Defining the value of an entire company can be challenging, especially for large, highly competitive business markets. While the main goal for many companies is to increase their market value, understanding the advanced techniques and determining the best course of action to maximize profits can puzzle both academic and business professionals alike. Valuation Challenges and Solutions in Contemporary Businesses provides emerging research exploring theoretical and practical aspects of income-based, market-based, and asset-based valuation approaches and applications within the financial sciences. Featuring coverage on a broad range of topics such as growth rate, diverse business, and market value, this book is ideally designed for financial officers, business professionals, company managers, CEOs, corporate professionals, academicians, researchers, and students seeking current research on the challenging aspects of firm valuation and an assortment of possible solution-driven concepts.

This book's purpose is to highlight the development challenges and successes of implementing the Youth Climate Change Adaptation Development Framework in Sierra Leone, West Africa. Over the past decade, Sierra Leone has experienced a series of development challenges, including internal conflict and Ebola outbreaks in most recent times. The dire unemployment situation in Sierra Leone is compounded by the emergence of climate change that negatively impacts all aspects of daily life and wellbeing, and the education and training provided do not prepare young people adequately for the job market. Therefore, building youth resilience to adapt to the impact of climate change and other development problems is a significant development challenge faced by policymakers in Sierra Leone. The government, through funding from the African Development Bank (AfDB), has provided support for the implementation of a Youth Employment and Entrepreneurship Project (YEEP) to reinforce the employability of Sierra Leone Youth as well as enhance their entrepreneurship and employment skills through the development of a framework that integrates education and vocational institutions with job market demand and supply. This approach has resulted in strengthening the occupational levels in the youth population segments of the country. This book discusses the objectives and outcomes of this project, including curricula for Sustainable Construction, training of counselors and administrators, providing youths with supervisory skills, and developing tools to assess youth development institutions' weaknesses and enhance institutional capacity to deliver climate change adaption for sustainable development programmes. The book can be used by policymakers from Small Island Developing States (SIDS) and LDCs in Africa and Asia. It can be used by researchers working on Climate Change, Education, Sustainable Development, emphasising Climate Change Education for Sustainable Development in both developing and developed countries. It can also be used by practitioners involved in implementing innovations in youth development, employment, entrepreneurship, sustainable livelihoods initiatives, climate change adaptation, and mitigation. These practitioners and researchers would find this book an invaluable resource to support their work in the field.

The fourth edition of Business Statistics builds upon the easy-to-understand, problem-solving approach that was the hallmark of the previous editions. Through detailed discussions on procedures that facilitate interpretation of data, this book enables readers to make more considered and informed business decisions. Using tools of application and practice in a variety of solved examples and practice problems, this book will sharpen the students' understanding of basic statistical techniques. Business Statistics, 4e, serves as a core textbook for students of management, commerce and computer science studying business statistics for degrees in BBA/MBA/PGDBM, BCom /MCom, CA/ICWA, and BE/ BTech /MCA as well as for those preparing for professional and competitive examinations. Key Features □ Learning Objectives clearly outline the learning outcomes of each chapter □ Case Studies illustrate a variety of business situations and suggest solutions to managerial issues using specific statistical techniques □ A Chapter Concepts Quiz at the end of each chapter reinforces students' understanding of the basic principles and applications □ Conceptual Questions, Self-Practice Problems, Review Self-Practice Problems with Hint and Answers enable students, after each chapter, to practice and then evaluate themselves

The increasing pace of global conformance towards the adoption of International Financial Reporting Standards (IFRS) highlights the need for accounting students as well as accounting practitioners to be conversant with IFRS. Teaching IFRS offers expert descriptions of, and insights into, the IFRS convergence process from a teaching and learning perspective. Hence this book is both timely and likely to have considerable impact in providing guidance for those who teach financial reporting around the world. The contents of the book come from authoritative sources and offer something distinctive to complement the existing textbooks which typically focus on the technical aspects of IFRS and their adoption. Drawing upon the experiences of those who have sought to introduce IFRS-related classroom innovations and the associated student outcomes achieved therefrom, the book offers suggestions about how to design and deliver courses dealing with IFRS and catalogues extensive listings of IFRS-related teaching resources to support those courses. This book was originally published as a special issue of Accounting Education: An international journal.
