There are many reasons to be curious about the way people learn, and the past several decades have seen an explosion of research that has important implications for individual learning, schooling, workforce training, and policy. In 2000, *How People Learn: Brain, Mind, Experience, and School: Expanded Edition* was published and its influence has been wide and deep. The

report summarized insights on the nature of learning in school-aged children; described principles for the design of effective learning environments; and provided examples of how that could be implemented in the classroom. Since then, researchers have continued to investigate the nature of learning and have generated new findings related to the neurological processes involved in learning, individual and cultural variability related to learning, and educational technologies. In addition to expanding scientific understanding of the mechanisms of learning and

within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country's frustrating lack of progress when it comes to providing every child with a quality education. The problem wasn't one of the usual scapegoats: lazy teachers, shoddy facilities, lack of accountability. It was something no one was talking about: the elementary school curriculum's intense focus on decontextualized reading comprehension "skills" at the expense of actual knowledge. In the tradition of Dale Russakoff's The Prize and Dana Goldstein's

resources to use when implementing Cognitive Coaching principles and values in your own school setting. Working toward the goals of making school better places where more students succeed and satisfaction in learning and teaching prevail, Costa and Garmston let you know about their own learning, and how new research and practice can support individuals and schools in reaching higher, more satisfying, and more holistic performance. Organized into four sections, the book clearly and effectively presents these concepts: the meanings of cognitive coaching; the basics of teaching excellence; strategies and tactics

for engaging in coaching; and how to integrate Cognitive Coaching throughout the system.

In this insightful, action-oriented book that goes way beyond the usual "business development tips for lawyers," Michelle Cotter Richards, a former Biglaw litigator and in-house counsel, draws on her years of experience coaching Biglaw attorneys to teach readers an entirely new approach to Biglaw business development. Originate contains powerful strategies to help Biglaw attorneys develop business right away, even in the face of the ever-changing market for Biglaw legal services. Originate analyzes the systemic evolution of Biglaw

and its future direction, leading to the inescapable conclusion that an entirely new understanding of Biglaw business development is in order. Integrating concepts from experts such as Daniel Pink, Dr. Larry Richard and Susan Swaim Daicoff, lawyers who implement the practical, research-driven concepts in Originate will be poised for success no matter what the future holds for Biglaw. A must read for Biglaw rainmakers and future rainmakers everywhere. Building on Michael Graves's bestseller, The Vocabulary Book, this new resource offers a comprehensive plan for vocabulary instruction that K-12 teachers can

use with English language learners. It is broad enough to include instruction for students who are just beginning to build their English vocabularies, as well as for students whose English vocabularies are approaching those of native speakers. The authors describe a four-pronged program that follows these key components: providing rich and varied language experiences; teaching individual words; teaching word learning strategies; and fostering word consciousness. This user-friendly book integrates up-to-date research on best practices into each chapter and includes vignettes, classroom activities, sample lessons, a list of

children's literature, and more.

Intuition is a birthright, but many have lost touch with it. If embraced and followed, intuition can be an accurate force that permeates all facets of life. Shakti teaches readers how to tap into their inner knowledge and use it to enhance their lives and attain their goals. Chapters explore the role of intuition in health, creativity, work, and prosperity. Exercises based on Shakti's workshops and seminars help readers listen to their inner guide but also evaluate the worthiness of such knowledge in the context of the real world. Chess Workbook for Children is a fun, comprehensive workbook and instruction book for children (and adults) who are new to chess or who are in the beginning stages of learning to play the royal game. Two hundred problems with a comprehensive answer key are given at two skill levels: Basset Hound (beginner) and Chess Detective (intermediate). The book has large print and is easy to read and understand. Acclaimed church leader, blogger,

founder and chief strategic officer of The Unstuck Group, Tony Morgan unpacks the lifecycle of a typical church, identifies characteristics of each phase, and provides practical next steps a church can take to move towards sustained health. Think about your church for a moment. Is it growing? Is it diminishing? Is it somewhere in between? Acclaimed church leader, blogger, and founder and chief strategic officer of The Unstuck Group, Tony Morgan has identified the seven stages of a church's lifecycle that range from the hopeful and optimistic days of launch, to the stagnating last stages of life support. Regardless of the stage in which you find your church, it carries with it the world's greatest mission—to "go and make disciples of all the nations . . ."
