This two-volume primary-source collection provides a broad range of voices and perspectives from our nation's past, while emphasizing the important social, political, and economic themes of most U.S. history survey courses. Edited by one of the authors of The American Promise and designed to complement the textbook, Reading the American Past offers a rich selection of over 125 documents and editorial apparatus to aid students' understanding of the sources.

This book clarifies the idea of critical thinking by investigating the 'critical' practices of academics across a range of disciplines. Drawing on key theorists - Wittgenstein, Geertz, Williams, Halliday - and using a 'textographic' approach, the book explores how the concept of critical thinking is understood by academics and also how it is constructed discursively in the texts and practices they employ in their teaching. Critical thinking is one of the most widely discussed concepts in debates on university learning. For many, the idea of teaching students to be critical thinkers characterizes more than anything else the overriding purpose of 'higher education'. But whilst there is general agreement about its importance as an educational ideal, there is surprisingly little agreement about what the concept means exactly. Also at issue is how and what students need to be taught in order to be properly critical in their field. This searching monograph seeks answers to these important questions.

A History of Western Society continues to capture the attention of AP European history students because it recreates the lives of ordinary people and makes history memorable. Brought to you by the highly regarded editors at Bedford/St. Martins, every element of the text has been rethought, reconsidered, and revised to bring the original vision to a new generation of students. The tenth edition continues to tie social history to the broad sweep of politics and culture, heightening its attention to daily life, and strengthening the treatment of European exploration. With a dynamic new design, new special features on visual evidence, and a robust companion reader, A History of Western Society helps AP students master the concepts and content of European history.

While both committed to providing effective programs and services that help students succeed in college and beyond, and aware of the increasing demands from internal and external stakeholders that every dollar spent benefits students and contributes to the mission of higher education, student affairs professionals have little guidance about how to create and sustain the culture of assessment to achieve these goals. This book provides the practical directions for embedding assessment in the fabric of practice. The authors in this volume - all experienced senior level leaders who have established programs that exemplify a culture of evidence-based practice - identify and explicate ten tenets of practice for leading and implementing a culture of change committed to student learning and sound assessment methods. Grounded in assessment literature, the tenets are:

1. Understand the Why of Assessment
2. Commit to Student Learning as a Primary Focus
3. Lay the Foundation for a Sustainable Assessment Culture
4. Develop Strategies to Engage Staff in a Commitment to Assessment
5. Provide Recognition and Accountability Structures
6. Reaffirm the Importance of Assessment to Anchor Cultural Change
7. Develop Sound Assessment Plans
8. Connect Assessment Plans to Divisional and Institutional Strategic Plans
9. Determine the Appropriate Methods for Assessing Programs and Services
10. Market Data to Leverage Buy-in, and Promote Utility to the Campus Community

The basic premise of this book is that the Senior Student Affairs Officer must be the primary leader and spokesperson for this effort, both in setting the tone and keeping all members of the team accountable for implementation and the commitment of their units. The book opens with an overview of history and purpose and language of assessment, relates it to the educational mission of student affairs, and outlines the four elements necessary to start a culture of assessment: commitment, connection, consistency, and communication. In addressing the role of the Senior Student Affairs Officer, subsequent chapters address the process of gaining "buy-in" and the importance understanding the unique culture of the institution; provide guidance on creating an environment of trust, accountability, and transparency; and describe how to lay the foundations to sustainability through consistency and strong interpersonal and collaborative relationships among the staff. The book concludes by summarizing the essential assessment practices and tools that senior leaders need to be aware of - providing examples of assessment cycle templates that can be applied across departments - and outlining how to establish a strategic plan aligned with institutional mission that is linear, predictable and consistent, and aligned with institutional mission; as well as communicating results both externally and internally for the purposes of improvement.

In *Assignments across the Curriculum*, Dan Melzer analyzes the rhetorical features and genres of writing assignments through the writing-to-learn and writing-in-the-disciplines perspectives. Presenting the results of his study of 2,101 writing assignments from undergraduate courses in the natural sciences, social sciences, business, and humanities in 100 postsecondary institutions in the United States, *Assignments across the Curriculum* is unique in its cross-institutional breadth and its focus on writing assignments. The results provide a panoramic view of college writing in the United States. Melzer's framework begins with the rhetorical situations of the assignments—the purposes and audiences—and broadens to include the assignments' genres and discourse community contexts. Among his conclusions is that courses connected to a writing-across-the-curriculum (WAC) initiative ask students to write more often, in a greater variety of genres, and for a greater variety of purposes and audiences than non-WAC courses do, making a compelling case for the influence of the WAC movement. Melzer's work also reveals patterns in the rhetorical situations, genres, and discourse communities of college writing in the United States. These larger patterns are of interest to WAC practitioners working with faculty across disciplines, to writing center coordinators and tutors working with students who bring assignments from a variety of fields, to composition program administrators, to first-year writing instructors interested in preparing students for college writing, and to high school teachers attempting to bridge the gap between high school and college writing.

"One of the most unprecedented developments in the history of the scientific study of psychology in postcolonial Africa is the recent welcome inclusion of the study of African psychology within the psychology degree curriculum of some foreword-

thinking African universities. In each of those universities (such as the University of KwaZulu-Natal in South Africa, and Kenyatta University in Nairobi, Kenya, East Africa), there now exists a gradual entrenchment of the African-derived psychology in the curricular provisions of their psychology degree programmes. With particular reference to the University of KwaZulu-Natal in South Africa, for instance, a number of African psychology-based modules have recently been developed, approved and incorporated into the list of modules for psychology degree students at the undergraduate, Honours, and the Master's degree levels (see University of KwaZulu-Natal, College of Humanities' Handbook, 2018)'--

Ways of the World is the ideal textbook for your redesigned AP® World history classroom. Like the AP® course it supports, Ways of the World focuses on significant historical trends, themes, and developments in world history. Authors Robert Strayer and Eric Nelson provide a thoughtful and insightful synthesis that helps students see the big picture. Each chapter then culminates with collections of primary sources organized around a particular theme, issue, or question, allowing students to consider the evidence the way historians do.

Barron's brand new AP Q&A World History features 600 questions and explanations covering all AP World History concepts. Practice includes all exam question types so students can apply the skills they learned in class, and answer explanations help students review and understand the content. AP Q&A World History doesn't just explain why an answer is correct—students will learn the rationale behind why each other answer choice is incorrect, helping them understand the key concepts and how to apply them on exam day. Practice questions and comprehensive explanations help students review history from the foundations of civilization circa 600 B.C.E. to world cultures of the twenty-first century. AP Q&A World History is specifically created to help students hone critical thinking skills and practice with all AP-style question types, such as multiple-choice, numeric response, and short and long free-response questions. Looking for in-depth content review along with realistic practice tests? Try Barron's AP World History with Online Tests for even more prep.

This dissertation is made up of four essays that address major problems in the policy areas of education and immigration in Sweden and an introductory essay that offers an overarching analysis of the results of the four individual studies. The first three essays analyze the significant decline in quality of elementary and secondary education since the late 1990s from three different angles: the decline in teachers' working conditions and status (Essay I), the deficiencies in the regulatory framework of Sweden's system of school competition between public and for-profit providers of education (Essay II), and the prescribed view of knowledge in Swedish schools (Essay III). The fourth essay examines the policy of refugee placement in recent years. It shows that peripheral and rural municipalities with declining populations and high unemployment have received greater numbers of refugees per capita than growing urban municipalities offering better employment opportunities. The introductory essay focuses on the common thread in the four essays, namely, policy convergence between the Left and the Right. In fact, the empirical evidence in the individual studies suggests that the Social Democrats and the Moderate Party have a propensity for policy convergence in the two areas analyzed, but that it is unintentional and hard to detect for the actors themselves. This observation runs counter to what is typically assumed in political science, namely, that the Left and the Right are polar opposites with widely divergent policy agendas. Avhandlingen består av fyra artiklar om svensk utbildnings- och migrationspolitik och en kappa som syntetiserar de enskilda studierna. Den första artikeln undersöker hur svenska lärares yrkesstolthet och inneboende drivkrafter att göra ett bra jobb har påverkats av vänster- och

högerpolitikernas syn på läraryrket. Den andra artikeln undersöker hur marknadsutsättningen av det svenska skolväsendet har påverkat kunskapsnivån bland svenska elever. Den tredje artikeln bygger vidare på de två första studierna och undersöker synen på ämneskunskaper i skolans styrdokument och dess påverkan både på läraryrkets ställning och elevers kunskaper. Den fjärde artikeln undersöker det geografiska mönstret i kommunplaceringen av nyanlända flyktingar i Sverige. Avhandlingens övergripande bidrag är att den, genom att studera två olika politikområden, visar att vänstern och högern i Sverige har en omedveten benägenhet att konvergera politiskt. Trots att man anser sig stå på olika sidor i politiken visar empirin i de fyra studierna att vänster- och högerpolitiker i främst Socialdemokraterna och Moderaterna har dragit åt samma håll i både utbildnings- och migrationspolitiken. Den första artikeln visar att politiker både till vänster och till höger ofta har varit skeptiska till lärarnas inflytande i skolan och sett det som ett hinder för elevernas frihet och lärande, vilket har bidragit till att underminera lärarnas professionella etos. Den andra artikeln visar att både vänster- och högerpolitiker underlättat att utforma regelverket för skolkonkurrensen så att privata utförare styrdes mot att erbjuda en undervisning av hög kvalitet. I stället uppstod en konkurrens med höga betyg. Den tredje artikeln visar liksom skolans konstruktivistiska kunskapsyn, som både har reducerat lärarnas yrkesroll till förmån för elevernas eget arbete och förstärkt utvecklingen mot en konkurrens med betyg, har stöttats av såväl vänster- som högerpolitiker. Den fjärde artikeln visar att nyanlända flyktingar främst har tagits emot av mindre kommuner i avfolkningsbygder präglade av hög arbetslöshet. I artikeln framhålls att denna kontraproduktiva policy har sin grund i både vänster- och högerpolitikernas välmenade idéer om flyktingmottagandet som först lanserades på nationell nivå. Då statsvetare i såväl Sverige som internationellt ofta har antagit att vänster och höger utgör politikens motpoler erbjuder avhandlingens huvudresultat ett nytt perspektiv. Sannolikt kan det generaliseras till ytterligare politikområden. Kappan ger även en nydanande förklaring till politisk konvergens som går ut på att vänstern och högern, åtminstone i en svensk kontext, delar en moraluppfattning som främst betonar individens frihet och rättigheter medan andra, balanserande moraliska värden tonas ned. En implikation av detta är att det skapar utrymme för nya partier som positionerar sig i den nisch som därigenom uppstår.

Innovative Feminist Pedagogies in Action

Preparing students to become informed, critical consumers of research, this accessible text builds essential skills for understanding research reports, evaluating the implications for evidence-based practice, and communicating findings to different audiences. It demystifies qualitative, quantitative, and mixed methods designs and provides step-by-step procedures for judging the strengths and limitations of any study. Excerpts from real research reports are used as opportunities to develop methodological knowledge and practice analytic skills. Based on sound pedagogic principles, the text is structured for diverse learning styles: visual learners (concept maps, icons), active learners (building-block exercises and templates for writing), and story learners (examples, reading guides, and reflections). Pedagogical Features *Rubrics, checklists of steps to take, and reading guides that walk students through analyzing different types of research articles. *Journal abstracts with questions that home in on key aspects of a study. *Exemplars of each type of study, with descriptions of methodological and design choices. *End-of-chapter skills-building exercises that lead up to writing a research review essay. *Chapter appendices featuring sample responses to the exercises.

Ways of the World is the textbook preferred by AP World History teachers and students across North America. Like the AP course it supports, Ways of the World focuses on significant historical trends, themes, and developments in world history. Author Robert W. Strayer provides a thoughtful and insightful synthesis that helps students see the big picture. Each chapter then culminates with collections of primary sources (written and visual) organized around a particular theme, issue, or question, thus allowing students to consider the evidence the way historians do. This second edition includes materials and supplements written specifically for the AP course, including an AP Skills Primer and AP Chapter Wrap-Ups, an Annotated Teacher ' s Edition, and more.

Meeting the Challenge

Ways of the World with Sources for AP®

This collection demonstrates how feminist pedagogy can be implemented in a variety of institutional and disciplinary settings. Unlike most of the current literature, it provides a vast array of examples of feminist pedagogy in action. It suggests practical ways of creating classroom environments open to feminist and anti-racist teaching, way feminists at universities can intervene in community programs and how to apply feminist pedagogy to new challenges such as distance education, cyberspace, fiscal constraints, and the changing political climate. Meeting the Challenge also looks to other nations for examples of how to successfully implement feminist pedagogy.

This book constitutes the refereed proceedings of the 7th International Conference on Document Analysis Systems, DAS 2006, held in Nelson, New Zealand, in February 2006. The 33 revised full papers and 22 poster papers presented were carefully reviewed and selected from 78 submissions. The papers are organized in topical sections on digital libraries, image processing, handwriting, document structure and format, tables, language and script identification, systems and performance evaluation, and retrieval and segmentation.
