyed his relationship with Biff, the son in whom he invested his faith. Willy lives in a fragile world of elaborate excuses and daydreams, conflating past and present in a desperate attempt to make sense of himself and of a world that once promised so much. This Penguin Classics edition features an introduction by Christopher W. E. Bigsby. The United States has been epitomized as a land of opportunity, where hard work and skill can bring personal success and economic well-being. The American Dream has captured the imagination of people from all walks of life, and to many, it represents the heart and soul of the country. But there is another, darker side to the bargain that America strikes with its people -- it is the price we pay for our individual pursuit of the American Dream. That price can be found in the economic hardship present in the lives of millions of Americans. In Chasing the American Dream, leading social scientists Mark Robert Rank, Thomas A. Hirschl, and Kirk A. Foster provide a new and innovative look into a curious dynamic -- the tension between the promise of economic opportunities and rewards and the amount of turmoil that Americans encounter in their quest for those rewards. The authors explore questions such as: -What percentage of Americans achieve affluence, and how much income mobility do we actually have? -Are most Americans able to own a home, and at what age? -How is it that nearly 80 percent of us will experience significant economic insecurity at some point between ages 25 and 60? -How can access to the American Dream be increased? Combining personal interviews with dozens of Americans and a longitudinal study covering 40 years of income data, the authors tell the story of the American Dream and reveal a number of surprises. The risk of economic vulnerability has increased substantially over the past four decades, and the American Dream is becoming harder to reach and harder to keep. Yet for most Americans, the Dream lies not in wealth, but in economic security, pursuing one's passions, and looking toward the future. Chasing the American Dream provides us with a new understanding into the dynamics that shape our fortunes and a deeper insight into the importance of the American Dream for the future of the country.

Publisher Description

The days of brand activation are nearing an end. The future lies in customer activation. The concept of ‘brand activation’ has become an overused buzzword in the sales and marketing world. The term is becoming rapidly outdated, used to describe anything from mass media advertising and outdoor events to digital applications and in-store point of sale. Drawing on research, industry insights and real-life examples, the authors of Brand Activation: Implementing the Real Drivers of Sales and Profit argue that there is an urgent need to re-think the role and definition of activation in the modern marketplace. What is its link to actual purchases and, more importantly, how can it be measured? In an environment of unrelenting retail disruption in which the gap between brands and consumers is continually widening how do marketers identify – and measure – those factors that create the all important ‘moment of sale’? This is, after all, where real value begins for both the brand and the consumer. In their previous book, Death of the Salesman, the authors argued that the sales function is ripe for reinvention. In this book they take a deeper look at the sales process and how consumers are navigating the purchase journey in the current environment.

In 1983, Arthur Miller was invited to Beijing to direct the first Chinese production of Death of a Salesman. This book is the diary he kept during of that unique and eccentric production. The diary portrays the challenges that faced Miller as a Liberal American playwright and director working in Communist China. Miller's major concern was how to overcome the linguistic and cultural difficulties of trying to communicate his artistic vision to a Chinese cast. The result is not merely an interesting account of a highly unusual production, but it also reveals the process any production may go through, and is an insight into the mind of a considerate director. \* Long-overdue reissue of a seminal theatre book by the grent American dramatist.

Arthur Miller's Death of a Salesman, the third volume in the Dialogue series, covers six major and controversial topics dealing with Miller's classic play. The topics include feminism and the role of women in the drama, the American Dream, business and capitalism, the significance of technology, the legacy that Willy leaves to Biff, and Miller’s use of symbolism. The authors of the essays include prominent Arthur Miller scholars such as Terry Otten and the late Steven Centola as well as young, emerging scholars. Some of the essays, particularly the ones written by the emerging scholars, tend to employ literary theory while the ones by the established scholars tend to illustrate the strengths of traditional criticism by interpreting the text closely. It is fascinating to see how scholars at different stages of their academic careers approach a given topic from distinct perspectives and sometimes diverse methodologies. The essays offer insightful and provocative readings of Death of a Salesman in a collection that will prove quite useful to scholars and students of Miller's most famous play.

The film adaptation of Margaret Laurence's The Stone Angel, starring acclaimed actresses Ellen Burstyn and Ellen Page, and introducing Christine Horne, opens in theatres May 9, 2008. This special fortieth-anniversary edition of Margaret Laurence's most celebrated novel will introduce readers again to one of the most memorable characters in Canadian fiction. Hagar Shipley is stubborn, querulous, self-reliant, and, at ninety, with her life nearly behind her, she makes a bold last step towards freedom and independence. As her story unfolds, we are drawn into her past. We meet Hagar as a young girl growing up in a black prairie town; as the wife of a virile but unsuccessful farmer with whom her marriage was stormy; as a mother who dominates her younger son; and, finally, as an old woman isolated by an uncompromising pride and by the stern virtues she has inherited from her pioneer ancestors. Vivid, evocative, moving, The Stone Angel celebrates the triumph of the spirit, and reveals Margaret Laurence at the height of her powers as a writer of extraordinary craft and profound insight into the workings of the human heart.

Over six days during the spring break of 1936 at the University of Michigan, a twenty-year-old college sophomore wrote his first play, NO VILLAIN. His aim was to win the prestigious Avery Hopwood award and, more importantly, the \$250 prize he needed in order to return to college the following year. Miller won the award, but the play would remain buried until it received its world premiere nearly eighty years after it was written. NO VILLAIN tells the story of a garment industry strike that sets a son against his factory proprietor father. Here, Miller explores the Marxist theory that would see him hauled before the House Un-American Activities Committee years later. This remarkable debut play gives us a tantalising glimpse of Miller's early life,

the seeding of his political values, and the beginning of his extraordinary career.

I think all of us want that, and it gets more poignant as we get more anonymous in this world. This quote, said by the author of Death of a Salesman Arthur Miller in 1984, provides just a slight insight into the father-son relationship of Willy and Biff Loman which I will analyze in the present term paper in depth. Moreover, I will have a closer look at the Loman family and how they interact. Firstly, the author will be briefly introduced and the background and the reasons for writing the play are pointed out. Furthermore I will give an overview of the drama and its structure and formal aspects. After this my attention will be directed on the Loman family and I will initially focus on its members and characterize them. Then I will analyze how the relationship between Willy and Biff has developed and why it fails during the play. Finally, I will give a conclusion which will sum up the most important findings which I figured out during my analysis.

The Stone Angel

In this entertaining and informative book, Walter Friedman chronicles the remarkable metamorphosis of the American salesman from itinerant amateur to trained expert. From the mid-nineteenth century to the eve of World War II, the development of sales management transformed an economy populated by peddlers and canvassers to one driven by professional salesmen and executives. From book agents flogging Ulysses S. Grant's memoirs to John H. Patterson's famous pyramid strategy at National Cash Register to the determined efforts by Ford and Chevrolet to craft surefire sales pitches for their dealers, selling evolved from an art to a science. "Salesmanship" as a term and a concept arose around the turn of the century, paralleling the new science of mass production. Managers assembled professional forces of neat responsible salesmen who were presented as hardworking pillars of society, no longer the butt of endless "traveling salesmen" jokes. People became prospects; their homes became territories. As an NCR representative said, the modern salesman "let the light of reason into dark places." The study of selling itself became an industry, producing academic disciplines devoted to marketing, consumer behavior, and industrial psychology. At Carnegie Mellon's Bureau of Salesmanship Research, Walter Dill Scott studied the characteristics of successful salesmen and ways to motivate consumers to buy. Full of engaging portraits and illuminating insights, Birth of a Salesman is a singular contribution that offers a clear understanding of the transformation of salesmanship in modern America. Reviews of this book: The history Friedman weaves is engrossing and the book hits stride with entertaining chapters on Mark Twain's marketing of the memoirs of Ulysses S. Grant (apparently Twain was as talented a businessman as a writer) and on the shift from the drummer--the middleman between wholesalers and regional shopkeepers--to the department store...In Birth of a Salesman, Friedman has crafted a history of an 'inherently unlikely process' with depth, affection and intelligent analysis. --Carlo Wolff, Boston Globe I very much enjoyed reading this book. It is well written, well argued, and thoroughly researched. Salesmen, Friedman argues, helped distribute the products of America's increasingly bountiful manufacturing industries, invented new forms of managerial hierarchies, investigated the psychology of desire, and were in the vanguard of America's transformation from a producer to a consumer society. He powerfully shows that the rise of modern business practices and the emergence of a particularly American culture of consumption can only be fully understood if we examine the history of selling. --Sven Beckert, author of The Monied Metropolis Walter Friedman's Birth of a Salesman: The Transformation of Selling in America is an important book. The modern industrial economy, created in the United States and Europe between the 1880s and the 1930s, required the integration of large-scale production and marketing. The evolution of mass production is a well-known story, but Friedman is the first to fill in the crucial marketing side of that industrial revolution. --Alfred D. Chandler, Jr., author of The Visible Hand and Scale and Scope With wit and verve, Walter Friedman gives us a cast of memorable characters who turned salesmanship from ballyhoo to behaviorism, from silliness to science. Informed by prodigious research, Birth of a Salesman also clarifies the birth of modern marketing--from an angle that humanizes its subject through wry, ironic, but serious analysis. This is a pioneering work on a subject crucial to American social, cultural, and business history. --Thomas K. McCraw, author of Creating Modern Capitalism

THE STORY: Angela, a hard-bitten call-girl, is visited by Tom, a private detective of long acquaintance, who is convinced that she can supply information about a murder case which, some years earlier, resulted in a miscarriage of justice. As Tom plays on their former closeness, trying to draw out the facts he seeks, Angela withdraws behind a schizophrenic screen of multiple personalities ranging from a brazen creature named Leontyne, to a shrinking violet called Emily, to a haughty English-woman named Renata. Doggedly persistent, Tom does, in the end, break through the fears which have driven Angela to hide the truth within herself. With chilling intensity she pours through a tale of duplicity and corruption and recounts how an innocent man ended up paying for the crimes of others. As the play ends Tom offers to drive Angela to her next assignation-relieved that his quest has ended but, at the same time, disturbed by the knowledge that his worst fears have been borne out.

Arthur Miller's penultimate play, Resurrection Blues, is a darkly comic satirical allegory that poses the question: What would happen if Christ were to appear in the world today? In an unidentified Latin American country, General Felix Barriaux has captured an elusive revolutionary leader. The rebel, known by various names, is rumored to have performed miracles throughout the countryside. The General plans to crucify the mysterious man, and the exclusive television rights to the twenty-four-hour reality-TV event have been sold to an American network for \$25 million. An allegory that asserts the interconnectedness of our actions and each person's culpability in world events, Resurrection Blues is a comedic and tragic satire of precarious morals in our media-saturated age.
