

English Epic And Heroic Poetry Mwwest

This collection of essays celebrating the career of Jasper Griffin, one of the foremost modern scholars of classical epic, surveys the epic tradition from the eighth century BC to the nineteenth century of our era.

Mock-Heroic from Butler to Cowper explores the protean nature of mock-epic in the English Augustan era. It recounts the rise of mock-heroic, and explores its relation both to classical epic and to contemporary genres such as the poetic travesty and the novel. Terry goes beyond previous commentators in arguing that mock-heroic was not merely a conventional genre, but also provided a supple discourse through which writers could represent a range of personal and social issues. He discovers mock-heroic properties, for example, in the Mandevillian discourse of economics and in the rhetoric of male gallantry towards women. Mixing a historical approach with incisive close readings, Terry provides a powerful re-evaluation of the form.

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. Singing the Past

“An instant classic that belongs on the bookshelf of every serious poet and literature student” (The Washington Post), A major addition to the literature of poetry, Edward Hirsch’s sparkling new work is a compilation of forms, devices, groups, movements, isms, aesthetics, rhetorical terms, and folklore—an “absorbing” book all readers, writers, teachers, and students of poetry will return to over and over (The New Yorker). Hirsch has delved deeply into the poetic traditions of the world, returning with an inclusive, international compendium. Moving gracefully from the barks of ancient Greece to the revolutionaries of Latin America, from small formal elements to large mysteries, he provides thoughtful definitions for the most important lyrical vocabularies, imbuing his work with a lifetime of scholarship and the warmth of a man devoted to his art. Knowing how a poem works is essential to unlocking its meaning. Hirsch’s entries will deepen readers’ relationships with their favorite poems and open greater levels of understanding in each new poem they encounter. Shot through with the enthusiasm, authority, and sheer delight that made How to Read a Poem so beloved, A Poet’s Glossary is a new classic.

Oral epic poetry is still performed by Turkic singers in Central Asia. On trips to the region, Karl Reichl collected heroic poems from the Uzbek, Kazakh, and Karakalpak oral traditions. Through a close analysis of these Turkic works, he shows that they are typologically similar to heroic poetry in Old English, Old High German, and Old French and that they can offer scholars new insights into the oral background of these medieval texts. Reichl draws on his research in Central Asia to discuss questions regarding performance as well as the singers’ training, role in society, and repertoire. He asserts that heroic poetry and epic are primarily concerned with the interpretation of the past in song: the courageous deeds of ancestors, the search for tribal and societal roots, and the definition and transmission of cultural values. Reichl finds that in these traditions the heroic epic is part of a generic system that includes historical and eulogistic poetry as well as heroic lays, a view that has diachronic implications for medieval poetry. Singing the Past reminds readers that because much medieval poetry was composed for oral recitation, both the Turkic and the medieval heroic poems must always be appreciated as poetry in performance, as sound listened to, as words spoken or sung.

This book is the first comprehensive study of the theory, the conventions and the history of the mock-heroic genre. In the first part, Ulrich Broich shows how mock-heroic poetry combines the characteristics of various discourses - epic, comedy, parody, satire and occasional poetry. The second part traces the history of mock-heroic poetry.

Epic Hero and the Decline of Heroic Poetry, Study of the Neoclassical English Epic with Special Reference to Milton's Paradise Lost

This book examines how epic poetry reflects cultural values, and how, in epic poems, the heroes must meet supernatural beings to find answers to essential questions. It begins with three chapters on ancient poetry (including The Iliad and The Odyssey, the Mahabharata, the Epic of Gilgamesh, the Aeneid and the Bhagavad Gita). Subsequent chapters take up the main subject of the book, examining the evolution of English epic poetry from the anonymous Old English Beowulf to Spenser’s The Faerie Queen, Milton’s Paradise Lost, Blake’s Milton, Wordsworth’s The Prelude, Barrett Browning’s Aurora Leigh and Derek Walcott’s 1990 poem Omeros.

Called variously the ‘Byzantine epic’, the ‘epic of Modern Greece’, an ‘epic-romance’ and ‘romance’, the poem of Digenes Akrites has, since its rediscovery towards the end of the nineteenth century, exerted a tenacious hold on the imagination of scholars from a wide range of disciplines and from many countries of the world, as well as of writers and public figures in Greece. There are many reasons for this, not least among them the prestige accorded to ‘national epics’ in the nineteenth century and for some time afterwards. Another reason must surely be the work’s uniqueness: there is nothing quite like Digenes Akrites in either Byzantine or Modern Greek literature. However, this uniqueness is not confined to its problematic place in the literary ‘canon’ and literary history. As historical testimony, and in its complex relationship to later oral song and to older myth and story-telling, Digenes Akrites again has no close parallels of comparable length in Byzantine or Modern Greek culture. Whether as a literary text, a historical source, or a manifestation of an oral popular culture, Digenes Akrites remains, more than a century after its rediscovery, persistently enigmatic. This Byzantine ‘epic’ or ‘romance’ has now become the focus of new research across a range of disciplines since the publication in 1985 of a radically revised edition based on the Escorial text of the poem, by Stylianos Alexiou. The papers in this volume, derived from a conference held in May 1992 at King’s College London, seeks to present and discuss the results of this new research. Digenes Akrites: New Approaches to Byzantine Heroic Poetry is the second in the series published by Variorum for the Centre for Hellenic Studies, King’s College London.

Beowulf is an Old English heroic epic poem composed around 1100 AD. At 3,183 lines, the poem is notable for its length. The poem is untitled in the manuscript, but has been known as Beowulf since the early 19th century. As the single major surviving work of Anglo-Saxon heroic poetry, the work ȝ in spite of dealing primarily with Scandinavian matters ȝ has risen to such prominence that it has become “England’s national epic.”

Discourses on the Heroic Poem

This book is the first to provide a connected history of epic poetry in Britain between the French Revolution and the First World War. Although epic is widely held to have been shouldered aside by the novel, if not invalidated in advance by modernity, in fact the genre was practised without interruption across the long nineteenth century by nearly every prominent Romantic and Victorian poet, and shoals of ambitious poetasters into the bargain. Poets kept the epic alive by revising its conventions to meet an overlapping series of changing realities: insurgent democracy, Napoleonic war, the rise of class consciousness and repeated reform of the franchise, challenges posed by scientific advance to religious belief and cherished notions of the human, the evolution of a postnationalist and eventually imperialist identity for Britain as the world's superpower. Each of these developments called on nineteenth-century epic to do what the genre had always done: affirm the unity of its sponsoring culture through a large utterance that both acknowledged the distinctive flowering of the modern and affirmed its rootedness in tradition. The best writers answered this call by figuring Britain's self-renewal and the genre's as versions of one another. In passing, Herbert Tucker notices scores of mediocre congeners (and worse), so as to show where the challenge of a given decade fell and suggest what lay at stake. The background these lesser works provide throws into relief what the book stresses in extended discussions of several dozen major works: an unbroken history of daring experimentation in which circumspect, inventive, worried epists engaged because the genre and the age alike demanded it. Many years ago, J.R.R. Tolkien composed his own version of the great legend of Northern antiquity, recounted here in The Legend of Sigurd and Gudrún. In the Lay of the Völungs is told the ancestry of the great hero Sigurd, the slayer of Fáfnir, most celebrated of dragons; of his awakening of the Valkyrie Brynhild, who slept surrounded by a wall of fire, and of their betrothal; and of his coming to the court of the great princes who were named the Niflungs (or Nibelungs), with whom he entered into blood-brotherhood. In scenes of dramatic intensity, of confusion of identity, thwarted passion, jealousy, and bitter strife, the tragedy of Sigurd and Brynhild, of Gunnar the Niflung and Gudrún his sister, mounts to its end in the murder of Sigurd, the suicide of Brynhild, and the despair of Gudrún. The Lay of Gudrún recounts her fate after the death of Sigurd, her marriage against her will to the mighty Atli, ruler of the Huns (the Attila of history), his murder of her brothers, and her hideous revenge.

Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

Finest heroic poem in Old English celebrates the exploits of Beowulf, a young nobleman of southern Sweden. Combines myth, Christian and pagan elements, and history into a powerful narrative. Genealogies.

Walter Cohen argues that the history of European literature and each of its standard periods can be illuminated by comparative consideration of the different literary languages within Europe and by the ties of European literature to world literature. World literature is marked by recurrent, systematic features, outcomes of the way that language and literature are at once the products of major change and its agents. Cohen tracks these features from ancient times to the present, distinguishing five main overlapping stages. Within that framework, he shows that European literatures ongoing internal and external relationships are most visible at the level of form rather than of thematic statement or mimetic representation. European literature emerges from world literature before the birth of Europe — during antiquity, whose Classical languages are the heirs to the complex heritage of Afro-Eurasia. This legacy is later transmitted by Latin to the various vernaculars. The uniqueness of the process lies in the gradual displacement of the learned language by the vernacular, long dominated by Romance literatures. That development subsequently informs the second crucial differentiating dimension of European literature: the multicontinental expansion of its languages and characteristic genres, especially the novel, beginning in the Renaissance. This expansion ultimately results in the reintegration of European literature into world literature and thus in the creation of todays global literary system. The distinctiveness of European literature is to be found in these interrelated trajectories.

This is a study of mock-epic poetry in English, French, and German from the 1720s to the 1840s. While mock-epic poetry is a parodistic counterpart to serious epic, mock-epic poetry starts by parodying epic but moves on to much wider and richer literary explorations; it relies heavily on intertextual allusion to other works, on narratorial irony, on the sympathetic and sometimes libertine presentation of sexual relations, and on a range of satirical devices. It includes well-known texts (Pope’s Dunciad, Byron’s Don Juan, Heine’s Atta Troll) and others which are little known (Ratschky’s Melchior Striregel, Parry’s La Guerre des Dieux). It owes a marked debt to Italian romance epic (especially Ariosto). The study places these texts in the literary context of the decline of serious epic, which helped mock epic to flourish, and of the ‘Querelle des Anciens et des Modernes’ which questioned the authority of Homer’s and Virgil’s epics; and it relates their substance to contemporary debates about questions of religion and gender.

We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.

After a distinguished career as a teacher, scholar, bibliographer and literary critic, Stanley Brian Greenfield, Professor of English at the University of Oregon, one of the founders of the annual Anglo-Saxon England and of the International Society of Anglo-Saxonists, died in 1987. He wrote primarily on Anglo-Saxon topics as well as later English poetry. He deeply explored the Old English poetic corpus, pointing out important meanings and qualities in insightful and sensitive readings. Hero and Exile brings together some of his most important essays, divided into three sections - Beowulfian Studies, The Old English Elegies and The Theme of Exile - attesting to his long and fruitful engagement with Old English literature.

An Introduction to the Study of Literature

Studien Zum Komischen Epös

Beowulf, the primary epic of the English language, is a powerful heroic poem eloquently expressive of the Anglo-Saxon culture that produced it. In this beautiful book a designer, a poet, and a specialist in Anglo-Saxon literature recreate Beowulf for a modern audience. Interweaving evocative images, a new interpretation in verse, and a running commentary that helps clarify the action and setting of the poem as well as the imagery, the book brings new life to this ancient masterpiece. Randolph Swearer’s oblique and allusive images create an archaic, mysterious and Anglo-Saxon art, artifacts, and scenery. At the same time, Raymond Oliver gives Beowulf a world in which to live, filling in the cultural gaps not with a thick matrix of footnotes but with poetry itself. Unlike many translations of Beowulf in existence, Oliver’s retelling of the epic uses modern verse forms for poetic effect and includes a wealth of historically authentic descriptions, characterizations, and explanations necessary for modern readers. Marijane Osborn completes the process of restoring context to the poem by supplying a commentary to clarify its three work together to bring a likeness of an old and elusive tale to today’s reader. “The book’s design and the commentary on it provide a unique visual complement to Oliver’s poem... A strange and moving story, compellingly told and seriously interesting to any serious reader of books.”--Fred C. Robinson, from the Introduction

Every great civilisation from the Bronze Age to the present day has produced epic poems. Epic poetry has always had a profound influence on other literary genres, including its own parody in the form of mock-epic. This Companion surveys over four thousand years of epic poetry from the Babylonian Epic of Gilgamesh to Derek Walcott’s postcolonial Omeros. The list of epic poets analysed here includes some of the greatest writers in literary history in Europe and beyond: Homer, Virgil, Dante, Camões, Spenser, Milton, Wordsworth, Keats and Pound, among others.

An heroic poem (truly such) is undoubtedly the greatest work which the soul of man is capable to perform. The design of it is to form the mind to heroic virtue by example: it is conveyed in verse that it may delight while it instructs. The action of it is always one, entire, and great. The least and most trivial episodes or under- actions which are interwoven in it are parts either necessary or convenient to carry on the main design.

Challenging conventional readings of literary allegorion, Harris reassesses Renaissance relations between allegory and heroic poetry.

The definitive translation by Dick Davis of the great national epic of Iran—now newly revised and expanded to be the most complete English-language edition A Penguin Classic Dick Davis—“our pre-eminent translator from the Persian” (The Washington Post)—has revised and expanded his acclaimed translation of Ferdowsi’s masterpiece, adding more than 100 pages of newly translated text. Davis’s elegant combination of prose and verse allows the poetry of the Shahnameh to sing its own tales directly, interspersed sparingly with clearly marked explanations to ease along modern readers. Originally composed for the Samanid princes of Khorasan in the tenth century, the Shahnameh is among the greatest works of world literature. This prodigious narrative tells the story of pre-Islamic Persia, from the mythical creation of the world and the dawn of Persian civilization through the seventh-century Arab conquest. The stories of the Shahnameh are deeply embedded in Persian culture and beyond, as attested by their appearance in such works as The Kite Runner and the love poems of Rumi and Hafez. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

An astonishingly rich oral epic that chronicles the early history of a Bedouin tribe, the Sirat Bani Hilal has been performed for almost a thousand years. In this ethnography of a contemporary community of professional poet-singers, Dwight F. Reynolds reveals how the epic tradition continues to provide a context for social interaction and commentary. Reynolds’s account is based on performances in the northern Egyptian village in which he studied as an apprentice to a master epic-singer. Reynolds explains in detail the narrative structure of the Sirat Bani Hilal as well as the tradition of epic singing. He sees both living epic poets and fictional epic heroes as figures engaged in an ongoing dialogue with audiences concerning such vital issues as ethnicity, religious orientation, codes of behavior, gender roles, and social hierarchies.
