This new edition brings McLaren's popular, classic textbook into a new era of Common Core Standards and online education. This is an essential aid in the initial design and planning of a project. The relevant building type is located by a comprehensive index and cross reference system, a condensed commentary covers user requirements, planning criteria, basic dimensions and other considerations of function, siting aspect etc. A system of references based on an extensive bibliography supports the text. In every section plans, sections, site layouts, design details and graphs illustrated key aspects of a building type's design. Most illustrations are dimensioned or scaled - the metric system of measurement is used throughout, and the equivalent in feet/inches can

easily be read either off a graphic scale on the page or from the built-in conversion table. The illustrations are international in origin and include both well know and less famous designers. Architects Data is primarily a handbook of building types rather than of construction techniques and details. However its treatment of components (such as doors and windows) and of spaces for building services is extremely thorough, since consideration of this data is an essential element of the planning process. The opening pages of basic data on man and his buildings cover critical subjects such as scale, drawing practice, noise, light and space for the same reason. Particular attention has also been paid to the implications of energy conservation, means of escape from fire and the needs of the elderly and the disabled.

The Civilizing Process stands out as Norbert Elias' greatest work, tracing the "civilizing" of manners and personality in Western Europe since the late Middle Ages by demonstrating how the formation of states and the monopolization of power within them changed Western society forever.

THE STORY: Growing up in an impoverished family in the Bronx, Moss Hart dreamed of being part of the glamorous world of the theatre. Forced to drop out of school at age thirteen, Hart's famous memoir Act One is a classic Hortatio Alger story that plots Hart's unlikely collaboration with the legendary playwright George S. Kaufman. Tony Award-winning writer and director James Lapine has adapted Act One for the stage, creating a funny, heartbreaking, and suspenseful play that celebrates the making of a playwright and his play Once in a Lifetime. ACT ONE offers great fun to a director to utilize over fifty roles, which can be played by a cast as few as twelve, and in a production that can be done as simply or elaborately as desired.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Challenging the stereotypical images of the dominating male and the subservient woman, *Machos, Mistresses, Madonnas* addresses the variety of representations of gender in Latin American culture. Ranging across homosexuality, prostitution, football, politics and ethnic relations, this fascinating study analyzes the many potent images of gender, from Maradona, the child trickster of Argentinian football, to La Malinche, mistress of a conquistador and traitor to her nation. Based on social anthropological fieldwork, the essays in *Machos, Mistresses, Madonnas* present rich ethnographic material drawn from a variety of locations in Latin America, from Mexico City to the highlands of Ecuador. Paying particular attention to the cultural and symbolic meaning of gender research in the region, together the essays reveal the central role of gender

differences in the making of ethnic, national, political and economic divisions.

The Optical Unconscious is a pointed protest against the official story of modernism and against the critical tradition that attempted to define modern art according to certain sacred commandments and self-fulfilling truths. The account of modernism

presented here challenges the vaunted principle of "vision itself." And it is a very different story than we have ever read, not only because its insurgent plot and characters rise from below the calm surface of the known and law-like field of modernist painting, but because the voice is unlike anything we have heard before. Just as the artists of the optical unconscious assaulted the idea of autonomy and visual mastery, Rosalind Krauss abandons the historian's voice of objective detachment and forges a new style of writing in this book: art history that insinuates diary and art theory, and that has the gait and tone of fiction. The Optical Unconscious will be deeply vexing to modernism's standard-bearers, and to readers who have accepted the foundational principles on which their aesthetic is based. Krauss also gives us the story that Alfred Barr, Meyer Shapiro, and Clement Greenberg repressed, the story of a small, disparate group of artists who defied modernism's most cherished self-descriptions, giving rise to an unruly, disruptive force that persistently haunted the field of modernism from the 1920s to the 1950s and continues to disrupt it today. In order to understand why modernism had to repress the optical unconscious, Krauss eavesdrops on Roger Fry in the salons of Bloomsbury, and spies on the toddler John Ruskin as he amuses himself with the patterns of a rug; we find her in the living room of Clement Greenberg as he complains about "smart Jewish girls with their typewriters" in the 1960s, and in colloquy with Michael Fried about Frank Stella's love of baseball. Along

the way, there are also narrative encounters with Freud, Jacques Lacan, Georges Bataille, Roger Caillois, Gilles Deleuze, and Jean-François Lyotard. To embody this optical unconscious, Krauss turns to the pages of Max Ernst's collage novels, to Marcel Duchamp's hypnotic Rotoreliefs, to Eva Hesse's luminous sculptures, and to Cy Twombly's, Andy Warhol's, and Robert Morris's scandalous decoding of Jackson Pollock's drip pictures as "Anti-Form." These artists introduced a new set of values into the field of twentieth-century art, offering ready-made images of obsessional fantasy in place of modernism's intentionality and unexamined compulsions.

Combining insider and outsider perspectives, Women in Lebanon looks at Christian and Muslim women living together in a multicultural society and facing modernity. While the Arab Spring has begun to draw attention to issues of change, modernity, and women's subjectivity, this manuscript takes a unique approach to examining and describing the Lebanese "alternative modernities" thesis and how it has shaped thinking about the meaning of terms like evolution, progress, development, history, and politics in contemporary Arab thought. The author draws on extensive ethnographic research, as well as her own personal experience.

When construction managers need to talk about the specifics of a construction job – where the electrical outlets need to go, when the framing will be completed, how a plumbing problem will be solved – they need to be able to communicate clearly and

effectively with workers. That task gets considerably more difficult when managers and workers are speaking in different languages. More than simple dictionary terms or phrases, managers need a tool for understanding the basics of the language their workers use – a resource that lets them communicate the myriad of questions, issues, schedules, and tasks that come up on a construction job. Learning Construction Spanglish is exactly the tool they need. This book offers up:

- *Communication tools – a method for understanding the basics of Spanglish – not just dictionary terms.*
- *Practical, useful on-the-job terms and phrases.*
- *Logical organization that makes info fast and easy to find.*
- *Both English/Spanish and Spanish/English glossaries.*

One of Sports Illustrated's Top 100 Sports Books of All Time—a history of soccer that “stands out like Pelé on a field of second-stringers” (The New Yorker). The beautiful game deserves a beautiful book, and Eduardo Galeano—one of Latin America's most acclaimed authors—has written it. From Aztec champions sacrificed to appease the gods, to the goals that were literally scored into wooden posts in Victorian England, to Spain's victory in the 2010 World Cup, *Soccer in Sun and Shadow* is a history of the sport unlike any other. Galeano portrays the irruption of South American soccer that made the game sublime: the elegant, mischievous, joyful style based

on deft dribbling, close passes, and quick changes in rhythm, perfected by poor black children who had no toy but a rag ball. He describes the superstitions that vex players, the martyrdom of referees, the exquisite misery of fans, the sad denouement of stars past their prime. Striding across the pages are players born with the ball—and entire nations—at their feet: Arthur Friedenreich, the son of a German immigrant and a black washerwoman, who first brought Brazilian style from the slums into the stadiums; Brazil's Garrincha, whose body, warped by polio, could make the ball dance; and the Dutch great Ruud Gullit, who campaigned against apartheid on and off the pitch. And, of course, Beckenbauer, Pelé, Cruyff, and Maradona, a man blessed with “the hand of God” and a left foot equally as divine. Soccer in Sun and Shadow traces the rise of the soccer industry and the concurrent voyage “from beauty to duty”: attempts to impose a soccer of lightning speed and brute force, one that disdains fantasy and forfeits play for results. Eduardo Galeano, who describes himself as “a beggar for good soccer,” gives the world's most popular sport all the poetry, passion, and politics it deserves.

Anarchist, journalist, drama critic, advocate of birth control and free love, Emma Goldman was the most famous—and notorious—woman in the early twentieth century. This abridged version of her two-volume autobiography takes her from her birthplace in czarist Russia to the socialist enclaves of Manhattan's Lower East Side. Against a dramatic backdrop of political argument, show trials, imprisonment, and tempestuous romances, Goldman chronicles the epoch that she helped shape: the reform movements of the Progressive Era, the early years of and later disillusionment with Lenin's Bolshevik experiment, and more. Sounding a call still heard today, Living My Life is a riveting account of political ferment and ideological turbulence. First time in Penguin Classics Condensed to half the length of Goldman's original work, this edition is accessible to those interested in the activist and her extraordinary era

Would life be better without alcohol? It's the nagging question more and more of us are finding harder to ignore, whether we have a "problem" with alcohol or not. After all, we yoga. We green juice. In the face of how we care for ourselves otherwise, it's hard to avoid how alcohol really makes us feel... terrible. How different would our lives be if we stopped drinking on autopilot? If we stopped drinking altogether? Really different, it turns out. Really better. Frank, funny, and always judgment free, Sober Curious is a bold guide to choosing to live hangover-free, from Ruby Warrington, one of the leading voices of the new sobriety movement. This book can be read like a series of short stories - the story of a steel worker who was laid off after twenty years in the same factory and who now struggles to support his family on unemployment benefits and a part-time job; the story of a trade unionist who finds his goals undermined by the changing nature of work; the story of a family from Algeria living in a housing estate in the outskirts of Paris whose members have to cope with pervasive, everyday forms of racism; the story of a school teacher confronted with urban violence; and many others as well. Reading these stories enables one to understand these people's lives and the forms of social suffering which are part of them. And the reader will see that this book offers not only a distinctive method for analysing social life, but also another way of practising politics.
