*A dark fae king, three deadly trials, and a forbidden passion that could destroy everything . . . Fae exist only in stories told to children, or so I thought. That was before I woke up with a seven-pointed star branded into the flesh of my inner wrist. You see, everything changed when a nightmarish creature of the Fae Realm dropped into my life like a bad ex-boyfriend. He claimed the mark on my skin signified my magical lineage, the bit of DNA my mother passed down and never thought to mention before disappearing a decade ago. Now, he was here to collect her descendant-and the options were me-or my baby sister. There was no way in hell I would let Ava get wrapped in something like this, so I step up. Days after I arrive in the Fae Realm, I'm thrown into a series of trials titled 'The Devotion'. An extremely elevated, and beyond twisted dating game of sorts, the Fae use to wed off their royalty. I'm not interested in being anyone's forced-bride, so I'll do what I can to bide my time until I can haul ass out of here. Now, no-magic-me, is supposed to compete with demons, vampires, elves, and more, who want to claim their place at the future king's side. I have no interest in this guy, but it doesn't help that the king-to-be is a gorgeous, brooding fae, named Rowan Blaive. He's dominant, commanding, and everything I shouldn't want. But the longer I'm here, the more I'm questioning everything-including my own heart. A sexy new fantasy series perfect for fans of: Sarah J Maas, Holly Black, Jennifer L. Over a millennium ago, Erna, a seismically active yet beautiful world was settled by colonists from far-distant Earth. But the seemingly habitable planet was fraught with perils no one could have foretold, and the colonists found themselves caught in a desperate battle for survival against the fae, a terrifying natural force with the power to prey upon the human mind itself, drawing forth images from a person's worst nightmare or most treasured dreams and indiscriminately giving them life.

Twelve centuries after fate first stranded the colonists on Erna, mankind has achieved an uneasy stalemate, and human sorcerers manipulate the fae for their own profit, little realising that demonic forces which feed upon such efforts are rapidly gaining in strength. Now, as the hordes of the dark fae multiply, four people - Priest, Adept, Apprentice and Sorcerer - are about to be drawn inexorably together for a mission which will force them to confront an evil beyond their imagining, in a conflict which will put not only their own lives but the very fate of humankind in jeopardy ...

My blood is their salvation... and my ruin. [?]For years, the monsters who killed my family have held me in a cage. Brutalized and half-starved. Only kept alive so they can steal my blood. Until one evening when four eerily gorgeous men break me out of my prison. They give me a soft bed and delicious food. They say they'll protect me-but their generosity may come at a

price. My rescuers are monsters like my captors: fae who shift into wolves. A curse gripping the faerie realm turns them wild under the full moon. Only my blood can cure their rage. These fearsome men need me, and not just to lift the curse. A tragedy left them outcasts, and offering me to their rulers could win them back the home and the power they lost. No matter how kindly they treat me, no matter how their smoldering eyes and strong hands stir unfamiliar desires in both my body and my heart, their castle is just another prison. As long as I'm a prize more than a person, my life will never be my own. I've survived this long without giving up. I won't roll over now. But how can one damaged human girl hold her own against the savage fae? \*Captive of Wolves is the first in a new paranormal romance saga featuring possessive wolf shifters, fraught fae politics, and a wounded heroine coming into her own. “ Do you trust me Meghan? ” His voice was soft, almost pleading. I swallowed and tried hard to discern his expression in the dark. The paltry amount of light reaching this far into the small cavern glinted off his eyes, giving him the appearance of a demon trying to tempt me into doing something evil. “ Yes, ” I answered, my own voice a mere whisper, “ I trust you. ” “ Good. ” He gave my hand a quick squeeze, and then I was pulled forward into the icy abyss that loomed before us . . . A year ago, Meghan Elam learned that she was Faelorehn, a being of the Otherworld. Immortal. Now she must juggle her life in the mortal world with the one she has started to build in the Otherworld. However, keeping her identity secret from her friends and family while trying to avoid a wrathful Celtic goddess is no easy task. With the help of the intriguing Cade MacRoich, Meghan will learn that not only does she come from a place full of magic and wonder but that she, too, is far more powerful than she ever thought possible.

He wants to know why. She wants to belong. Gabe was born into privilege - money, a loving family, and encouragement to follow wherever his curiosity leads. Assigned to help investigate a failed magical portal in the Scottish Highlands in 1922, he's more than up for the challenge. He won't let an old injury - or the rumours of a lethal magical beast - get in the way of solving the problem. Rathna, the Portal Keeper he's been assigned to assist, is not at all what he expected. From their first meeting, it's clear that she's skilled, with a rare talent for magical energy. Her brown skin, the way she doesn't talk about her family, and her prickly insistence on proper form leave Gabe wondering, but she refuses to talk about anything other than their work. As Gabe and Rathna begin to investigate, mystery piles on mystery. The portal is on the side of a steep mountain for no good reason. There's an unknown man asking questions about Rathna's family. Even getting a drink in the pub has risks. As they begin to trust each other and share their secrets, Rathna becomes sure Gabe will disappear as soon as their work together is done. The Fossil Door features a ferocious desire to learn why things are as they are, a London-born Bengali heroine, awe-inspiring geology, life-changing secrets, and chosen family. Set in the magical community of the British Isles in 1920s, the Mysterious Powers series can be read in any order, and each book ends with a happily-ever-after (no cliffhangers.)
