The Indigenous Enumeration Strategy (IES) of the Australian National Census of Population and Housing has evolved over the years in response to the perceived 'difference' of the Aboriginal and Torres Strait Islander populations. Its defining characteristics are the use of locally recruited, mostly Indigenous collector interviewers, and the administration of a modified collection instrument in discrete Indigenous communities, mostly in remote Australia. The research reported here is unique. The authors, with the assistance of the Australian Bureau of Statistics, were able to follow the workings of the IES in the 2006 Census from the design of the collection instrument to the training of temporary census field staff at the Northern Territory's Census Management Unit in Darwin, to the enumeration in four remote locations, through to the processing stage at the Data Processing Centre in Melbourne. This allowed the tracking of data from collection to processing, and an assessment of the effects of information flows on the quality of the data, both as input and output. This study of the enumeration involved four very different locations: a group of small outstation communities (Arnhem Land), a large Aboriginal

township (Wadeye), an 'open' town with a majority Aboriginal population (Fitzroy Crossing), and the minority Aboriginal population of a major regional centre (Alice Springs). A comparison between these contexts reveals differences that reflect the diversity of remote Aboriginal Australia, but also commonalities that exert a powerful influence on the effectiveness of the IES, in particular very high levels of short-term mobility. The selection of sites also allowed a comparison between the enumeration process in the Northern Territory, where a time-extended rolling count was explicitly planned for, and Western Australia, where a modified form of the standard count had been envisaged. The findings suggest that the IES has reached a point in its development where the injection of ever-increasing resources into essentially the same generic set and structure of activities may be producing diminishing returns. There is a need for a new kind of engagement between the Australian Bureau of Statistics and local government and Indigenous community-sector organisations in remote Australia. The agency and local knowledge of Indigenous people could be harnessed more effectively through an ongoing relationship with such organisations, to better address the complex contingencies confronting the census process in remote Indigenous Australia.

After deciding she's fed up with city life, Melanie embarks on a journey to southwest France with just a suitcase full of optimism and not a little bit of naiveté. After one particularly bad day at work, advertising executive and confirmed city girl Melanie Jones decides to give up her old life in search of something new and simpler in southwest France. She has little knowledge of the country, even less of the language, and just the memory of a disastrous school French exchange and a few day trips to Calais. Still, how different can life in France be? After a series of adventures with skirt-ripping tractors, handsome twin farmers, celebrity not-quite-beens, unusual toilets, and a bonkers ex-pat community, all topped up, of course, with lashings of rosé, Melanie begins to discover that her new life in France isn't quite what she'd thought it would be.

Based on the life of George Eliot, famed author of Middlemarch, this captivating account of Eliot's passions and tribulations explores the nature of love in its many guises Dinitia Smith's spellbinding novel recounts George Eliot's honeymoon in Venice in June 1880 following her marriage to a handsome young man twenty years her junior. When she agreed to marry John Walter Cross, Eliot was recovering from the death of George Henry Lewes, her beloved companion of twenty-six years. Eliot was bereft: left at the age of sixty to contemplate profound questions about her physical decline, her fading appeal, and the prospect of loneliness. In her youth, Mary Ann Evans—who would later be known as George Eliot—was a country girl, considered too plain to marry, so she educated herself in order to secure a livelihood. In an era when female novelists were objects of wonder, she became the most famous writer of her day—with a male nom de plume. The Honeymoon explores different kinds of love, and of the possibilities of redemption and happiness even in an imperfect union. Smith integrates historical truth with her own rich rendition of Eliot's inner voice, crafting a page-turner that is as intelligent as it is gripping.
