On 26 December 2012, Narendra Modi was sworn in as the Chief Minister of Gujarat for the fourth time to extend his record tenure in office. "Mass Murderer" or "Development Man"? It depends on

which side of the spectrum he is viewed from, because Narendra Modi is one of those politicians whose name prompts extremes of hate-filled anger or outright adulation. Despite polarizing Gujarat and India in more ways than one, Modi brilliantly does what it takes to survive in a democracy: win elections. Written by veteran journalist and writer, Nilanjan after several in-depth interviews, meticulous research and extensive travel through Gujarat, this book reveals hitherto unknown aspects of Narendra Modi's psyche: as a six year- old boy selling tea to help out his father and distributing badges and raising slogans at the behest of a local political leader; abandoning his family and wife in search of his definition of truth; initiation into the RSS as a fledgling who ran errands for his seniors; his idea of Gujarati pride and Indian-ness; and finally, his meteoric rise which gave him a distinct identity post the 2002 Godhra riots. Narendra Modi: The Man, The Times is a definitive biography of a man who may have challenged the basic principles of a sovereign secular nation but emerged at its destination as an undisputed and larger-than-life leader.

This book examines the history and role of election posters as one of the most crucial forms of political communication, especially in electoral campaigns, in a number of countries around the globe. The contributing authors present comparative research

on electoral posters from countries from all five continents, summarizing international similarities and national differences. The book also discusses theoretical aspects and different methodological approaches that are used for studying the design, content and reception of election posters as a means of political communication.

Narendra Modi: The Man, the Times

**The methodology of this survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.**

**From being a fringe political party in 2013 to sweeping nearly half of the state's forty-two Lok Sabha seats in 2019, the BJP has gained ground in West Bengal, aided partly by the RSS's exponential growth during Mamata Banerjee's chief ministerial tenure (2011 onwards). With a consistent and concerted criticism of the TMC, the saffron camp managed to create a strong wave of anti-incumbency. So much so that the BJP's prospects of forming the next government in Bengal in**

**2021 seemed to have brightened considerably, while the Left, which had ruled Bengal for over three decades, appears to have been reduced to a fringe political entity. However, the controversy over the Citizenship Amendment Act and the National Register of Citizens, combined with Banerjee's course-correction drive, designed by strategist Prashant Kishor, indicate that she might yet script a turnaround, with Bengal turning into the laboratory of a unique political experiment. Mission Bengal documents the BJP's extraordinary rise in the state and attempts to look at these developments in the historical context of Bengal -- from the rise of Hindu nationalism and Muslim separatism in the nineteenth century, the Partition and its fallout, the impact of developments in Bangladesh, the influence of leftist ideals on the psyche of the Bengali people, to the demographic changes in the state over the past few decades.**

**THIS CASEBOOK contains a selection of U. S. Court of Appeals decisions that analyze and discuss issues stemming from election law. Volume 1 of the casebook covers the District of Columbia Circuit and the First through the Fifth Circuit Court of Appeals. Any restrictions on access to the ballot necessarily "implicate substantial voting, associational[, ] and expressive rights protected by the First and Fourteenth Amendments." *McLaughlin v. N.C. Bd. of Elections*, 65 F.3d 1215, 1221 (4th Cir. 1995). However,**

states have the power to regulate the time, place, and manner of their own elections, see U.S. Const. art. 1, § 4, cl. 1, to ensure that "some sort of order, rather than chaos, ... accompan[ies] the democratic processes," *Burdick*, 504 U.S. at 433, 112 S.Ct. 2059 (quoting *Storer v. Brown*, 415 U.S. 724, 730, 94 S.Ct. 1274, 39 L.Ed.2d 714 (1974)). Accordingly, in evaluating a challenge to a ballot-access law, courts must weigh the character and magnitude of the asserted injury to the rights protected by the First and Fourteenth Amendments that the plaintiff seeks to vindicate against the precise interests put forward by the State as justifications for the burden imposed by its rule, taking into consideration the extent to which those interests make it necessary to burden the plaintiff's rights. *Id.* at 434, 112 S.Ct. 2059 (citation omitted). When election laws "impose a severe burden on ballot access," those laws "are subject to strict scrutiny," and will be upheld only if the laws are "narrowly drawn" to support a compelling state interest. *Pisano v. Strach*, 743 F.3d 927, 933 (4th Cir. 2014) (citation omitted). Election laws that impose only a "modest" burden will be upheld if the state can "articulate" its "important regulatory interests." *Libertarian Party of Va. v. Alcorn*, 826 F.3d 708, 716, 719 (4th Cir. 2016) (citations omitted). ***Rainbow analyses the Bharatiya Janata Party's (BJP) strategy of appropriating cultural resources in Assam while pursuing the Hindutva agenda. In Assam, where numerous ethnic and regional political outfits have registered their electoral presence, the 'Rainbow Alliance' emerged as the dominant strategic tool for BJP in its electoral battles. The book studies how BJP has capitalized on people's attachment to their ethno-regional cultures and has successfully co-opted and 'saffronized' the 'Rainbow' by bringing together diverse ethnic groups into its fold. Scrutinizing electoral strategies, BJP's victories in 2014, 2016 and 2019, and the efforts towards dismantling consensus around the National Register of Citizens (NRC) by enacting the Citizenship Amendment Act (CAA), the book provides a holistic view of this steady 'saffronization'. It also critically investigates BJP's populist development agenda. From the Rashtriya Swayamsevak Sangh's (RSS) grassroots work to the government's policy initiatives, the book analyses the regime's performance and ideological pursuits in depth. It highlights how BJP's strategies in Assam are unique in some ways and how similar strategies can be seen elsewhere in India.***

story of the four extraordinary and historic years that followed, and the hard choices that she and her colleagues confronted. Secretary Clinton and President Obama had to decide how to repair fractured alliances, wind down two wars, and address a global financial crisis. They faced a rising competitor in China, growing threats from Iran and North Korea, and revolutions across the Middle East. Along the way, they grappled with some of the toughest dilemmas of US foreign policy, especially the decision to send Americans into harm's way, from Afghanistan to Libya to the hunt for Osama bin Laden. By the end of her tenure, Secretary Clinton had visited 112 countries, traveled nearly one million miles, and gained a truly global perspective on many of the major trends reshaping the landscape of the twenty-first century, from economic inequality to climate change to revolutions in energy, communications, and health. Drawing on conversations with numerous leaders and experts, Secretary Clinton offers her views on

what it will take for the United States to compete and thrive in an interdependent world. She makes a passionate case for human rights and the full participation in society of women, youth, and LGBT people. ### *World Migration Report 2020*

Despite recent advances in important aspects of the lives of girls and women, pervasive challenges remain. These challenges reflect widespread deprivations and constraints and include epidemic levels of gender-based violence and discriminatory laws and norms that prevent women from owning property, being educated, and making meaningful decisions about their own lives--such as whether and when to marry or have children. These often violate their most basic rights and are magnified and multiplied by poverty and lack of education. This groundbreaking book distills vast data and hundreds of studies to shed new light on deprivations and constraints facing the voice and agency of women and girls worldwide, and on the associated costs for individuals, families, communities, and global development. The volume presents major new findings about the patterns of constraints and overlapping deprivations and focuses on several areas key to women's empowerment: freedom from violence, sexual and reproductive health and rights, ownership of land and housing, and voice and collective action. It highlights promising reforms and interventions from around the world and lays out an urgent agenda for governments, civil society, development agencies, and other stakeholders, including a call for greater investment in data and knowledge to benchmark progress.

**This Brief reviews the past, present, and future use of school corporal punishment in the United States, a practice that remains legal in 19 states as it is constitutionally permitted according to the U.S. Supreme Court. As a result of school corporal punishment, nearly 200,000 children are paddled in schools each year. Most Americans are unaware of this fact or the physical injuries sustained by countless school children who are hit with objects by school personnel in the name of discipline. Therefore, Corporal Punishment in U.S. Public Schools begins by summarizing the legal basis for school corporal punishment and trends in Americans' attitudes about it. It then presents trends in the use of school corporal punishment in the United States over time to establish its past and current prevalence. It then discusses what is known about the effects of school corporal punishment on children, though with so little research on this topic, much of the relevant literature is focused on parents' use of corporal punishment with their children. was marked by overt absence of caste-, religion- and ethnicity-based contestations and this made West Bengal an exceptional case. Adopting a historical and comparative approach, the book traces the changing nature of politics of West Bengal since the late 1990s. It documents how economic and social degeneration in the state led to increasing caste and identity assertions and left-wing extremist politics. It chronicles the history of the social movements at Singur and Nandigram that ultimately challenged the Left hegemony and initiated the much talked-about poriborton (change) in West Bengal politics. With the help of the unique data sets of National Election Studies, the book closely analyses the shifting nature of state-level political dynamics under the rule of the All India Trinamool Congress (AITC) in the context of broader socio-economic changes. The book presents emerging party competition in the state marked by the eclipse of both the Left and the Congress and the arrival of the BJP.

This book explores the central issue of Bangladeshi politics: the weakness of governance. The coexistence of a poor governance track record and a relatively strong socioeconomic performance makes Bangladesh an intriguing case which throws up exciting and relevant conceptual and policy challenges. through all the key players and the big news stories. Beginning with 2012, when Narendra Modi won the state elections in Gujarat for a third time but set his sights on a bigger prize, to the scandals that crippled Manmohan Singh and UPA-II, and moving to the back-room strategies of Team Modi, the extraordinary missteps of Rahul Gandhi and the political dramas of election year, he draws a panoramic picture of the year that changed India.

Today, regional parties in India win nearly as many votes as national parties. In *Why Regional Parties?*, Professor Adam Ziegfeld questions the conventional wisdom that regional parties in India are electorally successful because they harness popular grievances and benefit from strong regional identities. He draws on a wide range of quantitative and qualitative evidence from over eighteen months of field research to demonstrate that regional parties are, in actuality, successful because they represent expedient options for office-seeking politicians. By focusing on clientelism, coalition government, and state-level factional alignments, Ziegfeld explains why politicians in India find membership in a regional party appealing. He therefore accounts for the remarkable success of India's regional parties and, in doing so, outlines how party systems take root and evolve in democracies where patronage, vote buying, and machine politics are common.

**A heated debate is raging over our nation's public schools and how they should be reformed, with proposals ranging from imposing national standards to replacing public education altogether with a voucher system for private schools. Combining decades of experience in education, the authors propose an innovative approach to solving the problems of our school system and find a middle ground between these extremes. Reinventing Public Education shows how contracting would radically change the way we operate our schools, while keeping them public and accessible to all, and making them better able to meet standards of achievement and equity. Using public funds, local school boards would select private providers to operate individual schools under formal contracts specifying the type and quality of instruction. In a hands-on, concrete fashion, the authors provide a thorough explanation of the pros and cons of school contracting and how it would work in practice. They show how contracting would free local school boards from operating schools so they can focus on improving educational policy; how it would allow parents to choose the best school for their children; and, finally, how it would ensure that schools are held accountable**
