A Short Introduction

A Reader's Guide to Contemporary Literary Theory

Ideal for introductory ethics courses, The Moral Life: An Introductory Reader in Ethics and Literature brings together a comprehensive collection of classical and contemporary readings on ethical theory and contemporary moral issues. The first two-thirds of the book comprises readings on historical and contemporary ethical theory; the final third is devoted to readings on a variety of contemporary moral issues. Integrating literature with philosophy in an innovative way, this anthology leverages literary works to enliven and make concrete the ethical theories and applied issues it covers.

This text for pre-service and in-service English education courses presents current methods of teaching literature to middle and high school students. The methods are based on social-constructivist/socio-cultural theories of literacy learning, and incorporate research on literary response conducted by the authors. Teaching Literature to Adolescents – a totally new text that draws on ideas from the best selling textbook, Teaching Literature in the Secondary School, by Beach and Marshall – reflects and builds on recent key developments in theory and practice in the field, including: the importance of providing students with a range of critical lenses for analyzing texts and interrogating the beliefs, attitudes, and ideological perspectives encountered in literature; organization of the literature curriculum around topics, themes, or issues; infusion of multicultural literature and emphasis on how writers portray race, class, and gender differences; use of drama as a tool for enhancing understanding of texts; employment of a range of different ways to write about literature; integration of critical analysis of film and media texts with the study of literature; blending of quality young adult literature into the curriculum; and attention to students who have difficulty succeeding in literature classes due to reading difficulties, disparities between school and home cultures, attitudes toward school/English, or lack of engagement with assigned texts or response activities. The interactive Web site contains recommended readings, resources, and activities; links to Web sites and PowerPoint presentations; and opportunities for readers to contribute teaching units to the Web site databases. Instructors and students in middle and high school English methods courses will appreciate the clear, engaging, useful integration of theory, methods, and pedagogical features offered in this text.

A concise, engaging, practical overview of children's literature that keeps the focus on the books children read. This brief introduction to children's literature genres leaves time to actually read children's books. Written on the assumption that the focus of a children's literature course should be on the actual books that children read, the authors first wrote this book in 1996 as a "textbook for people who don't like children's literature textbooks." Today it serves as an overview to shed light on the essentials of children's literature and how to use it effectively with young readers, from PreK to 8th grade. The authors use an enjoyable, conversational style to achieve their goal of providing a practical overview of children's books that offers a framework and background information, while keeping the spotlight on the books themselves.

Exploring Literature invites students to connect with works of literature in light of their own experiences and, ultimately, put those connections into writing. With engaging selections, provocative themes, and comprehensive coverage of the writing process, Madden's anthology is sure to capture the reader's imagination. Exploring Literature opens with five chapters dedicated to reading and writing about literature. An anthology follows, organized around five themes. Each thematic unit includes a rich diversity of short stories, poems, plays, and essays, as well as a case study to help students explore literature from various perspectives.

"Advances in technology, research, and evidence-based practice have led to improvements in the care of patients receiving radiation therapy. The knowledge and expertise required by nurses must focus on the needs of patients who come into their care at any point across the trajectory of the cancer journey. Nurses may work with patients at varying stages of the radiation therapy process and in a wide range of settings. Regardless, however, the need to be knowledgeable about the symptoms and side effects associated with this treatment is essential for nurses caring for this patient population. The Oncology Nursing Society has published the fifth edition of Manual for Radiation Oncology Nursing Practice and Education to support nurses who care for patients who will receive, are receiving, or have received radiation therapy. The fifth edition features significant updates and changes to the content to reflect advances in technology, treatment options, and symptom management. New sections have been added based on input from radiation oncology nurses or as a result of changes in treatment options, the needs of specific patient populations, and observations from clinical practice. New topics include patients with cognitive changes and dementia; general distress and coping; patients with mental illness; special populations, such as women who are pregnant, adolescents, and young adults; special needs related to late effects of treatment and cardiac toxicities; and treatment modalities, including cobalt therapy and immunotherapy. This manual serves as an essential resource for individual nurses new to working in a radiation therapy setting as well as to nurses wanting to advance their knowledge in radiation biology and protection, diverse radiation therapy modalities, combination treatments, site- or disease-specific concerns, symptom management, special populations, and care during transition points. Additionally, this manual can be a resource to advanced practice clinicians, educators, and administrators, with a focus on support for nursing staff seeking the education and skills required to care for patients receiving radiation therapy and their families"--

Literature, 9/e, the most popular introduction of its kind, is organized into three genres Fiction, Poetry, and Drama. As in past editions, the authors' collective poetic voice brings personal warmth and a human perspective to the discussion of literature, adding to students' interest in the readings. An introduction to a balance of contemporary and classic stories, poems, and plays. Casebooks offer in-depth look at an author or clusters of works, for example Latin American Poetry. Authors Joe Kennedy and Dana Gioia provide inviting and illuminating introductions to the authors included and to the elements of literature. Coverage of writing about literature is also included. For those interested in literature.

"Fiction 9/e," is a collection of short stories in all which offers a wide ranging view of classic and contemporary writers. An introduction to a balance of contemporary and classic stories. Casebooks offer in-depth look at an author or clusters of works, for example "Edgar Allen Poe." Authors Joe Kennedy and Dana Gioia provide inviting and illuminating introductions to the authors included and to the elements of fiction. Coverage of writing about literature is also included. For interested in learning more about fiction.

Relying on engaging selections, a strong emphasis on the writing process, and a visually appealing design, Exploring Poetry puts forth a guiding philosophy that a reader's personal response to poetry forms the foundation of his or her literary experience. This book presents a comprehensive coverage of both reading and writing of poetry. Writing assignments and prompts stimulate critical thinking about works of literature. "Two Readers, Two Choices" feature illustrates diversity of opinion and the various ways in which poetry can be read. This alphabetically arranged anthology covers a broad selection of classic and contemporary poetry. Additional features include a case study on poems and painting, author photos, a glossary of literary terms, an overview of literary criticism and advice on research and documentation. For anyone interested in poetry and literature.

Hailed by The New York Times as "a compelling dystopian look at paranoia from one of the most unique and perceptive writers of our time," this brief, captivating novel offers a cautionary tale. The story unfolds within a society in which all traces of individualism have been eliminated from every aspect of life — use of the word "I" is a capital offense. The hero, a rebel who discovers that man's greatest moral duty is the pursuit of his own happiness, embodies the values the author embraced in her personal philosophy of objectivism: reason, ethics, volition, and individualism. Anthem anticipates the themes Ayn Rand explored in her later masterpieces, The Fountainhead and Atlas Shrugged. Publisher's Weekly acclaimed it as "a diamond in the rough, often dwarfed by the superstar company it keeps with the author's more popular work, but every bit as gripping, daring, and powerful." Anthem is a dystopian fiction novella by Ayn Rand, written in 1937 and first published in 1938 in England. It takes place at some unspecified future date when mankind has entered another dark age characterized by irrationality, collectivism, and socialistic thinking and economics. Technological advancement is now carefully planned (when it is allowed to occur at all) and the concept of individuality has been eliminated.

Into the Wild

Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of Into the Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's storytelling blaze through every page.

Making Literature Matter combines an innovative writing text with a uniquely organized anthology for introductory literature courses that emphasize critical thinking and writing. The third edition addresses new trends in literature and composition, with more instruction on writing arguments and unique clusters that pair literary and visual texts for analysis.

Designed for literature-based writing courses, Text Book introduces students to the idea that literary texts and ordinary spoken and written language share many of the same features. By providing imaginative methods and unique assignments that let students work with those features in their writing, Text Book involves students in the processes of exploring literature creatively, not simply consuming and analyzing it, helping them understand literature "from the inside out."

This book brings together some of Rosenblatt's most important work, essays from the 1930s through the 1990s that explore the breadth and depth of her theory.

• Illustrates all the steps in preparing qualitative and quantitative literature reviews. • Emphasizes topic selection, locating literature, and avoiding major pitfalls in evaluating and synthesizing literature. • Shows how to improve literature reviews through the judicious inclusion of statistical results found in the literature. • Provides easy-to-follow advice on how to avoid misrepresenting the results of published research in literature reviews. • The numerous examples throughout the text and the nine model literature reviews clarify the process of following the guidelines for writing solid, state-of-the-art literature reviews. • Shows students how to blend qualitative and quantitative approaches to preparing literature reviews without being overly mathematical. • Two chapters present clear explanations of how to conduct meta-analyses. • All examples have been updated to ensure consistency with the sixth edition of the Publication Manual of the American Psychological Association and the fourth edition of the American Sociological Association's Style Guide.

Resonances: Engaging Music in Its Cultural Context offers a fresh curriculum for the college-level music appreciation course. The musical examples are drawn from classical, popular, and folk traditions from around the globe. These examples are organized into thematic chapters, each of which explores a particular way in which human beings use music. Topics include storytelling, political expression, spirituality, dance, domestic entertainment, and more. The chapters and examples can be taught in any order, making Resonances a flexible resource that can be adapted to your teaching or learning needs. This textbook is accompanied by a complete set of PowerPoint slides, a test bank, and learning objectives.

Pre-service and in-service teachers alike benefit from the experience of renowned authors Charles Temple, Miriam Martinez, and Junko Yokota as they share a wealth of richly illustrated, practical ideas for sharing literature with children. The authors focus on creating an understanding of how literature works and how children respond to literature, they provide a wide range of good books to use with children, and they suggest ways to guide children into books and help them enjoy the experience. Dozens of new authors and books have been added to this new edition of Children's books in Children's Hands: An Introduction to Their Literature, 4e, making it interesting and current, and the continued emphasis on cultural diversity includes a new chapter on international books.

In 1590 three hundred Scottish 'witches' were tried for plotting the murder of their King, James VI of Scotland (soon to be James I of England). James is known to have suffered from a morbid fear of violent death, and the trial heightened his anxiety over this apparently treasonous 'un-Christian' sect, and stimulated him to study the whole subject of witchcraft. 'Daemonologie' is the result of this royal research, detailing his opinions on the topic in the form of a Socratic dialogue between the sceptic Philomathes and witch-averse Epistemon, who reveals many aspects of witch-craft. The book consists of three sections, on magic, on sorcery and witchcraft, and on spirits and ghosts, and ends with a lurid account of the North Berwick witch trials, based on the evidence of Dr John Fian, the alleged head of the coven, whose 'confession' was obtained with the aid of thumbscrews, the Boot, and by the ripping out of his fingernails.

Written with a captivating voice, Engaging English Learners: Exploring Literature, Developing Literacy and Differentiating Instruction, 1/e presents teachers with a charming recital of the conversations and advice that are sure to engage every learner in an active role to glean meaning from text. Together, the authors highlight the use of reader-response theory in classrooms and uncover how it can affect literacy learning and second language acquisition. This book is a testament to their philosophical approach, illustrating how student-centered instruction using literature, can differentiate instruction for English learners, engaging them in purposeful reading and writing.
