In 2016, author Nicki Ells is fulfilling her calling. She 's teaching English at a public high school. But halfway through the academic year, Ells feels a change within herself, a change in her body that signals something is wrong. In *The Pink Lady Gets a Wake Up Call*, she tells her story through a series of previously published blog posts, some of which are pure academia, some conjecture, and some are just whimsical as Ells takes a break from worrisome thinking and fighting with her body. Beginning in 2016, she shares her

thoughts on a variety of topics including the education system, the health system, her trials, and her tribulations. Ells also reveals the research she conducted about her disease and how it all works and doesn't work, and she talks about support groups and the pharmaceutical game. This memoir chronicles the journey of this public-school, creative writing teacher as she takes an in-class, daily activity of teaching teens and turns it into a personal log of symptoms and experiences. Ells narrates how the pain, inability to cope, and misdiagnosis', which skewed any normalcy, were now in charge.

The Pink Lady Gets a Wake up Call

September 11th, 2001 was America's wake up call to terrorism. Unfortunately, we hit the snooze alarm. The next wave of terror attacks won't be nation shaking, cataclysmic events. We're ready for that. Instead, they'll be minor, localized nightmares. Mere pinpricks to our country, but catastrophic to the small towns that find themselves in the crosshairs. Worst of all, there's nothing we can do to stop it from happening - or is there? A gritty novel extrapolated from real world events, this fast-paced, riveting thriller will leave you alarmed, angry, and awestruck at America's

unpreparedness for the next wave of terror attacks. Some might refer to it as death by a thousand cuts, but the counterterrorism community calls it Small Ball. Small Ball is an indictment of our woefully wrongheaded security infrastructure and a testament to the resilience, resourcefulness, and integrity of the average American. You'll wonder why it hasn't happened already. Perhaps it's happening right now...

For sales agent Frank Parry, taking abuse is just part of his daily life. Working for one of the biggest claims management companies in Britain, he spends his days cold-calling strangers to convince them to check whether they were ever mis-sold Payment Protection Insurance (PPI). He is tasked with making sure that at least thirty customers per month send back their paperwork, in order to earn a bonus on top of his basic salary. It also documents the daily abuse, and even

The company also faces a huge scandal when one of Frank's colleagues takes offence to the abuse he receives from somebody over the phone and takes matters into his own hands in a violent manner. Frank's recently published diaries show exactly what goes on behind the scenes at one of those PPI companies that the public hate getting calls from. They also show anyone who reads them whether they themselves may be eligible to make a claim before the deadline in August 2019.
