This Arabic language-learning classic is now enhanced with a bound-in CD of MP3 files. Designed to provide beginners in Arabic with maximum linguistic and cultural exposure in a short period (about 100 hours of contact time), this book consists of sixteen lessons with dialogs and exercises dealing with day-to-day scenarios: greeting people, getting a taxi, making phone calls, asking directions, discussing the weather, and effectively communicating with police and duty officers. The lessons help the reader to navigate situations at gas stations, marketplaces, restaurants, and in their own households. Formal Spoken Arabic (FSA) is a kind of lingua franca that is more natural than speaking Modern Standard Arabic (MSA), the literary form of the language. FSA uses the shared features of the various urban colloquial dialects, defaulting to Levantine (terms common to Lebanon, Syria, and Jordan) where the spoken dialects diverge. Each lesson includes cultural notes on American-Arab interactions, notes on learner strategies for managing Arabic conversations with a limited amount of language, and grammar explanations in clear, non-technical language. Although the main dialogue for each lesson is presented in Arabic script, transcriptions are used to accelerate spoken performance. The FAST Course includes grammatical explanations, English-Arabic and Arabic-English glossaries, appendices listing common idioms, courtesy expressions and other useful terms, instructor's notes, and drills aided and accompanied by the CD. Originally created for diplomats, this is an expanded and enhanced edition of a work originally developed by the U.S. State Department as a six-week intensive, or "FAST" (Familiarization and Short-Term) course, and is easily

adaptable for students in Middle East area studies. Travelers heading for posts in the Arab world who quickly need to gain a basic ability to converse in day-to-day situations will find Formal Spoken Arabic FAST Course an invaluable companion.

Russian as used in everyday conversation. The Science of Memory Dr. Paul Pimsleur's research on memory was one of his most significant achievements: he discovered that if reminded of new words and information at gradually increasing intervals of time, the learners would remember the words or information for increasingly longer periods. Dr. Pimsleur documented that the acquisitions would actually move from short-term into long-term, or permanent, memory. The Reading Program Pimsleur Language Programs use the same revolutionary learning Method to teach you to read, as well as to speak. You will start by sounding out Russian, learning to associate the new sound system to the English alphabet you know. Gradually you will learn to look at the words and see them with "Russian eyes." And you will learn to read Russian without an English accent. Learn on the Go! goRussian makes it easier than ever to use the Pimsleur programs by including the spoken lessons in two audio formats.
