

A National Study of the Aviation Mechanics Occupation
Operator and Organizational Maintenance Manual
Fundamentals of Automotive Maintenance and Light Repair
Aircraft Powerplant Handbook

One of the most trusted test preparation guides in the industry, AUTOMOTIVE TECHNICIAN CERTIFICATION TEST PREPARATION MANUAL A-SERIES, 5th Edition, will help to prepare users for the A1-A8 and L1 ASE certification exams. The guide is highly effective in covering need-to-know information to help users pass their exams. Each section starts with a complete overview of the ASE Tasks for that specific system. Next, each section includes ASE Style practice exams to test your knowledge on these critical ASE Tasks. Finally, each section ends an explanation of answers and ASE Task remediation. The end result: is a powerful test preparation tool, filled with updated task list theory, practice tests, and abundant, demonstrative graphics, which will arm users with the knowledge they need to master the ASE certification exams. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This book gathers the selected papers from the Second International Symposium on Simulation and Process Modelling (ISSPM 2020), which was held online on August 29-30, 2020, due to COVID-19 pandemic. The Symposium provides a forum in virtual presentation for scholars, researchers and practitioners who are interested in the modelling and simulation of business processes, production and industrial processes, service and administrative processes, and public sector processes to develop theory and practice of simulation and process modelling.

Generator Set, Diesel Engine Driven, Tactical Skid MTD. 15 KW, 3 Phase, 4 Wire, 120/208 and 240/416 Volts : DoD Model MEP-004A ... 6115-00-463-9094

Fundamentals of Medium/Heavy Duty Commercial Vehicle Systems

Phase III

Automotive Engine Performance

Proceedings of the Second International Symposium on Simulation and Process Modelling (ISSPM 2020)

"Advanced Automotive Engine Performance, published as part of the CDX Master Automotive Technician Series, provides technicians with advanced training in modern engine technologies and diagnostic strategies. Taking a strategy-based diagnostic approach, it helps students master the skills needed to diagnose and resolve customer concerns correctly on the first attempt. Students learn how to diagnose engine performance, drivability, and emission systems concerns. Ideal for advanced courses in light vehicle engine performance and for students preparing for ASE L1 certification, Advanced Automotive Engine Performance equips students with the skills necessary to successfully maintain, diagnose, and repair today's gasoline engines"--
