A companion for anyone experiencing the effects of trauma, featuring true stories of survivors from a broad, inclusive range of backgrounds With Pleasure: Managing Trauma Triggers for More Vibrant Sex and Relationships is a companion for anyone experiencing the effects of trauma. Through true survivor stories, expert insight, writing prompts, and grounding exercises, it explores pleasure, relationships, and community as worthy and essential antidotes in trying times. Written by trauma-informed sex therapist Jamila Dawson, LMFT, and sexuality journalist and podcaster August McLaughlin, With Pleasure provides a much-needed alternative to harmful "self-help" ideologies that instruct people to "change their thoughts" or "choose to be happy." Instead, Dawson and McLaughlin encourage readers to respect their feelings, understand the complexities of a society and systems that fuel trauma, foster self-compassion, and embrace pleasure.

"Do you sometimes feel . . . Down, depressed, or unhappy? Anxious, panicky, or insecure? Guilty or ashamed? Inferior, inadequate, or worthless? Lonely, unwanted, or alone? For decades, we've been told that negative feelings like depression and anxiety are the result of what's wrong with us, like a personality defect, a "mental disorder," or a chemical imbalance in your brain. These messages create feelings of shame and make it sound like we're broken and need to be "fixed." Now, Dr. David Burns, author of the best-selling and highly acclaimed Feeling Good: The New Mood Therapy, reveals that our negative moods do not result from what's wrong with us, but rather -- what's right with us. And when you listen and suddenly "hear" what your negative thoughts and feelings are trying to tell you, suddenly you won't need them anymore, and recovery will be just a stone's throw away. In his innovative book, Feeling Great, Dr. Burns, describes a new and revolutionary high-speed treatment for depression and anxiety based on 40 years of research and more than 40,000 hours treating individuals with severe mood problems. The goal is not just a rapid and complete elimination of negative feelings, but the development of feelings of joy and enlightenment. Dr. Burns will provide you with inspiring and mind-blowing case studies along with more than 50 amazing tools to crush the negative thoughts that rob you of happiness and self-esteem. You can change the way you feel! You owe it to yourself to FEEL GREAT!"-- Saying good-bye after a visit with his beloved grandfather who reminds him that they both live under the same moon, young Max is astonished to observe the moon following him home and is comforted by the knowledge that the moon will always shine above everyone he loves.

Four siblings experience the drama, intrigue, and upheaval of the '60s summer when everything changed in Elin Hilderbrand's #1 New York Times bestselling historical novel. Welcome to the most tumultuous summer of the twentieth century. It's 1969, and for the Levin family, the times they are a-changing. Every year the children have looked forward to spending the summer at their grandmother's historic home in downtown Nantucket. But like so much else in America, nothing is the same: Blair, the oldest sister, is marooned in Boston, pregnant with twins and unable to travel. Middle sister Kirby, caught up in the thrilling vortex of civil rights protests and determined to be independent, takes a summer job on Martha's Vineyard. Only-son Tiger is an infantry soldier, recently deployed to Vietnam. And thirteen-year-old Jessie suddenly feels like an only child, marooned in the house with her out-of-touch grandmother and her worried mother, while each of them hides a troubling secret. As the summer heats up, Ted Kennedy sinks a car in Chappaquiddick, man flies to the moon, and Jessie and her family experience their own dramatic upheavals along with the rest of the country. In her first historical novel, rich with the details of an era that shaped both a nation and an island thirty miles out to sea, Elin Hilderbrand once again earns her title as queen of the summer novel.

Sally, a Christian, laments having an abortion years ago. ? I know the Lord has forgiven me, but I just can't forgive myself.? What would you say to her? Maybe you yourself have struggled with ?self-forgiveness? and wonder how to deal with feelings of guilt. Why is self-forgiveness such an attractive notion? What, if anything, does the Bible say about it? Robert D. Jones identifies five possible assumptions behind the longing for self-forgiveness. In the process, he pinpoints a deeper problem-and a deeper solution to ongoing guilt. By dispelling a number of misconceptions, Jones clears the path to a joyful realization of complete forgiveness in Christ.

Are you plagued by fears, phobias, or panic attacks? Do you toss and turn at night with a knot in your stomach, worrying about your job, your family, work, your health, or relationships? Do you suffer from crippling shyness, obsessive doubts, or feelings of insecurity? What you may not realize is that these fears are almost never based on reality. When you're anxious, you're actually fooling yourself, telling yourself things that simply aren't true. Fortune Telling: "I just know I'll freeze up and blow it when I take my test." Mind Reading: "Everyone at this party can see how nervous I am." Magnification: "Flying is so dangerous. I think this plane is going to crash!" Should Statements: "I shouldn't be so anxious and insecure. Other people don't feel this way." Emotional Reasoning: "I feel like I'm on the verge of cracking up!" Self-Blame: "What's wrong with me? I'm such a loser!" Mental Filter: "Why can't I get anything done? My life seems like one long procrastination." Now imagine what it would feel like to live a life that's free of worries and self-doubt; to go to sleep at night feeling peaceful and relaxed; to overcome your shyness and have fun with other people; to give dynamic presentations without worrying yourself sick ahead of time; to enjoy greater creativity, productivity and self-confidence. As seen in Time, USA TODAY, The Atlantic, The Wall Street Journal, and on CBS This Morning, BBC, PBS, CNN, and NPR, iGen is crucial reading to understand how the children, teens, and young adults born in the mid-1990s and later are vastly different from their Millennial predecessors, and from any other generation. With generational divides wider than ever, parents, educators, and employers have an urgent need to understand today's rising generation of teens and young adults. Born in the mid-1990s up to the mid-2000s, iGen is the first generation to spend their entire adolescence in the age of the smartphone. With social media and texting replacing other activities, iGen spends less time with their friends in person—perhaps contributing to their unprecedented levels of anxiety, depression, and loneliness. But technology is not the only thing that makes iGen distinct from every generation before them; they are also different in how they spend their time, how they behave, and in their attitudes toward religion, sexuality, and politics. They socialize in completely new ways, reject once sacred social taboos, and want different things from their lives and careers. More than previous generations, they are obsessed with safety, focused on tolerance, and have no patience for inequality. How to Write a Song (Even If You've Never Written One Before and You Think You Suck)

Summer of '69

A Man Named Dave, which has sold over 1 million copies, is the gripping conclusion to Dave Pelzer's inspirational and New York Times bestselling trilogy of memoirs that began with A Child Called "It" and The Lost Boy. "All those years you tried your best to break me, and I'm still here. One day you'll see, I'm going to make something of myself." These words were Dave Pelzer's declaration of independence to his mother, and they represented the ultimate act of self-reliance.

Dave's father never intervened as his mother abused him with shocking brutality, denying him food and clothing, torturing him in any way she could imagine. This was the woman who told her son she could kill him any time she wanted to—and nearly did. The more than two million readers of Pelzer's New York Times and international bestselling memoirs A Child Called "It" and The Lost Boy know that he lived to tell his courageous story. With stunning generosity of spirit, Dave Pelzer invites readers on his journey to discover how he turned shame into pride and rejection into acceptance.

A seemingly ordinary village participates in a yearly lottery to determine a sacrificial victim.
