Periodization is a methodology - popularized by coaches such as Jose Mourinho and Andre Villas Boas - that trains soccer players through a logical process that focuses on four moments of the game. These four moments are:

Access Free Fc Barcelona A Tactical Analysis Attacking

Offensive

Organisation, the
Transition from
Defence to Attack,
Defensive
Organisation, and
the Transition from
Attack to Defence.
Through Tactical
Periodization, the
aim is to develop
players to rapidly
alter their on-field

behaviours according to the tactical context of the match, and what actually unfolds in front of them. In turn, every training exercise focuses on at least one of the four moments, and always the coach's tactical game model of how he wants his

team to play. In doing so, football players prepare and learn how best to conquer the often unpredictable matches that they encounter competitively. This book is the English language translation of the acclaimed book *Periodizacion*
