*Aiden From the second I saw her, I knew she'd be my ruin. Sitting all alone at the bar, she looked like an angel. Eurydice in human form; her beauty eclipsed by demons. Now, I'm one of them. The ghost she's tried for years to escape. Thinking I wouldn't be able to find her. But I never stopped trying, and now that I have, her past sins should be the least of her worries. Riley From the moment he saw me, I knew I'd ruin his life. Alone at the bar, I dared the monster to come and play. Orpheus in the flesh, with his sad songs and strange obsessions. I became one of them. The siren who calls to the darkest parts of him. Only, I disappeared before he could act on it. But now he's here, and he wants me to repent for my sins. ***
Vipers and Virtuosos is a full-length, standalone dark rockstar romance inspired by the myth of Orpheus and Eurydice. It is NOT fantasy, historical, or a retelling. If you are not a dark romance reader, this book may not be suitable for you. Reader discretion is advised.

"A totally absorbing book...imaginative and erudite, full of startling juxtapositions and flashes of real perception."—Jonathan D. Spence
John E. Wills's masterful history ushers us into the worlds of 1688, from the suicidal exaltation of Russian Old Believers to the ravishing voice of the haiku poet Basho. Witness the splendor of the Chinese imperial court as the Kangxi emperor publicly mourns the death of his grandmother and shrewdly consolidates his power. Join the great caravans of Muslims on their annual pilgrimage from Damascus and Cairo to Mecca. Walk the pungent streets of Amsterdam and enter the Rasp House, where vagrants, beggars, and petty criminals labored to produce powdered brazilwood for the dyeworks. Through these stories and many others, Wills paints a detailed picture of how the global connections of power, money, and belief were beginning to lend the world its modern form. "A vivid picture of life in 1688...filled with terrifying violence, frightening diseases...comfortingly familiar human kindnesses...and the intellectual achievements of Leibniz, Locke, and Newton."—Publishers Weekly

In this inspirational and humorous collection of essays, author John Dietsch sees his addiction to and passion for fishing as a parable that can

help us shift from compulsive thinking to mindfulness and a closer connection to God. From creating fishing scenes on the set of *A River Runs Through It* in Montana, to directing fly fishing shows in New Zealand and from exploring deep canyons in California to guiding in Colorado, John shares his experiences and asks the question: what are we really fishing for? Through John's journeys across the globe, we discover that the same pursuit in fishing—of what is elusive but attainable—can be applied to our own spiritual journey. In the end, Dietsch uncovers his own truth under the rocks of a childhood river, recognizing the loss of both his brothers as the path of acceptance and faith that is graced by waters.

1688: A Global History

Renault Megane Petrol and Diesel Owner's Workshop Manual

This book reassesses the philosophical, psychological and, above all, the literary representations of the unconscious in the early twentieth century. This period is distinctive in the history of responses to the unconscious because it gave rise to a line of thought according to which the unconscious is an intelligent agent able to perform judgements and formulate its own thoughts. The roots of this theory stretch back to nineteenth-century British physiologists. Despite the production of a number of studies on modernist theories of the relation of the unconscious to conscious cognition, the degree to which the notion of the intelligent unconscious influenced modernist thinkers and writers remains understudied. This study seeks to look back at modernism from beyond the

Freudian model. It is striking that although we tend not to explore the importance of this way of thinking about the unconscious and its relationship to consciousness during this period, modernist writers adopted it widely. The intelligent unconscious was particularly appealing to literary authors as it is intertwined with creativity and artistic novelty through its ability to move beyond discursive logic. The book concentrates primarily on the works of D. H. Lawrence, Virginia Woolf and T.S. Eliot, authors who engaged the notion of the intelligent unconscious, reworked it and offered it for the consumption of the general populace in varied ways and for different purposes, whether aesthetic, philosophical, societal or ideological.

Every academic discipline has an origin story complicit with white supremacy. Racial hierarchy and colonialism structured the very foundations of most disciplines' research and teaching paradigms. In the early twentieth century, the academy faced rising opposition and correction, evident in the intervention of scholars including W. E. B. Du Bois, Zora Neale Hurston, Carter G. Woodson, and others. By the mid-twentieth century, education itself became a center in the struggle for social justice. Scholars mounted insurgent efforts to discredit some of the most odious intellectual defenses of white supremacy in academia, but the disciplines and their keepers remained unwilling to interrogate many of the racist foundations of their fields, instead embracing a framework of racial colorblindness as their default position. This book challenges scholars and students to see race again. Examining the racial histories and

colorblindness in fields as diverse as social psychology, the law, musicology, literary studies, sociology, and gender studies, *Seeing Race Again* documents the profoundly contradictory role of the academy in constructing, naturalizing, and reproducing racial hierarchy. It shows how colorblindness compromises the capacity of disciplines to effectively respond to the wide set of contemporary political, economic, and social crises marking public life today.
