This book combines more than 45 years of the author’s riding experiences with data collected over five years of systematic observation and extensive ethnographic interviews with over 200 male and female riders. Much has been written about hardcore bikers, but there has been little scholarly research on the much larger segment of the population more aptly called motorcycle enthusiasts. This book focuses on them—the hard working plumbers, truck drivers, and other blue collar workers as well as the white collar executives, doctors and other professionals who are mostly married, have mortgages, pay their bills, obey the law, and on weekends and holidays participate in a favorite pastime, riding motorcycles.

Provides an overview of motocross, which is the sport of racing motorcycles on rough, hilly dirt tracks, including technique, equipment, guidelines, resources, and safety concerns.

Results-Based Leadership

Sport Bike Racing

Key Skills and Advanced Training for All Off-Road, Motocross, and Dual-Sport Riders

Motorcycles are made for speed—but some get there louder and faster than others! You'll need your toughest gear to ride the turbo-charged MTT Turbine Superbike Y2K—perhaps the most powerful (and expensive) road bike ever. Blow past speeds of 200 mph (320 km/h) with the Kawasaki Ninja of the Night. Ride the world’s fastest production motorcycle, the Suzuki Hayabusa, and hit 188 to 194 mph (303 to 312 km/h). Hang on tight as detailed illustrations take you on the road, around the track, and across salt flats on these powerful bikes. Get the latest facts on how they reach those extreme speeds—and stay on the road.

A landmark book, **Results-Based Leadership** challenges the conventional wisdom surrounding leadership. Authors Ulrich, Zenger, and Smallwood--world-renowned experts in human resources and training--argue that it is not enough to gauge leaders by personal traits such as character, style, and values. Rather, effective leaders know how to connect these leadership attributes with results. **Results-Based Leadership** shows executives how to deliver results in four specific areas: results for employees, for the organization, for its customers, and for its investors. The authors provide action-oriented guidelines that readers can follow to develop and hone their own results-based leadership skills. By shifting our focus to the connection between the attributes and the results of leadership, this perceptive new guide fundamentally improves our understanding of effective leadership. **Results-Based Leadership** brings a refreshing clarity and directness to the leadership discussion, providing a hands-on program to help executives succeed with their leadership challenges.

Car fanatics get revved up with these turbo-charged books. Each comprehensive guide to popular vehicles is loaded with details, amazing photos, and the latest stats. From dragsters to monster trucks, there is something for every automotive enthusiast!
