Space Explorers

Tintin and the Moon

For thousands of years, the Moon has been the one thing in the night sky that everyone anywhere on our planet recognises. Trace the story of the Moon around the world and through history, from ancient legends about its creation, to its first sighting through a telescope, right up until the Apollo 11 mission and the first Moon landing in 1969.

Journey to the moon on the Apollo 12 mission with Alan Bean, the fourth astronaut to

## Download File PDF Explorers On The Moon

walk on the lunar surface and the only artist to paint its beauty firsthand! As a boy, Alan wanted to fly planes. As a young navy pilot, Alan wished he could paint the view from the cockpit. So he took an art class to learn patterns and forms. But no class could prepare him for the beauty of the lunar surface some 240,000 miles from Earth. In 1969, Alan became the fourth man and first artist on the moon. He took dozens of pictures, but none compared to what he saw through his artistic eyes. When he returned to Earth, he began to paint what he saw. Alan's paintings allowed humanity to experience what it truly felt like

to walk on the moon. Journalist and storyteller Dean Robbins's tale of this extraordinary astronaut is masterful, and artist Sean Rubin's illustrations are whimsical and unexpected. With back matter that includes photos of the NASA mission, images of Alan's paintings, and a timeline of lunar space travel, this is one adventure readers won't want to miss!

Award-winning former investigative reporter Basil Hero chronicles the life lessons humanity can learn from the twelve remaining Apollo astronauts who went to the Moon. In rare in-depth interviews, the twelve remaining

lunar explorers, for the first time, talk at length about the real right stuff; the true source of courage, leadership, and the quiet patriotism that it took to risk their lives going to the moon. Hero begins each chapter with key life lessons that readers can gain from these honorable men whom he calls the Eagles. He describes how they mastered their emotions and learned to conquer their fears through techniques that can be used from the classroom to the boardroom. More importantly their voyages to the Moon led them to the most incredible discovery of all: our home planet and its precious place in the

Land." Years later, two of Peary's disciples, George Borup and Donald MacMillan, take the brave steps Peary never did: with a team of amateur adventurers and intrepid native guides, they endeavor to reach this unknown land and fill in the last blank space on the globe. What follows is hardship and mishap the likes of which none of the explorers could possibly have imagined. From howling blizzards and desperate food shortages to crime and tragedy, the explorers experience a remarkable journey of endurance, courage, and hope. Set in one of the world's most inhospitable places, *A Wretched and Precarious Situation* is an Arctic tale unlike any other.
