Pronunciation Guide to the 150 Most Commonly Mispronounced Words--and Their Tangled Histories of MisuseTen Speed Press

It is widely believed that linguistic theories and information technology have considerably influenced foreign language education. However, the collaboration of these three domains has not brought about new scientific results. It is thus, our attempt to realize an integration of theoretical and applied linguistics on the basis of computer sciences, and establish a new synthetic field called "Linguistic Informatics." The present volume constitutes the Proceedings of the First International Conference on Linguistic Informatics held at Tokyo University of Foreign Studies (TUPS) in December 2003. The volume is comprised of five chapters. 1. Computer-Assisted Linguistics: Potential for collaboration between linguistics and informatics. 2. Corpus Linguistics : Status report on corpus-based linguistic research. 3. Applied Linguistics : Relationship between second language acquisition and linguistic theory. 4. Discourse Analysis and Language Teaching : Current status of natural dialogue-based discourse analysis. 5. TUPS Language Modules : Development of multilingual e-learning materials covering 17 different languages.

The standard style guide of the Christian publishing industry, The Christian Writer's Manual of Style, 4th Edition, compiled by veteran Zondervan editor Robert Hudson, contains clear guidance on style questions related to religious writing, including many topics not addressed in other references or online. Nearly half of this fourth revision is made up of new material, including information about turning blogs into books, the effects of digital media on writing, "adverbial doubles," "vanishing accents," "word-choice strategies, endorser guidelines, and much more. It also contains an all-new "Word List" which makes up more than a third of the book. The most needed information remains—entries on capitalization, abbreviation, citations, fictional dialogue, and more—but it has all been updated to keep pace with changes in English language usage. This fourth edition also corresponds with The Chicago Manual of Style, 16th Edition (2010), though it isn't afraid to chart new territory where that reference is unhelpful on issues of religious writing. Comprehensive yet easy-to-use, The Christian Writer's Manual of Style, 4th Edition, is a go-to resource for Christian authors, pastors, teachers, copy writers, editors, proofreaders, publishing and ministry professionals, executive assistants, and students—anyone who writes or edits as a part of their work or study—and for grammar aficionados everywhere.
