The bilingual South African Language Rights Monitor 2008 / Suid-AfrikaanseTaal regtemonitor 2008 is the seventh annual report on the situation pertaining to language rights and language matters in general in South Africa. It cultivates an awareness of language rights and promotes a culture of taking proactive measures in order to oppose violations of language rights. Such awareness could lead, on the one hand, to the further democratisation of the community, and on the other, to increasing participation in public life.
The integration of technology into educational environments has become more prominent over the years. The combination of technology and face-to-face interaction with instructors allows for a thorough, more valuable educational experience. Intelligent Web-Based English Instruction in Middle Schools addresses the concerns associated with the use of computer-based systems in teaching English as a foreign language, proving the effectiveness and efficiency of technological integration in modern classrooms. Highlighting cases base
diverse schools, this book is a vital reference source for practitioners and researchers interested in the educational benefits of educational technologies in language acquisition.
Informal language learning beyond the classroom plays an important and growing role in language learning and teaching. This Handbook brings together the existing body of research and unites the various disciplines that have explored this area, in order to present the current state of knowledge in one accessible resource. Much of adult learning takes place outside of formal education and for language learning, it is likely that out-of-class experiences play an equally important role. It is therefore surprising that the role of informal langu
little attention over the years, with the vast majority of research instead focusing on the classroom. Researchers from a range of backgrounds, however, have started to realise the important contribution of informal language learning, both in its own right, and in its relationship with classroom learning. Studies in the areas of learner autonomy, learning strategies, study abroad, language support, learners' voices, computer-mediated communication, mobile-assisted language learning, digital gaming, and many others, all add to our unders
intersecting ways in which learners construct their own language learning experiences, drawing from a wide range of resources, including materials, teachers, self-study, technology, other learners and native speakers. This Handbook provides a sound and comprehensive basis for researchers and graduate students to build upon in their own research of language learning and teaching beyond the classroom.

Postcolonial Polysystems: The Production and Reception of Translated Children ' s Literature in South Africa is an original and provocative contribution to the field of children ' s literature research and translation studies. It draws on a variety of methodologies to provide a perspective, both product- and process-oriented, on the ways in which translation contributes to the production of children ' s literature in South Africa, with a special interest in language and power, as well as post- and neocolonial hybridity. The book explores the forces that affect the use of translation in producing children ' s literature in various languages in South Africa, and shows how some of these forces precipitate in the selection, production and reception of translated children ' s books in Afrikaans and English. It breaks new ground in its interrogation of aspects of translation theory within the multilingual and postcolonial context of South Africa, as well as in its innovative experimental investigation of the reception of domesticating and foreignising strategies in translated picture books.

Come with us now to the first day of class to teach English in China. Both students and teacher's hearts pound with anticipation as students file into the room, chatting and pretending not to notice the foreign teacher standing behind his desk. But they can't help glancing at him anyway for a first look. Laughter mingles with the sound of books and chairs clanking together. A buzzer sounds in the hall, and Bill Burkett, affectionately known in China by his students as "Mr. Bill," begins. A Manual for Teaching English in China takes us from the first day's buzzer through the first weeks, months, and semesters of teaching English in China, sharing numerous stories, laughs, interesting facts, and many effective ways of teaching ESL. A Manual for Teaching English in China is packed with Bill Burkett's practical ideas, methods, and teaching techniques that can actually be used to teach ESL anywhere. Bill Burkett recently returned from a seven year stint of teaching English in the universities and training schools of Henan, China. An internationally renowned public speaker, Burkett has lived in 46 nations in the last 43 years. He developed a strong interest in linguistics which was fueled by his close association with interpreters. In Chinese classrooms where he taught English, he conducted active research, experimenting and taking student polls. He concentrated on eliminating speech impediments and strong accents. His education, experiences, and research shaped his philosophy of teaching English as a Second Language and formed the basis of his first ESL book, A Manual for Teaching English in China. Following the manual is Secrets to Better English which reveals a proven method of teaching ESL without accent. Although Burkett's doctorate is in philosophy, his love is making a difference in his students' lives by teaching diction and the skills of speech.
South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and, to a much lesser extent, Afrikaans, but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools, which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students, not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience.

Transition and Transformation

The discourses contained in this book have a Divine Origin and the author acted as a mere scribe to undertake this sacred task to convey the Lord's Teachings and Pragmatic Messages. For man to live Divine lives, Swami's has repeatedly exhorted man to inculcate and embrace as a necessary way of life, the five eternal and essential human values which would assure man of a blissful and contented life on earth. Enshrined in these five human values: (Love, Peace, Truth, Right Conduct and Non-Violence), Swami has offered man Divine Solutions to live happy, balanced and a fulfilled human existence. These values are Universal and offer a panacea for Mankind's tortured and troubled existence. The profound Divine lessons and Mantras (Spiritual Truths) enunciated through Swami's Discourses resonate with a sublime, Divine Truth, which is soul-stirring and transports the reader to re-visit his Divine origin, which is man's birth-right.
This book uses an in-depth, phenomenological interview approach to explain the generational characteristics of today's Chinese university youths and the critical dispositions they believe indispensable in acquiring English as an academic language in and outside school settings. By presenting the authentic voices of the recruited participants, the book clarifies how English for academic purposes (EAP), as an emerging global phenomenon and a research-informed practice, enables and empowers them for conscious self-transformation and critical awareness development through language study. The book also explores issues arising in the fields of general English language teaching as well as traditional and critical EAP, and discusses university English language learners' learning needs and rights. The book further promotes a dynamic and transformative University EAP pedagogy of particularity, practicality, and possibility moving from the oppression of language education to its liberation, and the increasing critical consciousness among the present and future university youths in a time of great social changes.

The issues raised by the role of language in education are some of the most important and contentious faced by education systems across the globe. Language is embedded in the concepts of nationhood and identity, and is therefore directly linked to the very social and political fabric of a country. In a climate of increasing globalisation, development and mobility of populations, nations around the world are concerned with the tension between cultivating a sense of cultural and linguistic cohesion and making use of the linguistic diversity that exists in every country and region. This book examines the implications and impacts, the dilemmas and potential for language education in relation to education systems and wider society. Split into three key parts, it considers: *current issues in language education, including the role of language in maintaining power and inequalities, in encouraging participation and inclusion and in challenging the status quo; *different approaches to language education around the world; *the potential for language to provide opportunities for the disadvantaged, illustrated by case studies of three cities. This recent volume of the internationally respected World Yearbook of Education continues the tradition of offering a wide range of international perspectives from leading commentators on a universal concern. The material amassed here will be essential reading for teacher educators, education researchers and school leaders across the world.

From best-selling author Holly Webb comes a brand new series full of mystery and intrigue following the adventures of a very determined heroine and her dog! Holly Webb fans will be thrilled to pieces to discover the adventures of Maisie Hitchins, the pluckiest little detective in Victorian London. Maisie Hitchins lives in her grandmother's boarding house, longing for adventure. She idolizes the famous detective, Gilbert Carrington, and follows his every case. But Maisie is about to be given the opportunity of a lifetime: her own mystery to solve! In the first book in this fantastic new series, Maisie rescues a puppy in peril whilst running an errand, and adopts him. She decides to investigate the puppy's original cruel owner, but instead gets tangled up in an intriguing plot involving stolen sausages, pilfered halfpennies and a fast-paced bicycle chase. The streets of Victorian London are never safe, but Maisie's on the case!
Now in its second edition, How to Read Texts introduces students to key critical approaches to literary texts and offers a practical introduction for students developing their own critical and close-reading skills. Written in a lively, jargon-free style, it explains critical concepts, approaches and ideas including: - Debates around critical theory - The role of history and context - The links between creativity and criticism - The relationship between author, reader and text. The new edition now includes guidance on analysing a range of multi-media texts, including film and online media as well as the purely literary. In addition to new practical examples, readings, exercises and 'checkpoints' that help students to build confidence in their own critical readings of both primary and secondary texts, the book now also offers guidance on writing fully-formed critical essays and tips for independent research. Comprehensively updated and revised throughout, How to Read Texts is an indispensible guide for students making the transition to university study.
