In The Present Work, An Attempt Has Been Made To Give An Accurate Picture Of Tipu Sultan By Disengaging His Personality From Masses Of Fictions And Distortions Which Have Gathered Round Him. As Practically The Whole Of Tipu'S Life Was Taken Up With Fighting, The Author Has Devoted Considerable Space To Campaigns And Battles. However, He Has Not Ignored Other Aspects Of His Career. He Has Paid Sufficient Attention To The Causes And Results Of Wars, While Tipu'S Relation With The English, The French, The Marathas And The Ottoman Sultan Have Been Fully Discussed. The Last Three Chapters Of The Book Have Been Devoted To A Description Of The Sultan'S Government And Reforms And Religious Policy, His Efforts At Industrialisation And State Socialism, His Character, His Failures And Achievements. This Pioneering Study Will Enable The Reader To Appraise The Career And Character Of This Extraordinary Man. Its Scholarly Value Is Enhanced By Professor Hasan'S Extensive Use Of English, French, Persian, And Urdu.

**A venerable tiger, old and toothless now, looks back over his life from cubhood and early days roaming wild in the Indian jungle. Trapped into a miserable circus career as 'Raja the magnificent', he is then sold into films (co-starring with a beefy Tarzan in a leopard skin) until, finding the human world too brutish and bewildering, he makes a dramatic bid for freedom. R.K. Narayan's story combines Hindu mysticism with ripe Malgudi comedy, viewing human absurdities through the eyes of a wild animal and revealing how, quite unexpectedly, Raja finds sweet companionship and peace.**

**In order to do business effectively in contemporary South Asia, it is necessary to understand the culture, the ethos, and the region's new trading communities. In tracing the modern-day evolution of business communities in India, this book uses social history to systematically document and understand India's new entrepreneurial groups.**

**This book brings into focus the innovative methods of learning in many Indian schools. It sheds light on schools that make the learning process fun for the teacher as well as the taught, in contrast to the whirl of examination-oriented learning in mainstream schools. The researched data on alternative schools in the country offer the reader an array of institutions all over the country, where efforts are being made to move away from traditional and mainstream learning. It includes exclusive articles by leading practitioners in the field, who**

offer an insight into the ground reality when a certain philosophy is applied to a school, and also experiential accounts of how such alternative practices mould the learner, teacher and impact the parent as well. The book also consists of a directory of alternative schools in India, including many schools that are tucked away in remote corners of the country. Interestingly, the common thread binding these 'alternative schools' is concern for the welfare of the child by teachers who see their work as much more than a job.

*Whose News?: The Media and Women's Issues (1994) quickly became an international classic which was widely used. The decade that has passed since its publication has witnessed dramatic developments in the media environment across the world. As a consequence, the coverage of gender issues in the media today has to be viewed and evaluated against the background of globalization in general and media globalization in particular. This is just what this new and updated edition of the pioneering book does. In particular, it addresses the set of questions that has arisen in recent years concerning women's access to the media and to information as users, their participation in media and communication structures, and their portrayal and perspectives in media content. This new edition retains its unique gender analysis of media content, and situates, views and evaluates the coverage of gender issues in the media within the context of recent trends in both the economy and the media industry. Employing a novel and nuanced methodology, it offers a distinctive view of the history of both the media and the women's movement in India as the 20th century gave way to the 21st. It also examines current media coverage of women's issues such as dowry-related violence, rape, sex selection, Muslim women's legal rights, and the practice of sati.*

*Tamil Cinema in the Twenty-First Century explores the current state of Tamil cinema, one of India's largest film industries. Since its inception a century ago, Tamil cinema has undergone major transformations, and today it stands as a foremost cultural institution that profoundly shapes Tamil culture and identity. This book investigates the structural, ideological, and societal cleavages that continue to be reproduced, new ideas, modes of representation and narratives that are being created, and the impact of new technologies on Tamil cinema. It advances a critical interdisciplinary approach that challenges the narratives of Tamil cinema to reveal the social forces at work.*

*Over the last 50 years there has been a growing appreciation of the important role that farmers play in the development and conservation of crop genetic diversity, and the contribution of that diversity to agro-ecosystem resilience and food security. This book examines policies that aim to increase the share of benefits that farmers receive when others use the crop varieties that they have developed and managed, i.e., 'farmers varieties'. In so doing, the book addresses two fundamental questions. The first question is 'how do farmer management practices - along with other factors such as environment and the breeding systems of plants - affect the evolution and maintenance of discrete farmers' varieties?' The second question is 'how can policies that depend on being able to identify discrete plant varieties accommodate the agricultural realities associated with the generation, use and maintenance of farmers' varieties?' This focus on discreteness is topical because there are no fixed, internationally recognized taxonomic or legal definitions of farmers' varieties. And that presents a challenge when developing policies that involve making specific, discrete farmers' varieties the subject of legal rights or privileges. The book includes contributions*

*from a wide range of experts including agronomists, anthropologists, geneticists, biologists, plant breeders, lawyers, development practitioners, activists and farmers. It includes case studies from Asia, Africa, Latin America and Europe where, in response to a diversity of contributing factors, there have been efforts to develop policies that provide incentives or rewards to farmers as stewards of farmers' varieties in ways that are sensitive to the cultural, taxonomic and legal complexities involved. The book situates these initiatives in the context of the evolving discourse and definition of 'farmers' rights', presenting insights for future policy initiatives.*

According to Gandhiji, ideal society is a Stateless democracy, the state of enlightened anarchy where social life has become so perfect that it is self-regulated. "In the ideal state, there is no political power because there is no State." Gandhiji believed that perfect realization of an ideal is impossible. However "the ideal is like Euclid's line that is one without breadth but no one has so far been able to draw it and never will. Village Swaraj as conceived by Gandhiji is thus a genuine and virile democracy which offers a potent cure for many of the political ills that mark the present political systems. Such a pattern of decentralized genuine democracy will have a message for the whole of humanity.

*The Periplus of the Erythraean Sea is a short work of uncertain date and unknown authorship, written in very difficult Greek. It is concerned with the coasts of the Red Sea and -Indian Ocean and may be described as a combined trade directory and Admiralty Handbook, giving sailing directions and information about navigational hazards, harbours, imports and exports. It is of great value for the study of the commerce of the Roman Empire and the early history of East Africa, South Arabia and India. This is a new print-on-demand hardback edition of the volume first published in 1980.*

*Building on data that is more comprehensive and reliable than ever before, covering 234 countries and territories, the Global Forest Resources Assessment 2015 shows encouraging signs of improved forest management and a global slowdown in deforestation.
