Are you sick of feeling like you don't measure up in the bedroom? Fed up of covering up in the locker room? If you're tired of being 'below average' then you've arrived at the right place. Penis size: The natural penis enlargement guide for a bigger, thicker, stronger and harder penis is the ultimate guide to building a much larger and functioning penis. This book is dedicated to increasing the size of your member, to overcome erectile dysfunction and premature ejaculation. I discuss my own journey down the road of penis enlargement and I review the majority of the products on the market today, what their claims are and my results. Inside is a list of the many exercises to increase your member from beginner to advanced. I have provided you with a beginner's program that you can start right now today. I also explain how to introduce new and more advanced exercises into your routine. The key is patience. You'll see results almost instantly as you begin these exercises, but it'll mainly be due to fluid retention at first so don't be discouraged if the effects subside after a short period of time. The trick is to put stress on the penis tissues through forcing blood in by using a jelqing method and just like working out any other muscle, the growing part takes place while we rest. Rest is very important, especially to get the results you desire, you need to be very patient as it can be very tempting to do as much as possible to get results. Each subject is discussed in detail; how to perform each technique properly and how to implement these exercises into a program that will increase the length, girth, hardness and the strength of your erection. You'll also learn how to correct penile curvature and how to prevent premature ejaculation. I've created this book to simply give back to the many people that are in the position I once was. Please note that this is not a quick fix, you'll have to be patient and stay dedicated to see the results you truly desire. If you want to overcome anxiety in the bedroom and gain the ultimate confidence to satisfy your lover, then here is all the information you will ever need. The subjects inside include: * Penis exercises and the benefits * Penis enlargement products - side effects and draw backs * The importance of warming up * The pelvic floor muscles * Kegel exercises * An introduction to Jelqing * Other methods of girth exercise * Pros and Cons * Penis Stretching * Beginners program * Foods to include in your diet to promote growth * Tips to help you along the way

But the basic mode of action of almost all of them is to increase the blood flow to the penis for the time being, which gives the wrong impression to the user that the product is working very fast. But as soon as the temporary blood flow reduces with some passage of time, people find absolutely no change in their size. This book has been written with the view to permanently provide strength to the penile muscles through specific nourishment and special exercises . With this regimen thousands of people have added 3 to 4 inches to their penis size within the first few days of their use, and they have reported their enlargement as permanent. With continuous use of this regimen people have reported that the penis continues to grow forever.

You may wonder what kind of guy writes a book like this, but the fact is that I was brought up with brothers and also came into contact with many men during the course of my college years who fired blanks when it came to performance. They just didn't have what it takes ... or did they? I saw guys actually comparing sizes in the locker room, but when I suggested to them that their performance wasn't all about circumference or length, they scoffed the idea. I have to be honest. While I was enjoying a very healthy sex life and giving girls exactly what it was that they wanted, these were the same guys who continued to be losers because they were not prepared to take any responsibility for their performance. If you were one of them, hey buddy, it's now or never. You can increase the size of your penis. You can improve your thrust but most of all, you can enjoy extended lovemaking without disappointing either yourself or the lady you are lucky enough to be sharing your bed with. My lady would happily give you a testimony because she knows I learned a very long time ago what makes a difference. Suffer from anxiety in bed? Have no fear. I have you covered in this book which shows you methods that you can employ to get over those performance issues and be confident that you have what it takes to please her. I am a female doctor, specialist in providing the penis health services and have been doing the same for the last 5 years. I have noticed that men adopt different strategies to enlarge their penis without knowing the fact that penis enlargement is only possible if you supply sufficient protein nutrients to it. These protein nutrients continue to add lean mass to your penis muscles. The penis starts to grow up in length and thickness the very first day you begin to provide this special nutrition provided in this book, and keeps on growing up for all your life if you continue to use this nutrition. But usually I suggest to my clients just stop to use these herbs once you have achieved your desired size, because extra big size reaches the pelvis area deep inside vagina and hurts women, and many of the women who encountered these men with extra large size, complained to me about the same issue. So it is better to stop using this regimen once the desirable outcome has been achieved. After that you just need to continue to massage your penis with extra virgin olive oil. The method of using all these herbs, oils, and nutrients have been explained in this book in great detail. Just use this book and enjoy a huge, rock solid muscular penis all your life. good luck for your great sexual life ahead

To be able to give a girl what she most craves for, you have to put in the effort, particularly if you weren't born with a natural ability to use what you have to advantage. You're not alone, and what you may not realize is that even men with average sized penises can have a supernatural sex life, provided that they put in their homework and prepare themselves for the ride of their lives. You may wonder what kind of guy writes a book like this, but the fact is that I was brought up with brothers and also came into contact with many men during the course of my college years who fired blanks when it came to performance. They just didn't have what it takes ... or did they? I saw guys actually comparing sizes in the locker room, but when I suggested to them that their performance wasn't all about circumference or length, they scoffed the idea. I have to be honest. While I was enjoying a very healthy sex life and giving girls exactly what it was that they wanted, these were the same guys who continued to be losers because they were not prepared to take any responsibility for their performance. If you were one of them, hey buddy, it's now or never. You can increase the size of your penis. For a woman who desires bigger breasts, there are several easy (although not necessarily cheap) solutions. There is a section of this book that will help the reader learn all about exercises to improve their size.
