Manufacturing in the United States is currently undergoing a major transition, yet large numbers of manufacturers simply do not recognize what it is all about. Many still operate under out dated manufacturing practices and do not see that the enemy is not the competition, but rather their own system of production.

This new, innovative textbook provides a highly accessible introduction to the principles of marketing, presenting a theoretical foundation and illustrating the application of the theory through a wealth of case studies.

Author Rich Brott notes six themes that are mutually dependent upon each other, each of which represent a necessary requirement for a successful business. They are, Knowledge, Experience, Ability, Opportunity, Capital, and Commitment. When it comes to business failures, the stats are not pretty. Within the first year of operation, over 50% of businesses fail. Extend the time period to five years, and the statistics become even worse. In that time period over 95% of all businesses fail. From the beginning, business is risky and chances of success poor. But you can significantly improve your chances of success with good insight, preparation and planning. The author notes that in this book he wants to help you in the area of establishing your business and will do so by leading you step-by-step through these critical areas.

There are hundreds of books out there on sales, but 7 Secrets to Successful Sales Management is one of the few aimed directly at the most critical person in the sales organization: the sales manager. A practical, hands-on guide, the book presents an integrated approach to sales management and combines the author's experience with innovative strategies for motivating your sales force, recruiting quality sales people, and training new employees. Written by a grizzled veteran, the book reflects his success and allows you to learn from his mistakes. As Jack Wilner is fond of saying, "Nothing in this book is theoretical. It's all based on one thing and one thing only-what works!"

When was the last time you heard about Mark Zuckerberg, Elon Musk or Richard Branson? If you are like most people, you are told about the heroes of entrepreneurship every day. This is entirely unnecessary—research clearly shows that anyone can learn to successfully launch and run a business. Demystifying the topic, “Entrepreneurial Living” explains entrepreneurship as something that can be measured and understood. It tells you how to get started with a hands-on guide to entrepreneurship. Using the analogy of a board game and illustrative examples, the book teaches you the fundamentals of entrepreneurial life.

Women are rocking the world of business, changing the face of commerce, and bringing our talents to the marketplace with fervor, commitment, and passion. Over the last 15 years, women have stepped into entrepreneurship in significantly greater numbers than men, but we're also failing at those businesses even faster than men. This book is going to change that. Women Rocking Business provides a revolutionary approach to building a business that honors innate feminine values. The book is full of practical "how-to's" that will help women become thriving entrepreneurs from a place of empowering others rather than powering over them, a place of collaboration rather than competition and contribution rather than greed. Sage Lavine has seen firsthand through working with thousands of emerging female entrepreneurs that when women learn about marketing and entrepreneurship through this lens, they are better positioned to implement effective strategies and create success. Sage is the CEO of Women Rocking Business, a consulting and coaching organization that has touched and inspired over 75,000 aspiring women entrepreneurs around the globe to build businesses that change the world. In this practical guidebook, she lays out a specific plan for building a business that honors work-life balance to a degree readers may not have thought possible (or practical). They will discover how, by working just 12 days a month or less, they can have a career that both supports them financially and fits into their lives, rather than having to settle for a life that fits around an overwhelming work schedule. It's a new day and the opportunity for women is great. This book will be an answered prayer for women who hope to unleash their life's potential and make their mark upon the world.

? How can my business survive in this over-saturated market? ? How can I cut through the noise in my market? ? How can I build a successful online business with no authority and no testimonials? ? What tools do I need to start my online business? In this book, Kavoos Stark, the german online business coach, will answer all these questions. Kavoos stepped too late into the coaching market, and the results were unsatisfying! So he stopped everything and started documenting what worked well and what didn't. He did that in four steps: ? He realized he needed to document all the problems he needed to solve. ? Then, he understood that the root

of many of his obstacles was his mindset. ? After that, he started to test what works and what does not. So he found out the only activities that brought him results were inbound, so he chose to have an inbound mentality and system. That became his roadmap, and in this book, he is sharing it without holding anything back. ? He created a toolset for his customers to implement his roadmap. Each of the steps became a chapter in this book.
