*Primary care
medicine is the new
frontier in medicine.
Every nation in the
world has
recognized the
necessity to deliver*

personal and primary care to its people. This includes first-contact care, care based in a positive and caring personal relationship, care by a single healthcare provider for the majority of the patient's problems,

coordination of all care by the patient's personal provider, advocacy for the patient by the provider, the provision of preventive care and psychosocial care, as well as care for episodes of acute and chronic illness.

These facets of care work most effectively when they are embedded in a coherent integrated approach. The support for primary care derives from several significant trends. First, technologically

amazing way.

Prayer is one of the
deepest mysteries.

God does not do
anything without
prayer. Prayer is
what triggers the
acts of God. God
will not do anything
except what is
activated through
prayer. God also
does everything in

the life of humanity
and the world
through prayer.

Prayer is therefore a
catalyst that makes
all things possible. ,
This book will give
the principles to
follow if you want to
get results through
prayer.
