From the award-winning author of *Amatka* and *Jagannath*—a fantastical tour de force about friendship, interdimensional theater, and a magical place where no one ages, except the young. In a world just parallel to ours exists a mystical realm known only as the Gardens. It's a place where feasts never end, games of croquet have devastating consequences, and teenagers are punished for growing up. For a select group of masters, it's a decadent paradise where time stands still. But for those who serve them, it's a slow torture where their lives can be ended in a blink. In a bid to escape before their youth betrays them, Dora and Thistle—best friends and confidants—set out on a remarkable journey through time and space. Traveling between their world and ours, they hunt for the one person who can grant them freedom. Along the way, they encounter a mysterious traveler who trades in favors and never forgets debts, a crossroads at the center of the universe, our own world on the brink of war, and a traveling troupe of actors with the ability to unlock the fabric of reality. Endlessly inventive, *The Memory Theater* takes us to a wondrous place where destiny has yet to be written, life is a performance, and magic can erupt at any moment. It is Karin Tidbeck's most engrossing and irresistible tale yet.

*Includes pictures *Includes excerpts of contemporary accounts about the dodo *Includes a bibliography for further reading "The Dodo never had a chance. He seems to have been invented for the sole purpose of becoming extinct and that was all he was good for." - Willy Cuppy, 19th century American humorist and literary critic At one point or another, just about everyone has heard of the dodo bird, which is almost universally described as a cuddly, whimsical creature renowned for its alleged stupidity. This prehistoric avian had been known for hundreds of years before it was made popular around the world in Lewis Carroll's 1865 classic, Alice's Adventures in Wonderland. The character, the Dodo, satirized the author himself - according to pop culture lore, Carroll, whose real name was Charles Lutwidge Dodgson, regarded the dodo as his spirit animal due to his alleged stutter, which led to him often presenting himself as "Do-do-dodgson." Carroll was also a frequent patron of the Oxford Museum of Natural History, which served as a fount of inspiration for his memorable anthropomorphic characters. The 1951 Disney animation, Alice in Wonderland, breathed new life into Carroll's Dodo, portrayed as a plump, peach-faced creature with a

bulbous pink beak, clad in a purple waistcoat, a powdered wig, and a pipe dangling out of his beak. Like its real-life counterparts, the Dodo was depicted as a flightless bird who crossed paths with Alice, bobbing along inside of a bottle upon the open sea. Owing to its inability to fly, the Dodo uses an upside-down toucan as his boat, and the Dodo is being maneuvered by a green hawk furiously flapping its wings, serving as the boat's propeller. The dimwitted, carefree dodo also made various appearances in film and TV shows over the years, such as Yoyo Dodo in the 1938 black-and-white animation *Porky in Wackyland*, the short-lived stop-motion animated series *Rocky and the Dodos*, and the 2002 animated film *Ice Age*, which depicts the dodos as a silly, clumsy troop of birds who fail to guard three small watermelons. Indeed, the dodo's presence in literature, picture books, music, video games, and general pop culture has been so prevalent that it has secured its own entry on *TV Tropes*, where it is infamously immortalized as the "Dumb Dodo." This only scratches the surface of the string of misconceptions that has plagued the delightfully peculiar bird for centuries. Along with its stereotypical depictions in literature, film, and other mediums of pop culture, a number of idioms playing on the bird's alleged idiocy, as well as the supposed role it played in its own extinction, have become irreversibly cemented in the English lexicon. "Dodo" and the even less tactful "dumb dodo" are slang terms directed at dense individuals, an explicit reference to the bird's sluggish reflexes and supposedly pint-sized brain. One may have also come across a business venture or a fad that has "gone the

way of the dodo" or is "as dead as a dodo," meaning that the venture has become defunct, obsolete, or a thing of the past, most likely due to reckless and half-baked business practices. The phrase "deaf to reality like a dodo" has also been thrown around quite frequently in recent years, used to describe individuals who are overly trusting and blissfully ignorant of unpalatable facts and ugly truths. But were the dodo birds truly as simple-minded as they are often portrayed? And what were the actual factors behind the zany avian's extinction? The Dodo: The History and Legacy of the Extinct Flightless Bird looks at the origins of the bird, human contact with it, and how the species went extinct. Along with pictures depicting important people, places, and events, you will learn about the dodo like never before.

When a professor who believes that the dodo is not yet extinct finally finds one in New York City, he does everything he can think of to capture the bird until he learns why Dodo should be free.

with a functional and detailed table of contents. This ebook is a collection of series of rather morbid and grotesques tales, depicting family murders and related by the murderers. The tales include: "My Favorite Murder"...a man on trial for his mother's murder also relates his uncle's "Oil Of Dog"...ghastly tale of death (not for those against the murder of animals) "An Imperfect Conflagration"...tale of a father/son burglar team's disagreement "The Hypnotist"...a young man experiments with his hypnotic powers
Ambrose Gwinnett Bierce (1842 – 1914?) was an American satirist, critic, poet, editor and journalist. Bierce became a prolific author of short stories often humorous and sometimes bitter or macabre. His dark, sardonic views and vehemence as a critic earned him the nickname, "Bitter Bierce".

"Boston, present day. A young man from a shadowy government agency shows up at an Ivy League university and offers an eminent professor a lot of money to study a trove of recently discovered old documents. The only condition: the professor must sign an NDA that would preclude him from publishing his findings, should they be significant. The professor refuses and tells the young man to get lost. On his way out, he bumps into a young woman--a low-on-the-totem-pole adjunct faculty member who's more than happy to sign the NDA and earn a few bucks. The documents, if authentic, are earth-shaking: they prove that magic actually existed and was practiced

for much of human history. But its effectiveness began to wane around the time of the scientific revolution and the Age of Enlightenment; it stopped working altogether in 1851 at the time of the Great Exhibition at the Crystal Palace in London. It's not entirely clear why, but it appears that something about the modern world "jams" the "frequencies" used by magic. And so the shadowy government agency--the Department of Diachronic Operations, or DODO--gets cracking on its real mission: to develop a device that is shielded from whatever it is that interferes with magic and thus send Diachronic Operatives back in time to meddle with history"-

A New York Times Bestseller From bestselling author Neal Stephenson and critically acclaimed historical and contemporary commercial novelist Nicole Galland comes a captivating and complex near-future thriller combining history, science, magic, mystery, intrigue, and adventure that questions the very foundations of the modern world. When Melisande Stokes, an expert in linguistics and languages, accidently meets military intelligence operator Tristan Lyons in a hallway at Harvard University, it is the beginning of a chain of events that will alter their lives and human history itself. The young man from a shadowy government entity approaches Mel, a low-level faculty member, with an incredible offer. The only condition: she must sign a nondisclosure agreement in return for the rather large sum of money. Tristan needs Mel to translate some very old documents, which, if authentic, are earth-shattering. They prove that magic actually existed and was practiced for centuries. But the arrival of the scientific revolution and the Age of Enlightenment weakened its power and endangered its practitioners. Magic stopped

working altogether in 1851, at the time of the Great Exhibition at London's Crystal Palace—the world's fair celebrating the rise of industrial technology and commerce.

Something about the modern world "jams" the "frequencies" used by magic, and it's up to Tristan to find out why. And so the Department of Diachronic

Operations—D.O.D.O. —gets cracking on its real mission: to develop a device that can bring magic back, and send Diachronic Operatives back in time to keep it alive . . .

and meddle with a little history at the same time. But while Tristan and his expanding operation master the science and build the technology, they overlook the mercurial—and treacherous—nature of the human heart.

Written with the genius, complexity, and innovation that characterize all of Neal Stephenson's work and steeped with the down-to-earth warmth and humor of Nicole Galland's storytelling style, this exciting and vividly realized work of science fiction will make you believe in the impossible, and take you to places—and times—beyond imagining.

A chapter-book series spin-o from Inspector Flytrap by New York Times bestselling author Tom Angleberger! This hilarious chapter book mystery series stars Didi Dodo, the daring spy-in-training, and Koko Dodo, Didi's reluctant sidekick. In Robo-Dodo Rumble, Koko Dodo's

cookie shop is facing some stiff competition from an evil robotic dodo (a Robo Dodo). The Robo Dodo is selling its cookies for only a penny! Why? To put Koko's shop out of business! And if that weren't bad enough, a giant sea monster starts destroying the town! But don't worry. Didi Dodo has a daring plan. From the mind of the inimitable Tom Angleberger, this wacky caper promises high-speed chases and big belly laughs. The book takes place in the same world as Inspector Flytrap but does not require knowledge of the previous series.

Desmond Pucket is back, and this time he has a posse. Desmond has been waiting his whole life for this day. It is the sixth-grade field trip to Crab Shell Pier, home to the world's most awesomely fantastic ride, and Desmond has one goal: convince Tina Schimsky to ride it with him. But once inside the amusement park, Desmond finds that executing his master plan will be no simple feat. Accompanied by his best friend Ricky, Desmond must outwit both the tyrannical Mr. Needles and his nefarious mortal enemy Scott Selzer, along with anyone---or anything---else in the way. The race is on to reach Mountain Full of Monsters and win the girl of his dreams . . . Can Desmond do it?

world. This fast-paced sequel to the New York Times bestselling near-future adventure *The Rise and Fall of D.O.D.O.* picks up where the original left off, as Tristan Lyons, Mel Stokes, and their fellow outcasts from the Department of Diachronic Operations (D.O.D.O.) fight to stop the powerful Irish witch Gr á inne from using time travel to reverse the evolution of all modern technology. Chief amongst Gr á inne ' s plots: to encrypt cataclysmic spells into Shakespeare ' s "cursed" play, *Macbeth*. When her fellow rogue agents fall victim to Gr á inne ' s schemes, Melisande Stokes is forced to send Tristan ' s untested, wayward sister Robin back in time to 1606 London, where Edmund Tilney, the king ' s Master of Revels, controls all staged performances in London. And now Gr á inne controls Tilney. While Robin poses as an apprentice in Shakespeare ' s Globe Theatre, Mel travels to the ancient Roman Empire and, with the help of double-agent Chira in Renaissance Florence, untangles the knotted threads of history while the diabolical Gr á inne jumps from timeline to timeline, always staying frustratingly one stop ahead—or is it behind? Historical objects disappear, cities literally rise and fall, and nothing less than the fate of humanity is at stake. As Gr á inne sows chaos across time and space, the ragtag team of ex-D.O.D.O. agents must fix the past—in order to save the future. Critically acclaimed author Nicole Galland brings her deep knowledge of history and signature wit to this gripping romantic adventure.
