Through a mishap in Professor Bulfinch's laboratory, Danny accidentally creates an anti-gravity paint. The natural use, of course, is for a spaceship -- the paint can replace rockets to get the ship into space. Unfortunately, the spaceship is launched prematurely after Danny and Joe follow Professor Bulfinch and Dr. Grimes on a tour of the ship. A mechanical failure dooms the four to a one-way trip out of the Solar System -- unless they can repair the spaceship in time! This is the first of the 15-volume Danny Dunn series and features the original cover by acclaimed artist Ezra Jack Keats. Look for "Danny Dunn on a Desert Island," the second volume of the series, coming soon from Wildside Press!

Ray Bradbury's novel *Fahrenheit 451* is an enduring masterwork of twentieth-century American literature—a chilling vision of a dystopian future built on the foundations of ignorance, censorship, and brutal repression. The origins and evolution of Bradbury's darkly magnificent tale are explored in *A Pleasure to Burn*, a collection of sixteen selected shorter works that prefigure the grand master's landmark novel. Classic, thematically interrelated stories alongside many crucial lesser-known ones—including, at the collection's heart, the novellas "Long After Midnight" and "The Fireman"—*A Pleasure to Burn* is an indispensable companion to the most powerful work of America's preeminent storyteller, a wondrous confirmation of the inimitable Bradbury's brilliance, magic . . . and fire.

Artists and theorists reflect on a "living library" project--people who memorize and recite books This book documents a project in which a group of people memorize a book of their choice, forming a library of "living books."

Now, the luckiest Cits live in enclosed communities,behind walls that keep them safe from the hideous creatures fighting to break through. Others are not so lucky. To Joyeaux Charmand, who has been a Hunter in her tight-knit mountain community since she was a child, every Cit without magic deserves her protection from dangerous Othersiders. Then she is called to Apex City, where the best Hunters are kept to protect the most important people. Joy soon realizes that the city's powerful leaders care more about luring Cits into a false sense of security than protecting them. More and more monsters are getting through the barriers,and the close calls are becoming too frequent to ignore. Yet the Cits have no sense of how much danger they're in-to them, Joy and her corp of fellow Hunters are just action stars they watch on TV. Fireman Guy Montag loves his job. Since houses have been made fireproof, firemen no longer put out house fires--now they burn books. No one is allowed to read books--no one wants to read books. Books are only filled with confusing and contradictory ideas, and it is more important to have fun and be entertained. But then Montag meets a new young neighbor girl who actually seems to think. When she asks him, "Are you happy?" he finds he has no answer. And when an old woman refuses to leave her books and dies in the flames, he wonders, what in her books inspires such passion? He determines to discover it for himself, though his rebellion, and his confusion, may cost him his life. A good examination of censorship and our responsibility to understand. In the public debate, questions of literature's societal function and worth have often been debated. Rather than to answer these questions, the authors of 'Forbidden Literature' seek to chart the discursive framework from which the discussions arise. In an exciting new light they show how literature occupies a dual position: on the one hand deemed necessary to control, and on the other utilized as an instrument of control. The individual studies deal with censorship's past and present, in liberal democracies as well as in totalitarian regimes - tracing an historical continuum wherein literature is conceived as a phenomenon in need of regulation. Asking how and why literature becomes the object of repressive measures, and how literary practices are shaped and transformed in relation to various mechanisms of regulation, the contributions provide a prismatic perspective on the complex relationship between literature and censorship. The participating scholars represent a variety of scientific disciplines. Dealing mainly with empirical material from the Nordic countries - involving both fiction and non-fiction from a range of periods - the different contributions ultimately address the principles at stake in the regulatory and prohibiting practises primarily focusing on the 20th and 21st centuries. Through a wide definition of censorship, this books constitutes a valuable contribution to contemporary discussions on censorship and to "new" threats to freedom of expression. American blacks, settled on Mars after centuries of abuse on earth, have a chance for revenge when a space ship bearing a white man arrives seeking help in the aftermath of World War III.

Will Professor Godfrey survive his mid-life crisis or will it lead to a disastrous result?

Fahrenheit 451 Comprehension Assessment

Hailed by The New York Times as "a compelling dystopian look at paranoia from one of the most unique and perceptive writers of our time," this brief, captivating novel offers a cautionary tale. The story unfolds within a society in which all traces of individualism have been eliminated from every aspect of life — use of the word "I" is a capital offense. The hero, a rebel who discovers that man's greatest moral duty is the pursuit of his own happiness, embodies the values the author embraced in her personal philosophy of objectivism: reason, ethics, volition, and individualism. Anthem anticipates the themes Ayn Rand explored in her later masterpieces, The Fountainhead and Atlas Shrugged.

Publisher's Weekly acclaimed it as "a diamond in the rough, often dwarfed by the superstar company it keeps with the author's more popular work, but every bit as gripping, daring, and powerful." Anthem is a dystopian fiction novella by Ayn Rand, written in 1937 and first published in 1938 in England. It takes place at some unspecified future date when mankind has entered another dark age characterized by irrationality, collectivism, and socialistic thinking and economics. Technological advancement is now carefully planned (when it is allowed to occur at all) and the concept of individuality has been eliminated.

ANTHEM

A Graphic Adaptation An HBO Original Movie starring Michael B. Jordan (Black Panther), Sofia Boutella (Star Trek: Beyond), and Michael Shannon (The Shape of Water). An Eisner Award Nominee "Monday burn Millay, Wednesday Whitman, Friday Faulkner, burn 'em to ashes, then burn the ashes." For Guy Montag, a career fireman for whom kerosene is perfume, this is not just an official slogan. It is a mantra, a duty, a way of life in a tightly monitored world where thinking is dangerous and books are forbidden. In 1953, Ray Bradbury envisioned one of the world's most unforgettable dystopian futures, and in Ray Bradbury's Fahrenheit 451, the artist Tim Hamilton translates this frightening modern masterpiece into a gorgeously imagined graphic novel. As could only occur with Bradbury's full cooperation in this authorized adaptation, Hamilton has created a striking work of art that uniquely captures Montag's awakening to the evil of government-controlled thought and the inestimable value of philosophy, theology, and literature. Including an original foreword by Ray Bradbury and fully depicting the brilliance and force of his canonic and beloved masterwork, Ray Bradbury's Fahrenheit 451 is an exceptional, haunting work of graphic literature.

Get drawn into a dystopian world to witness the struggle between one's self and their society. Students imagine what themes might be present in a dystopian future as perceived during the early 1950s. Predict what will happen to the woman whose books were hidden in the attic. Complete a paragraph from the novel with their missing vocabulary words. Answer multiple choice questions about the character Faber. Students reflect on the women's discussion of the two presidential candidates, and whether a person's name and appearance plays any factor in today's politics. Depict an alternate reality where Beatty and Montag join forces concerning their interest with books and the information they contain. Aligned to your State Standards and written to Bloom's Taxonomy, additional crossword, word search, comprehension quiz and answer key are also included. About the Novel: Fahrenheit 451, written by Ray Bradbury, is the story of a man's struggle with his society and himself. The story begins with Guy Montag, a "fireman" charged with the job of burning books that have become outlawed. In this society, books have been deemed to have no value with new media and sports accommodating short attention spans. His struggle begins when he meets his neighbor Clarisse McClellan, a free-thinker that begins to open his mind. From there, he soon finds himself stealing the books he was tasked to destroy. Montag's struggle culminates in an attempt to discover the value of books himself, putting him in the very same danger as those he once persecuted.
