They intend to conquer the universe using economic power. The power of the free market!

Dr. Who has had a massive following for years, and this popularity should boost sales with the addition of the first six titles in the phenomenal Dr. Who series. Don't miss this opportunity to stock up on one of the favorite science fiction adventure series ever created.

A thrilling, all-new adventure featuring the Doctor as played by Matt Smith in the spectacular hit series from BBC Television "The Sunlight Worlds Offer You A Life of Comfort and Plenty. Apply now at the Dalek Foundation." Sunlight 349 is one of countless Dalek Foundation worlds, planets created to house billions suffering from economic hardship. The Doctor arrives at Sunlight 349, suspicious of

any world where the Daleks are apparently a force for good - and determined to find out the truth. The Doctor knows they have a far more sinister plan - but how can he convince those who have lived under the benevolence of the Daleks for a generation? But convince them he must, and soon. For on another Foundation planet, archaeologists have unearthed the most dangerous technology in the universe...

Beware the hands that heal. The Doctor and Peri land on the planet Necros to visit the funerary home Tranquil Repose - where the dead are interred and the near-dead placed in suspended animation until such time as their conditions can be cured. But the Great Healer of Tranquil Repose is far from benign. Under his command, Daleks guard the catacombs where sickening experiments are conducted on human bodies. The new life he offers the dying comes at a terrible cost - and the Doctor and Peri are being lured into a trap that will change them forever. At last, the only classic-era Doctor Who adventure never to be novelised is here, and by the author of the original script, Eric Saward.
