Draw the Flow Way “ Create whatever causes a revolution in your heart. ” –Elizabeth Gilbert “ I cannot rest, I must draw, however poor the result, and when I have a bad time come over me it is a stronger desire than ever. ” –Beatrix Potter “ Drawing, painting, creating...it ' s like a muscle. You have to work on it every day. ” –Sarah Walsh “ Draw the art you want to see, start the business you want to run, play the music you want to hear, write the books you want to read, build the products you want to use—do the work you want to see done. ” –Austin Kleon “ Drawing is the discipline by which I constantly rediscover the world. I have learned that what I have not drawn, I have never really seen, and that when I start drawing an ordinary thing, I realize how extraordinary it is, sheer miracle. ” –Frederick Frank “ Have no fear of perfection, you ' ll never reach it. ” –Salvador Dalí “ Creativity is a way of living life, no matter what our vocation or how we earn our living. ” –Madeline L ' Engle “ I believe the most important single thing, beyond discipline and creativity, in any artistic work, is daring to dare. ” –Maya Angelou “ I sometimes think that there is nothing so delightful as drawing. ” –Vincent van Gogh In this innovative approach to drawing instruction, the illustrators from Flow magazine open up their tool kits, sharing secrets and techniques to teach the creatively curious how to draw. "How to Draw Cool Stuff: Basics, Shading, Texture, Pattern and Optical Illusions" is the second book in the How to Draw Cool Stuff series. Inside you will find simple illustrations that cover the necessities of drawing cool stuff. Specific exercises are provided that offer step-by-step guidelines for drawing a variety of subjects. Each lesson starts with an easy-to-draw shape that will become the basic structure of the drawing. From there, each step adds elements to that structure, allowing the artist to build on their creation and make a more detailed image. Starting with the basic forms, the artist is provided a guide to help see objects in terms of simplified shapes. Instructions for shading to add depth, contrast, character and movement to a drawing are then covered. The varieties of texture and pattern that can be included in an artwork offer another layer of interest and depth to a design. These elements are necessary to indicate the way something looks like it feels in a work (texture) or creating the repetition of shapes, lines or colors (patterns). Illustrated optical illusions involve images that are sensed and perceived to be different from what they really are, showing examples of how the mind and the eyes can play tricks on each other. All you need is a piece of paper, a pencil and an eraser and you are ready to draw cool stuff. Once the drawing is complete, it can be colored, shaded or designed in any way you like to make it original. Following these exercises is a great way to practice your craft and begin seeing things in terms of simple shapes within a complex object.
