"Directory of members, constitution and by-laws of the Society of American military engineers. 1935" inserted in v. 27.

The growing concern over the number of accidental firearm shootings, especially those involving children, prompted passage of the initial handgun safety law which went into effect in 1994. The stated intent of the California Legislature in enacting the current FSC law is for persons who obtain firearms to have a basic familiarity with those firearms, including, but not limited to, the safe handling and storage of those firearms. The statutory authority for this program is contained in Penal Code sections 26840 and 31610 through 31700. These statutes mandate DOJ to develop, implement and maintain the FSC Program. Pursuant to Penal Code section 26840, a firearms dealer cannot deliver a firearm unless the person receiving the firearm presents a valid FSC, which is obtained by passing a written test on firearm safety. Prior to taking delivery of a firearm from a licensed firearms dealer, the purchaser/recipient must also successfully perform a safe handling demonstration with that firearm..

A separate chapter is devoted to a discussion of cases in which family members, friends, lovers, and relatives have shot and killed each other with easily obtained guns, many of them over trivial arguments. Several multiple murders, mothers killing all of their children and then themselves, are also reported. The peculiar American attraction for guns, the 'firearms mystique, ' is analyzed. Popular sports (e.g., skeet, target shooting, and hunting), the legends of and fascination with the American West and its emphasis on gun handling ability, and psychological analyses of the attraction to firearms are discussed. The positions of various organizations against gun controls (such as the National Rifle Association --
