The contributors to Corporate Citizen explore the legal frameworks and standards of conduct for multinational corporations. In a globalized world governed by domestic and international law, these corporations can be everywhere and nowhere at once, reaping financial benefits and enjoying the protections of investor-state arbitration but rarely being held accountable for the economic, environmental, and human rights harms they may have caused. Given the far-reaching power and success of the transnational corporation, and the many legal tools allowing these companies to avoid liability, how can governments protect their citizens?
