While Excel remains ubiquitous in the business world, recent Microsoft feedback forums are full of requests to include Python as an Excel scripting language. In fact, it's the top feature requested. What makes this combination so compelling? In this hands-on guide, Felix Zumstein--creator of xlwings, a popular open source package for automating Excel with Python--shows experienced Excel users how to integrate these two worlds efficiently. Excel has added quite a few new capabilities over the past couple of years, but its automation language, VBA, stopped evolving a long time ago. Many Excel power users have already adopted Python for daily automation tasks. This guide gets you started. Use Python without extensive programming knowledge Get started with modern tools, including Jupyter notebooks and Visual Studio code Use pandas to acquire, clean, and analyze data and replace typical Excel calculations Automate tedious tasks like consolidation of Excel workbooks and production of Excel reports Use xlwings to build interactive Excel tools that use Python as a calculation engine Connect Excel to databases and CSV files and fetch data from the internet using Python code Use Python as a single tool to replace VBA, Power Query, and Power Pivot

Microsoft Excel 2016 is one of the products offered in the new Microsoft Office 2016, dubbed Office 16. Designed to replace the previously released Office 2013 and Office for Mac 2011, the product was first released to the public in July of 2015. The initial release was on the OS X software designed for users of Office 365, with the licensed version becoming available by mid-September of the same year. Among the new features is the animated effect now included when making cell selections or highlighting content to share across cells. The effect is now smoother and thus more user friendly. Excel 2016 is able to boast compatibility with the basic keyboard shortcuts previously found in Microsoft Word. Users will be able to apply shortcuts like 'Ctrl + P' and 'Ctrl + C' to complete simple copy and paste functions. The status bar has now also been colorfully modified, while the Tables ribbon has been redesigned.
