Foundation

The routine jobs of yesterday are
being replaced by technology and/or
shipped off-shore. In their place, job

Online Library Edexcel Gcse Maths Past Paper June 2014

categories that require knowledge management, abstract reasoning, and personal services seem to be growing. The modern workplace requires workers to have broad cognitive and affective skills. Often referred to as "21st century skills,"

Online Library Edexcel Gcse Maths Past Paper June 2014

these skills include being able to solve complex problems, to think critically about tasks, to effectively communicate with people from a variety of different cultures and using a variety of different techniques, to work in collaboration

Online Library Edexcel Gcse Maths Past Paper June 2014

with others, to adapt to rapidly changing environments and conditions for performing tasks, to effectively manage one's work, and to acquire new skills and information on one's own. The National Research Council (NRC)

Online Library Edexcel Gcse Maths Past Paper June 2014

has convened two prior workshops on the topic of 21st century skills. The first, held in 2007, was designed to examine research on the skills required for the 21st century workplace and the extent to which they are meaningfully different from

Online Library Edexcel Gcse Maths Past Paper June 2014

earlier eras and require corresponding changes in educational experiences. The second workshop, held in 2009, was designed to explore demand for these types of skills, consider intersections between science

Online Library Edexcel Gcse Maths Past Paper June 2014

education reform goals and 21st century skills, examine models of high-quality science instruction that may develop the skills, and consider science teacher readiness for 21st century skills. The third workshop was intended to delve more deeply

Online Library Edexcel Gcse Maths Past Paper June 2014

into the topic of assessment. The goal for this workshop was to capitalize on the prior efforts and explore strategies for assessing the five skills identified earlier. The Committee on the Assessment of 21st Century Skills was asked to

Online Library Edexcel Gcse Maths Past Paper June 2014

organize a workshop that reviewed the assessments and related research for each of the five skills identified at the previous workshops, with special attention to recent developments in technology-enabled assessment of critical thinking and

Online Library Edexcel Gcse Maths Past Paper June 2014

problem-solving skills. In designing the workshop, the committee collapsed the five skills into three broad clusters as shown below:

Cognitive skills: nonroutine problem solving, critical thinking, systems thinking
Interpersonal skills:

Online Library Edexcel Gcse Maths Past Paper June 2014

complex communication, social skills, team-work, cultural sensitivity, dealing with diversity
Intrapersonal skills: self-management, time management, self-development, self-regulation, adaptability, executive functioning

Online Library Edexcel Gcse Maths Past Paper June 2014

Assessing 21st Century Skills
provides an integrated summary of
the presentations and discussions
from both parts of the third
workshop.
