A determined snail. A plump cabbage. A truly epic journey . . . In a book as cheerful and charming as Snail himself, Corey Tabor tells a winning tale of a slow but steady snail, whose determination and kindness bring him the best reward of all: friendship.

This sweet true story stars a tiny, orphaned elephant who was given another chance. When Chhook, an Asian elephant calf, was found, he was alone, underweight, and had a severe foot injury. Conservationist Nick Marx of Wildlife Alliance rescued the baby elephant. With help from the Cambodian Forestry Administration, the Cambodian School of Prosthetics and Orthotics, and an elephant named Lucky, Nick nursed Chhook back to health and made him an artificial foot. One of the first animals to ever be fitted with a prosthetic, Chhook helped pioneer the technology – and most importantly, was able to walk again! This true animal rescue story will satisfy animal lovers and capture the hearts of both young readers and their parents.

Over the last half century, college textbooks on management have taught the importance of valuing the human assets of a business, and they have also focused on how to effectively and appropriately manage those assets. And yet, we look around and rarely see it practiced. In *Activate Human Capital*, author Richard N. Morrison outlines the eight People-Focused Principles that motivate people to want to do the work given to them. And even more, he shows how these values will actually get employees to initiate their work because they will see how it contributes to the overall purpose of the business. Each principle—such as giving people a purpose, communicating widely, accommodating change, creating a culture of worth and honor, and valuing the human fulfillment, and then through research, personal experience, and shared stories, Morrison discusses how to activate each principle and demonstrates what it should look like in the workplace. Eight simple principles can help enhance all business relationships and improve efficiency, productivity, and profitability—if only managers are willing to change. People-focused values are increasingly more often as more business leaders comprehend the potential in this empowering form of leadership. When employees feel valued, respected, encouraged, and fulfilled, they will work harder and be more invested in their work—and in the success of the business.

***Changing Higher Education for a Changing World draws on the outcomes of the cutting-edge research programmes of the UK-based Centre for Global Higher Education, the world’s largest social science research centre focused on higher education and its future. In countries with incomes at European levels, the majority of all families now have connections to higher education, and there is widespread popular interest in how it can be made better. Together, the contributors sharply illuminate key issues of public and policy interest across the world: Do research universities make society more equal or more unequal? Are students graduating with too much debt? Who do we want to be attending universities? Will learning technologies will abolish the need for bricks-and-mortar higher education institutions? What can countries do to improve their scientific performance? How can comparative teaching assessment and research assessment become much more effective? The book explores higher education in the major higher education regions including China, Europe, the UK and the USA.***

***A beautiful story about the secrets of nighttime and the beauty of dawn from Caldecott Medal-winning illustrator, Mordicai Gerstein. Includes Read-Aloud/Read-to-Me functionality, where available. Book Description:One night, a little boy is awoken by his cat, Sylvie. Everyone in the house is sleeping, but outside, the Night World is wide awake! Beginning with a beautiful black-and-white palette, the shadows of the Night World come to life: lilies, sunflowers, rabbits, deer, and owls are all revealed as Sylvie and the boy explore the world outside his door. But the animals all know something new is coming--what could it be? Finally, in an explosion of color, the dawn arrives.***

***In this profound yet simple book, you will gain inspiration to hang tough through life’s inevitable challenges, creative ideas to build your mental toughness, strategies on how to be more resilient, practical reminders just when you need them and lifelines to help you stay afloat! Flower Garden

Changing Higher Education for a Changing World

Depicts a family of four who make their garden their summer home as they prepare the soil, plant seeds, water the garden, and watch for a harvest of vegetables.

"Inspired by the author's grandfather's experiences living in a lodge in the woods, a story of how people and animals survive a forest fire in a small Canadian town"--

With a nod to Richard Scarry, this inventive picture book surprises readers with every turn of the page! Hiss! Screech! Roar! It's a noisy day in Bumperville! But are the sounds what you think they are? That Honk! must surely be a goose. But turn the page and it's the taxi that a goose is driving! Using cleverly placed die-cuts, this inventive book hints at what is making the sound, but with each turn of the page, it's an eye-opening surprise and part of an unfolding story that is part guessing game and part giggle-inducing caper. Abi Cushman is the master of surprise and silliness in this absolutely delightful picture book.

In clear language, The Innovation Mandate shows leaders a step-by-step process to continually generate great ideas, implement them, and maximize their value to benefit both customers and investors. In today's ultracompetitive marketplace, the difference between success and failure is innovation. From small entrepreneurial startups to global Fortune 500 companies, innovation—the steady flow of new ideas—drives sustained success. It allows a company to introduce new products and services, effectively connect with customers, sharpen the supply chain, efficiently manage finances, and hire and retain the best people. Without a steady stream of new ideas, even the best company will slow down, atrophy, lose market share, hemorrhage customers, and eventually close or be sold. The Innovation Mandate offers a clear and straightforward pathway to profitable innovation. It demystifies the concept, making it easy to understand, implement, and measure. The book centers around three simple concepts: innovation generates profits; innovation, in the form of new, profitable ideas, can come from anywhere; and identifying, harnessing, evaluating, and implementing these new ideas cannot be left to chance. Additionally, the book offers a five-point checklist to ensure your company is innovation ready.

Stella's class is having a Mother's Day celebration, but what's a girl with two daddies to do? It's not that she doesn't have someone who helps her with her homework, or tucks her in at night. Stella has her Papa and Daddy who take care of her, and a whole gaggle of other loved ones who make her feel special and supported every day. She just doesn't have a mom to invite to the party. Fortunately, Stella finds a unique solution to her party problem in this sweet story about love, acceptance, and the true meaning of family. Plus, this is the fixed format version, which will look almost identical to the print version. Additionally for devices that support audio, this ebook includes a read-along setting.

There is no one size fits all when it comes to families. They can be large or small, blended or shared, here or there. The families in this book might have one dad or two moms. They might have grandparents or not. No brothers or sisters, or a lot! Your family or my family, whatever it's like, it's the perfect fit. The only tradition that matters in these families is that they love each other.

An inspirational portrait of a thriving Santa Fe community garden reveals how students and other citizens work together to select and grow annual plants, create compost, release butterflies, harvest edibles and protect garden beds for the winter.

In *Staying Online*, one of our most respected online learning leaders offers uncommon insights into how to reimagine digital higher education. As colleges and universities increasingly recognize that online learning is central to the future of post-secondary education, faculty and senior leaders must now grapple with how to assimilate, manage, and grow effective programs. Looking deeply into the dynamics of online learning today, Robert Ubell maps its potential to boost marginalized students, stabilize shifts in retention and tuition, and balance nonprofit and commercial services. This impressive collection spans the author’s day-to-day experiences as a digital learning pioneer, presents pragmatic yet forward-thinking solutions on scaling-up and digital economics, and prepares managers, administrators, provosts, and other leaders to educate our unsettled college students as online platforms fully integrate into the mainstream.

A True Story of an Unforgettable Event

"A subtle, deceptively simple book about inclusion, hospitality, and welcoming the 'other.'"—Kirkus Reviews "A boundlessly inclusive spirit. This open-ended picture book creates a natural springboard for discussion."—Booklist "This sweet extended metaphor uses an umbrella to demonstrate how kindness and inclusion work...A lovely addition to any library collection, for classroom use or for sharing at home." —School Library Journal In the tradition of Alison McGhee's *Someday*, beloved illustrator Amy June Bates makes her authorial debut alongside her eleven-year-old daughter with this timely and timeless picture book about acceptance. By the door there is an umbrella. It is big. It is so big that when it starts to rain there is room for everyone underneath. It doesn't matter if you are tall. Or plaid. Or hairy. It doesn't matter how many legs you have. Don't worry that there won't be enough room under the umbrella. Because there will always be room. Lush illustrations and simple, lyrical text subtly address themes of inclusion and tolerance in this sweet story that accomplished illustrator Amy June Bates cowrote with her daughter, Juniper, while walking to school together in the rain.

"Building on a rhyme that will be familiar to many children, author-illustrator Cole creates an enticing guide to creating a garden. "This is the garden that Jack planted..." The final illustration presents a satisfied-looking boy surrounded by a lush, bird-filled flower garden...A concluding page of gardening suggestions serves as a springboard to books with more specific guidelines."--Horn Book.
