This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

This discounted ebundle includes: Fleet of Worlds, Juggler of Worlds, Destroyer of Worlds, Betrayer of Worlds, Fate of Worlds “ Great story telling is still alive in science fiction because of Larry Niven, and his finest work is the Ringworld series. ” --Orson Scott Card Two hundred years before the discovery of the Ringworld, humans discover the history of their ancestors and revolt against the

Puppeteers—a race they’ve held as saviors and been serving for generations. At the Publisher’s request, this title is being sold without Digital Rights Management Software (DRM) applied.

The galaxy is cold. And heartless. Fresh from rescuing the daughter of a powerful aristocrat, Commander Joe Pikeman sets his sights on the next mission: saving humanity from enslavement.

After the mysterious discovery of an alien mech inside a comet, Darkstream Security has finally completed its own design. They assign Chief Gabriel Roach with the task of whittling down hundreds of bright young recruits to form a team of elite mech pilots, which he will command. Their mission: protect human colonies from the almighty Quatro.

Terms of Enlistment

When a chain reaction of supernovae explosions at the core of the galaxy unleashes a deadly wave of radiation that will sterilize the entire galaxy, the Citizens—accompanied by Kirsten Quinn-Kovacs, a descendant of human survivors rescued by the Citizens from a dying starship—flee into the unknown, in a novel set in the Known Space universe. Reprint.

This star system is burning down. Seaman Jake Price’s “Deniers” at Darkstream have utterly failed the people of the Snee System, so he’s taking matters into his own hands. If he can’t stop Darkstream in time, the system will burn, and the inferno will consume everyone in it.

The year is 2108, and the North American Commonwealth is bursting at the seams. For welfare rats like Andrew Grayson, there are only two ways out of the crime-ridden and filthy welfare tenements: You can hope to win the lottery and draw a ticket on a colony ship setting off-world, or you can join the service. Andrew chooses to enlist in the armed forces. But as he starts a career of supposed privilege, he soon learns that good food and decent health care come at a steep price.

Earth is under attack. 20 years after the American-Chinese war devastated our worlds, we finally have a tense peace. But legendary American Admiral Jack Mattis, on his inspection tour of the first joint American-Chinese space station, finds himself in the middle of the unthinkable: an alien invasion. Their ships are powerful, their weapons overwhelming. And in the confusion, our tentative peace with the Chinese is shaken to the core. Taking command of his old battleship, The Midway, Admiral Mattis races the alien fleet to Earth, desperate to prevent the utter destruction of humanity’s home. And in Earth’s darkest hour, Mattis must unify and lead old adversaries to the fight against a common enemy, one that doesn’t care about flags or borders. An enemy driven by malevolent hate and a thirst for blood. An enemy that cares for one thing only: Earth’s destruction.

Labeled drawings provide a wide range of everyday terms from the telephone to human anatomy in English, French, German, Italian, and Spanish.

This is the first book to focus directly on gender in Amazonia for nearly thirty years. Research on gender and sexual identity has become central to social science during that time, but studies have concentrated on other places and people, leaving the gendered experiences of Indigenous Amazonians relatively unexplored. McCallum explores little-known aspects of the day-to-day lives of Amazonian

the lives of the Cashinahua people, the book provides fascinating insights into conception, pregnancy and birth; naming rituals and initiation ceremonies; concepts of space and time; community and leadership; exchange and production practices; and the philosophy of daily life itself. Through this prism it shows that in fact gender is not merely an aspect of Amazonian social life, but its central axis

personal identity, but has implications for the whole of community life and social organization. The author illustrates how gender is continually created and maintained, and how social forms emerge from the practices of gendered persons in interaction. Throughout their lives, people are ‘being made’ in this part of the Amazon, and the whole of social organization is predicated on this conception.

that link gender distinctions with the body, systems of exchange and politics. In so doing, she develops a specific theoretical model of gender and sociality that reshapes our understanding of Amazonian social processes. Building on the key works from past decades, this book challenges and extends current understandings of gender, society and the indigenous people of Amazonia.

Nothing brings change like war. A surge of new tech. New weapons. New tactics. To lead a crew to victory, a captain must understand change. He must understand command and that it is a test.

When Van Tudor returns to his childhood home, he inherits more than the family farm. His grandfather used to tell him fantastic stories of spacemen and monsters, princesses and galactic knights. Little did Van realize, the old man’s tales were more than fiction. They were real. Hidden beneath the old barn, Van’s legacy is waiting: a starship, not of this world. With his combat AI, an android bird

wider galaxy. He soon finds that space is far busier and more dangerous than he could have ever conceived. Destiny is calling. His grandfather’s legacy awaits. Embark on the adventure of a lifetime with USA Today Bestselling Author J.N. Chaney and Terry Maggert in this brand new science fiction series. If you’re a fan of found spaceships and galactic quests for glory, this might just be the story

This book provides a comprehensive understanding of the various dimensions of India’s international positioning and foreign relations. Already a dominant player in South Asian politics, India has gained a strong footing in the international pecking order with the signing

of the Indo-US nuclear agreement and significant support for its claim for a permanent seat in the Security Council. The chapters presented here look at myriad aspects – India’s relations with its neighbours and global powers farther afield including the US, the European Union, Russia and China; India’s policies, influences and strengths; developments in economy, knowledge and innovation amid evolving global realities as well as geostrategic equations and alliances; its present and future plans vis-à-vis its standing in the world; and how

international politics is likely to emerge in the coming years. The volume will be useful to academics, researchers and students of politics and international relations as also to policy practitioners and those in media interested in Indian affairs, foreign policy and international relations.

Crashed UFOs. A boy with an alien power. You can’t put this book down now because you’ll instantly want to know why aliens came to Earth.

The Invasion Has Begun The Progenitors are here. If Captain Husher can’t find a way to oppose them, they will sweep through the multiverse like fire through a parched forest.

The Galaxy’s Never Had It Darker Armed with new tech that could revolutionize space combat, Captain Husher must now try to convince the Interstellar Union to implement it in time to defend against the godlike Progenitors.

Imagining India as a Global Power

The Market Day Massacre

It’s all-out war. Our cities fall. Millions die. The scum, these cruel aliens from deep space, are determined to kill us all. So we must kill them. Humanity musters its greatest fleet. Thousands of starships rally. Millions of soldiers deploy. For Earth to stand a chance, we must invade the aliens’ homeworld. We

must destroy their planet. Before they destroy ours. Earth’s fleet flies through space. We fly toward millions of enemy ships. We fly to almost certain death. This will be the hour humanity falls . . . or the hour of our greatest victory.

The galaxy has already fallen. He defends what’s left. Joe is nearing the end of a long deployment, and he’s looking forward to some home leave so he can visit his daughter. His last assignment takes him to Earth, humanity’s deserted homeworld, to learn why all contact has been lost with the Subverse - the digital

utopia where most of humanity now lives. He’s expecting the answer to be boring. Probably, rats chewed their way into the server room again. He couldn’t be more wrong. He finds a pirate impersonating the corporal responsible for guarding the Subverse terminal. Then he visits Earth’s last settlement to find everyone

dead...except the children, who have all been taken. These clues lead Joe on an epic journey across a dying galaxy, with just his training and skill to rely on. Joe is the last person anyone would want the fate of humanity to depend on. He’s also the only person willing to do what needs to be done.

This book is a study of the Basque variety spoken in Leketio (Vizcaya). As such we have intended to make a direct contribution to Basque dialectology, aiming at setting certain standards for research in this area. In addition, we believe that some of the materials assembled in this work will be of interest to a larger audience beyond Basque specialists. It is for this reason that we decided to write the present book in

English. In our opinion, certain linguistic aspects are treated in more detail here than in any previous work on any other Basque variety. A case in point would be accentuation, both at the lexical level and in its relation to the syntactic process of focalization.

Chief Roach’s victory over the Quatro won’t last long. Strange meteorites have fallen to Eresos, Strange meteorites have fallen to Eresos, clearly designed for the enemy. If the quad mechs fall into the enemy’s possession before Oneiri can take them to the space elevator, humanity will be back to where it was: outmatched and overpowered by the alien beasts.

An investigation into the specifics of Basque migrations, cultural representations, diasporic politics, and ethnonationalism, using theories from sociology, political science, history, and anthropology. Distributed for the Center for Basque Studies.

Captain Keyes captains the Providence, the last human ship not dependent on dark tech, which humanity has used to rule the galaxy for decades. When dark tech fails, allies become enemies. Meanwhile, humanity’s oldest enemy is on the rise. The future now depends on Captain Keyes and his misfit crew.

This book is one of the many Islamic publications distributed by Mustafa Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. Mustafa Organization is a registered Organization that operates and is sustained through collaborative efforts of volunteers in many countries around the world, and it welcomes your involvement and support. Its objectives are numerous, yet its main goal is to spread the truth about the Islamic faith in general and the Shi’a School of Thought in particular due to the latter being misrepresented, misunderstood and its tenets often assaulted by many ignorant folks, Muslims and non-Muslims. Organization’s purpose is to facilitate the dissemination of knowledge through a global medium, the Internet, to locations where such resources are not commonly or easily accessible or are resented, resisted and fought!

“This book presents the history of Basque literature from its oral origins to present-day fiction, poetry, essay, and children’s literature”--Provided by publisher.

On April 26, 1937, a massive aerial attack by German and Italian forces reduced the Basque city of Gernika to rubble and left more than sixteen hundred people dead. Although the assault was initiated as part of a terror bombing campaign by Francoists against Basque Republican forces during the Spanish Civil War, its main intent was to test the effectiveness of the rising German Luftwaffe’s new equipment and strategies. To produce this detailed analysis of the political and military background of the attack and its subsequent international impact, Xabier Irujo examined archives and official government documents in several countries and conducted numerous interviews with Basques who survived. His account of the assault itself, based on eyewitness reports from both victims and attackers, vividly recalls the horror of that first example of the blitz bombing that served the Germans during the first years of World War II.

He reveals the U.S. and British governments’ reaction to the bombing and also discusses efforts to prosecute the perpetrators for war crimes. Irujo relates the ways in which the massacre has been remembered and commemorated in Gernika and throughout the worldwide Basque diaspora. Gernika, 1937: The Market Day Massacre is an important contribution to the history of the Spanish Civil War and to our understanding of the military strategies and decisions that shaped this war and would later be employed by the Nazis during World War II.

The UHS Providence is restored to her former glory, with a fully reconstituted Air Group ready for war. But the Ixan fleet has grown far larger than anyone anticipated, and the onslaught has begun. As system after system is consumed, the Ixan Prophecies’ terrifying nature is revealed. Even so, Captain Keyes’s obsession with vengeance is starting to fracture already-shaky alliances. If he cannot overcome his demons and reclaim his honor, the entire galaxy will burn. Experience the final novel in a trilogy readers are calling “an action-packed military thrill ride.” Download Reckoning today and learn the shocking truth about the Ixan Prophecies.

Armies and the Art of Revolution

Captain Vin Husher is sent on a mission into a parallel universe with a task force - and right into an AI’s trap. Surrounded by its bioengineered super-species and unable to return to humanity’s home dimension, Husher must draw on decades of experience just to keep his people alive.

BY MILLION COPY-BESTSELLER JASPER T. SCOTT A DEADLY MISSION ON AN UNCHARTED WORLD RIDDLED WITH ANCIENT SECRETS On his last job, Cade Korbin lost his ship, lost his credits, and barely escaped with his life, but it’s not over. His enemy is still out there, nursing a decades-old vendetta that has yet to be quenched. Making matters worse, his guild is coming after him for breaking their rules. Cade desperately needs credits and somewhere to lie low for a while. To that end, he takes a job on an uncharted world, code-named Nexus, with his new partner. The mission is to rescue a team of missing researchers and to recover the alien artifacts they went searching for. But Nexus proves to be even deadlier than its Class Five hazard rating would suggest, and Cade soon realizes that he’ll be lucky to escape with his life, let alone accomplish the mission. Yet there is a danger on Nexus that goes far beyond hungry alien monsters: a terrifying menace has been waiting there for untold eons to emerge. And Cade Korbin is just about to unleash it.

March 15th, Earth Year 2290 The day the aliens returned. The memories are still fresh. Of colonies burning. Of millions dying in agony. 50 years later, we’ve built up our strength. Using a wormhole, we colonized both sides of the galaxy. It was the worst mistake we could have made. Our enemy has returned. The wormhole has collapsed.

The Galaxy’s Doomed Without Him The Ixa smashed the galaxy to bits before they were defeated. Captain Husher has sounded the alarm in the decades since: the Ixa’s creators will return to finish the job. But unlike Husher, the galactic government didn’t battle the Ixa, and the politicians have convinced themselves that maintaining peace means limiting the ability to wage war. Now, the enemy has returned, with high-tech weapons that prove they haven’t limited their own combat capabilities in the slightest. If Captain Husher and his beleaguered supercarrier crew can’t manage to stop the invaders, they will happily devour the galaxy whole. Fans of Daniel Arensen and Jay Allan will love Capital Starship, a new military science fiction series set in the Ixan Prophecies universe.

Some Prudence Island Aliens

Ben Archer and the Cosmic Fall (The Alien Skill Series, Book 1)

Captain Jess Tolvern of HMS Blackbeard is leading a Royal Navy expedition across long-dormant space lanes toward Old Earth when an alien fleet ambushes her battle cruiser. The aliens are Adjudicators, an ancient race whose ethos is to judge other species and reduce their survivors to a stone age existence.Tolvern sends a desperate message back to headquarters and retreats with her damaged ship to friendly systems. By the time she returns, the aliens have already

invaded Alliance territory with a powerful fleet of star fortresses and accompanying dragoon ships, trapping and laying siege to the allied fleet.While repairing her ship, Tolvern cobbles together a squadron of damaged allied warships, former raiders, and the local survivors of an Adjudicator attack to drive off the alien fleet.

Just as Sheldon Mason is about to end it all, he meets his upstairs neighbour, a drug dealer named Sam. Sam gets him professional help, as well as a job at a local grocery store. As he struggles to make sense of his life, Sheldon starts to notice something odd about one of his new co-workers, Gilbert Ryan. Gilbert seems to know about Sheldon’s mental health issues - in fact, he seems to know secrets about everyone. And Gilbert sees value in Sheldon...

Earth burns. We call them the scum. They came from deep space. Creatures of claws and endless malice, they ravage the world. As the war flares, as cities crumble, Private Marco Emery and his platoon blast into space. They won one battle on Earth. Their next battle must be fought in the darkness. The scum will not rest until the last human is dead. Marco and his friends must defeat them. They must win. Or Earth will fall.
