A funny, life-affirming memoir, in diary form. Set in the manic world of a busy teacher, and based on real experiences, Fran Hill's account of one typical year shows it's not just the pupils who misbehave. English teacher 'Miss'

starts the Autumn term beleaguered by self-doubts. She's mid-menopause, insomniac, and Mirror and Bathroom Scales are blisteringly unsympathetic. Her pupils make her laugh, weep, fume and despair, often in the same lesson. Her unremitting workload blights family time and she feels guilty for missing church events to catch up on marking. After all, God-lady is watching. Meanwhile, the new Head of Department seems unreachable, an Ofsted inspection looms, her sixth formers (against school policy) insist on sitting in rows, and there's a school magazine to produce ... When childhood secrets demand attention Miss doesn't want to give them, life gets complicated.

This book covers everything you need to know in preparing children for both pre-tests and 11+ entrance exams for admission into independent and grammar schools. It sets out ways in which children can become successful and confident learners over the years and months building up to these tests taken in Year 6. The author passionately believes that intelligence is

not fixed but can be nurtured and grown with the right support. The key to putting this into action is to understand how you learn and to master the strategies for learning, retaining and recalling information effectively. This book will help parents and teachers support children approach one of their first academic hurdles with confidence. The book begins by looking at why revision is important and how the brain works. It introduces the concept of growth mindset and how with the right support, confidence, resilience and independence can be nurtured. It provides guidance on physical and mental wellbeing (including a section on coping with stress). It moves on to cover ideas on how to gain control of studying and how to develop good

In their new book, the winners of the TES National Award for Outstanding Literacy Initiative share the secrets behind school improvement through raising literacy levels across the curriculum. Graham Tyrer and Patrick Taylor draw on the successful literacy initiative that raised their school from good to outstanding, as well as their work in three UK schools with a range of Ofsted ratings. The 54 practical strategies are grouped into beginning, embedding, sustaining and evaluating stages and include ideas such as choosing the literacy focus of your school, involving students as literacy leaders and creating a 'Litbox'. Each entry details the literacy outcomes of

Excel Comprehension and Written Expression Year 7 is essential for any student wishing to improve their comprehension skills. It allows students to practice skills such as finding facts, making references, isolating relevant information, understanding questions and paragraphs, and using tables of contents, indexes, maps and graphs to find information. The extracts are from a wide variety of genres to allow students to gain confidence in reading different materials. On several occasions extracts are reused. This is done to demonstrate that different comprehension skills can be developed from the same piece of writing. Comprehension skills are interdependent. As the student's ability to comprehend increases he/she will also be expected to interpret data. This includes the interpretation of information found in charts, in tables and on maps. In this book your child will find:

limited and fragmented leaving it as relatively blank spot in the international education arena. This book is the first-ever in the almost 60-year history of the European School that removes the obscurity and misconceptions that exist about it in a comprehensive manner. It describes, analyses and evaluates its position emanating from the main research question: what are the most important causes for its rise, what developments has it

seen and what results has it achieved considering the studies and careers of its alumni. Furthermore, it is critical of some of its practices, makes suggestions for improvements and opens a debate about future developments. It also touches on current internationalisation efforts and structures in secondary and higher education in some European countries.
