Theology, Ecclesiastical History, Namibia Evangelical Theological Seminary, language: English, abstract: The Protestant missionary movements have for some time come under severe criticism. Writing from a Namibian perspective, Brendell and Prill demonstrate that the overall picture painted by the critics is often harsh. Most Protestant missionaries were driven by compassion for people who needed to hear the Christian Gospel. Of course, that does not mean that they were faultless. Their zeal for the mission of the Church did not prevent missionaries from making

Unique to Anglicanism is the Book of Common Prayer, the collection of services that worshippers in most Anglican churches used for centuries. An Anglican Prayer Book sets out a contemporary version, which when used with the knowledge of the original volumes is profitable for the laity to incorporate into their daily lives.

studies argues that most theology has been formed in dominant cultures, laden intrinsically with imperializing structures. An essential task facing theology is thus to "decolonize" the mind and free Christianity from colonizing bias and structures. Here, in this truly groundbreaking study, highly respected feminist theologian Kwok Pui-lan offers the first full-length theological treatment of what it means to do postcolonial feminist theology. She explains her methodological basis and explores several specific topics, including Christology, pluralism, and creation.

Noting that the ways of interpreting the Bible now practiced in the West are patriarchal and oppressive of those in other parts of the world, Dube offers an alternative interpretation that attends to and respects needs of women in the two-thirds world. In a provocative and insightful reading of the book of Matthew, she shows us how to read the Bible as decolonizing rather than imperialist literature.

Over the next ten years, we had the very real opportunity to stop it. Obviously, we failed. Nathaniel Rich's groundbreaking account of that failure - and how tantalizingly close we came to signing binding treaties that would have saved us all before the fossil fuels industry and politicians committed to anti-scientific denialism - is already a journalistic blockbuster, a full issue of the New York Times Magazine that has earned favorable comparisons to Rachel Carson's *Silent Spring* and John Hersey's *Hiroshima*. Rich has become an instant, in-demand expert and speaker. A major movie deal is already in place. It is the story, perhaps, that can shift the conversation. In the book *Losing Earth*, Rich is able to provide more of

the context for what did - and didn't - happen in the 1980s and, more important, is able to carry the story fully into the present day and wrestle with what those past failures mean for us in 2019. It is not just an agonizing revelation of historical missed opportunities, but a clear-eyed and eloquent assessment of how we got to now, and what we can and must do before it's truly too late. In this book, one of the world's leading scholars on the history of religion in Africa shows how Christianity has been transformed as it has been adopted by black Africans, from the introduction of Christianity in the seventeenth century to the present. Richard Gray finds that Africans have not meekly accepted monolithic Western practices and interpretations but
