Ranging from Emily Dickinson to Mahmoud Darwish and from Sylvia Plath to Wendell Berry, he brings together diverse and provocative works as a kind of counter to the old, modernist maxim "light writes white"--no agony, no art. Fairbairn began to develop his own system of hand-to-hand combat, initially referring to it as 'Defendu'. It was designed to be simple to learn and to provide effective results. Fairbairn published his book, 'Defendu', in 1926 (reprinted as 'Scientific Self Defence' in 1931), illustrating this method and it is here that the term 'Defendu' first appeared. This**

This system was built on Defendu, but modified for military applications, rather than police and riot control. The original Defendu was oriented**

Based on the conviction that only translators who write poetry themselves can properly re-create the celebrated and timeless tragedies of Aeschylus, Sophocles, and Euripides, the Greek Tragedy in New Translations series offers new translations that go beyond the literal meaning of the Greek in order to evoke the poetry of the originals. The volume brings together four major works by one of the great classical dramatists: Prometheus Bound, translated by James Scully and C. These four tragedies were originally available as single volumes.
